

18,000 IN GALICIA TAKE BY RUSSIANS

Stanislaus Is Entered; Enemy Quits Czernowitz—Germans Retire Near Border.

TEUTONS GAIN ELSEWHERE

Tzok-Lupkov Line Positions Captured, Says Unofficial Austrian Report—Fighting Is Steadily Growing in Intensity.

LONDON, March 6.—Germany's admission that superior forces of the enemy have compelled Field Marshal von Hindenburg's forces to retire from Mysyniec, which lies close to the East Prussian border, Russian reports of occupying the fortifications at Konopki (North Poland) and Stanislaus (East Galicia), and unofficial reports that the Austrians have been driven to evacuate Czernowitz, capital of Bukovina, and the capture of fortified positions near Cracow, comprise the gains scored by the Czar's armies as announced today.

The Petrograd correspondent of Reuters' Telegram Company sends the following dispatch:

"It is announced that during the operations around Stanislaus (Galicia) between February 21 and March 2, the Russians made 157 officers and 15,222 men prisoners and captured five guns, 62 machine guns, 519 horses and numerous trains."

Austro-Germans Gain Positions.

On the other hand, the Austro-German forces have advanced in the Carpathians and officers who have been taken prisoner declare their troops never before suffered so severely, says a Reuter dispatch.

Some divisions are reported to have been completely annihilated.

Fighting in East Galicia is growing in intensity. The Berlin report credits the Russians with maintaining a separate offensive. An Austrian official report says the attacks of the Russians are waning. Russian reports say the same about the Austrian operations.

Regarding the campaign in North Poland the German report says it appears an affair of shifting local success for one side and then the other.

Each Report Heavy Losses.

Each side reports that the losses suffered by the enemy in the furious battles of the past few days in East Galicia and the Carpathians have been unusually heavy.

The following is the official communication from the Russian general staff:

"Along the entire Niemen-Vistula front obstinate fighting continues. In certain sections our troops have made progress, particularly in the region of Moczarszy, where we captured six machine guns and four officers and several hundred soldiers. We also captured a number of German troops whom we occupied the fortifications at Konopki.

"In the Carpathians at Zakliczany (Southeast of Cracow) we captured some fortified positions of the enemy.

"The Austrian attacks yesterday were a little less vigorous.

"In East Galicia on March 4 the Russian troops entered Stanislaus, having successfully crossed the Lukwa."

Many Russians Captured.

The official German report says: "The situation around Grodno (North Poland) is unchanged. Russian attacks northeast and north of Lomza failed with heavy losses to the enemy. Many prisoners of the first and second Russian divisions of guards are in our hands.

"Farther on, as far as the Vistula, the situation is unchanged.

"A few advances by Russians east of Plock were unsuccessful and strong night attacks executed by the enemy east of Skiernowice failed completely.

"Vienna gave out the following official communication:

"Along the front in Russian Poland and Western Galicia yesterday general quiet prevailed. Fighting occurred in some sections of the Carpathians, but the situation on the whole is unchanged."

DUMDUMS INQUIRED INTO

Bryan Takes Action on Evidence Submitted by Germany.

WASHINGTON, March 5.—Investigation of alleged manufacture of dum-dum bullets in the United States for the use of the allies has been undertaken by the State Department as the result of the submission of new evidence by the German embassy.

Secretary Bryan announced today that an inquiry had been ordered. When the inquiry had been completed, he said, he would report to the President.

FRENCH SAY THEY GAIN MUCH GROUND

Capture of Many Prisoners and Numerous Guns Related in Official Report.

GUARD COMPANY TAKEN

German Prisoners Said to Have Admitted Losses of Their Army Are Heavy—Attack on Wire En- tanglements Is Costly.

PARIS, via London, March 5.—The following French official statement was issued here tonight:

"In Belgium, in the region of the dunes, we have organized solidly the advanced trenches taken by us yesterday. The Germans attempted to push forward their trench into contact with ours, but 12 times our fire dispersed them.

"To the north of Arras our counter-attacks in the region of Notre Dame de Perthes were crowned with complete success. On Thursday night we captured a machine gun company. On Friday the enemy made a new attack, but we thrust them back, regained the lost positions which had been for two days in their possession and made numerous prisoners.

"Perthes has been bombarded all day long.

German Company Captured.

"In Champagne, in the region of Perthes, we made marked progress. On Thursday night a company of the German guards became surrounded in our lines and was captured. On Friday we gained ground all along the front, and occupied to the north of Perthes a salient, where we took prisoners, captured a trench and destroyed 400 yards of trenches with a depth of 200 meters beyond the group which lies northeast of Mesnil and made progress in the adjacent woods. Finally we gained possession of several trenches north of Beauséjour. According to prisoners' accounts, the enemy's losses were extremely high. The morale of our troops was excellent.

"In the Argonne region, at Vauquois, we made important progress in the western portion of the village, the only part where the Germans still hold their ground.

Wire Entanglements Approached.

"In the forest of Le Petre a German attack was repulsed easily.

"In the region of Badonvillers and in the region of Celles our attacks made headway, having brought us into immediate contact with the enemy's wire entanglements. We repulsed a counter-attack.

"In Alsace, at Hartmannsweilerkopf, we captured a trench, a small fort and two machine guns.

"The earlier reports of a failure of the continued bombardment of Rheims, and also says:

"North of Arras, near Notre Dame de Lorette, we have captured most of the advanced trenches and lost the day before yesterday. We took 150 prisoners.

"In Champagne, north of Souain, in the region of Beauséjour, there has been nothing new to report since last night's communication.

"In the Argonne, at Vauquois, we have repulsed a counter-attack and made new progress, inflicting appreciable losses on the enemy and taking many prisoners. We are masters of the greater part of the villages.

BRITISH FAIL BEFORE GUNS

German Say They Also Slew 1000
Frenchmen Near Celles.

BERLIN, March 5, via London.—The War Office today gave out the following report:

"South of Ypres we inflicted considerable loss on the British with artillery fire. In the positions in the Lorette hills, which we took away from the French, a counter attack was repulsed yesterday afternoon.

"In the Champagne district yesterday and last night the French continued attacks north of Le Mesnil. All their attacks were repulsed and our positions were not endangered.

"Attacks on our positions at Vauquois, east of the Argonne and in the Forest of Consenvoye, east of the Meuse, failed. All our positions in our possession of ground captured in the last few days in the district of Badonvillers failed.

"An attack undertaken last night with considerable forces on the heights northeast of Celles broke down with heavy losses to the French. Several night attacks also were unsuccessful, and several Frenchmen are lying before our entanglements."

Canadian Troops Attack Boldly.

PARIS, March 5.—A dispatch to the Havas agency from Belgium says that on March 3 a bold attack on a German trench was made by Canadian troops. The Canadians lost one killed and one wounded and are said to have inflicted a considerable loss on the enemy.

ACCUSED RECTOR RESIGNS

Woman Says Clergyman Hypnotized
Her Into Loving Him.

ROSS VALLEY, Cal., March 5.—Rev. Hubert Cowley-Carl, rector of St. John's Episcopal Church, parish which includes many people of wealth, resigned his charge last night, following a spectacular scene at the Wednesday night service in which Mrs. Lucille Fields, an ex-parishioner, rose in the midst of the sermon and shouted charges of conduct unbecoming a clergyman against her ex-pastor.

Mrs. Fields rushed to the pulpit at the end of a Lenten vesper service two years ago and tore a Bible into shreds. She engaged in a scuffle with the rector with a bruised eye. The next day she said the minister had hypnotized her into loving him.

PEOPLES THEATER CROWDED FOR HIT, 'THE LOVE ROUTE'

The great Broadway success, "The Love Route," has proved a tremendous drawing card at the Peoples Theater. It must be pulled off tonight, to make way for "A Gentleman of Leisure," featuring Wallace Eddinger, tomorrow and until Wednesday night.

"Rule G," the sensational railroad play, will be the Peoples Paramount feature for Thursday.

An interesting comedy has also been added to today's bill, with the ever-popular Pathe Weekly.

Again departing from the beaten path in the production of feature photoplays, the Famous Players Film Company have produced in "The Love Route" a feature entirely new to the screen.

To see a railroad in the actual course of construction; to see the men go down with all the implements and machinery necessary to the building of a railroad; to see the rails laid and spiked under innumerable difficulties presents a photoplay of unusual interest and merit.

This unique feature is only one of many interesting effects. The plot deals with the engineer of the road, the young civil engineer of the road, to run the rails of a branch line through the ranch owned by his former sweetheart, who, however, fights him through the railroad company in this intention to marry him.

The many clashes between the man and woman in their respective efforts to complete and prevent the laying of the rails is exciting to the nth power. All these stirring incidents culminate in a compelling climax and a tender finale.

In the construction of the railroad no expense seems to have been spared, and the illusion is perfect.

Every intricate process necessary for the actual construction of a road is minutely registered; every piece of modern building machinery produces its service to make the construction a real one for the screen.

Produced at Los Angeles and the surrounding country, many beautiful scenic views are shown which the West alone can produce, enhance the value of the picture.

OBREGON TO TAKE TO FIELD Troops Take All Movable Property in Mexico, Say Travelers.

EL PASO, Tex., March 5.—The purpose of General Obregon's contemplated evacuation of Mexico City is to launch a campaign against the Villa forces in the north, according to persons arriving here today from the interior. These persons today from the south described conditions in and about the capital as chaotic.

Most all portable property of value, the refugees said, had been confiscated by Obregon's troops. Smallpox had broken out at Vera Cruz, they said, and the case of typhoid fever, he said, is believed in some quarters, may assist the negotiations which the State Department has initiated to obtain a solution of the Carranza situation. Carranza's refusal heretofore to heed representations from the Washington Government.

FEW BRITONS ARE ILL

NO TYPHUS OR CHOLERA CASE IN
ARMY IN SIX MONTHS.

Disease That Is Greatest Cause of
Mortality Among Troops Is Pneumonia, Which Kills 357 Men.

LONDON, Feb. 14.—(Correspondence of the Associated Press.)—The first six months of the war passed without a single case of typhoid fever or cholera in the British army, including both the expeditionary force and the troops in the British training camps. Smallpox claimed only one man in the Great Britain, but returns in this respect have not been given out by the armies in France and Egypt. Of 753 cases of pneumonia, which is the greatest cause of mortality among the troops has been pneumonia, which resulted in 357 deaths out of 1598 cases.

As regards other diseases, 625 cases of typhoid fever and 49 deaths are reported in the expeditionary force, and 282 cases and 47 deaths in the camps in the United Kingdom. Scarlet fever had only 196 cases and four deaths in the expedition, as against 1378 cases and 22 deaths in Great Britain.

Measles, a disease associated with childhood, sent 1045 recruits to the English training camp hospitals, with 65 deaths, while the sea-sick men on the Continent had only 175 sick from this cause, with two deaths.

Considering that the British army, regular and territorial, began the war with 1,000,000 men and has since expanded to about 2,500,000, the low death rate is said to have probably established a record. The report of the War Office says that the British army is now on the sick report.

OXFORD, England, Feb. 19.—(Correspondence of the Associated Press.)—Officials at Oxford University have ordered additional precautions against a raid by Zeppelins or aeroplanes. No bright lights of any kind are allowed and most of the colleges are absolutely dark after nightfall. The street lights have been darkened. In the event of a raid a siren is to be blown to enable students to seek refuge.
