WORLD ALLIANCE NEEDED

English Author Says War Has Progressed Sufficiently to Prove No Possibility for Overwhelming Victory for Germany.

CONCLUDING ARTICLE. GIVEN a permanent world congress developed out of the congress of settlement between the belligerents, a world alliance, with as a last resort a call upon the forces of the associated powers, for dealing with recalcitrants, then a great number of possibilities open out to humanity that must otherwise remain inaccessible. But before we go on to consider these possibilities, it is well to note that a more likely world congress is to effect a satisfactory settlement at the end of this war than a congress confined to the belligerents.

The war has progressed sufficiently to convince every one that there is no possibility of an overwhelming victory for Germany. The only possibility of a more or less complete defeat of the German and Turkish alliance, and in a considerable readjustment of Austrian and Turkish boundaries to the detriment of the doomed Austrians and Turks, the Germans are fighting now to secure a voice as equal to theirs in the final settlement, and it is conceivable that in the end that settlement may be made quite an attractive one for Germany.

There are, however, a possible third source from which the proposal for a world congress might come, and that is The Hague. Were there a man of force and genius at The Hague now, and not as the scribes, he might thrust enormous benefits upon the world.

It is from these three sources that I most hope for leading now. Of the new Pope and his influence I know nothing. But in the present situation of the world, it is not to be expected that he will wait idle until leaders clear the way for us. Every man who realizes the broad conditions of the situation, can do his utmost to read his realization of the possibilities of a world congress and the establishment of world law, and work for that. He behind the monstrous agonies and cruelties and confusions of this catastrophic year. Given an immense body of opinion in the world, it is not to be expected that where, falling it, they will be fruitless.

The method known as the "twilight sleep" explained the physician, has come into prominence through magazine articles telling of its successful use at Freiberg, Germany. It was not originated by the Freiberg doctors, however, but has been used before, she said. She herself has had two cases in this city, but as they were not such difficult ones as her last, she does not regard them as being so valuable as a test of the merits of the method.

She said that quiet is essential while the mother is under the influence of the drugs, or she will weaken. The patient must be kept on the border line of consciousness. It is on this account

that the home of Mrs. Buckley was chosen by the doctor.

Auto Theft Reported to Police. R. W. Anderson, 1227 Albina avenue, reported to the police last night that his automobile had been stolen from West Park and Morrison streets.

A Particular Cook. (Kansas City Journal.) "How about the new cook?" "She says she wants three nights out a week, a beefsteak at every meal, and a room with southern exposure." "Has she any references?" "No; all she has is preference."

Twilight Baby Born. Mrs. Merle Heard Finds Period of Unconsciousness.

ORDEAL WITHOUT SHOCK. Woman and Little Daughter Happy Two Days After Great Event and Doctor Says That Case Was Extremely Obstinate.

Margaret Gail, 2-day-old daughter of Mrs. Merle Heard, stretched out her chubby clutched fists luxuriously after her bath early last night in the way that babies have and snuggled contentedly down to sleep in her basket, as good-natured a child as one would see in many a day.

Perhaps she was the more contented because in giving her life her mother did not face death by slow torture; for Margaret Gail is a "twilight sleep" baby. She first saw the light of day in the home of Mrs. W. E. Buckley, 675 East Ankeny street, on Thursday.

Her mother, too, was in a contented mood last night and talked of her first-born in the land of dreams when her baby came.

She not only did not suffer pain, she said, but she did not know anything of what happened.

Mother Long Unconscious. "From midnight Wednesday until late afternoon of the following day, for almost 15 hours, she was mercifully unconscious. Yet the case was one of the most obstinate that has come to the attention of Mrs. Buckley, a trained nurse of experience.

The physician, a well-known woman doctor of the city, said: "The case is interesting because labor was difficult and on that account I regard it as an especially good test of the injection of scopolamin and narcotine, used in 'twilight sleep' cases, began at midnight Wednesday and a lesser quantity than is ordinarily administered."

"I don't remember anything about it," said Mrs. Heard. "The last I remember was about midnight Wednesday and I didn't wake up until almost 4 o'clock Thursday."

She said she felt well and her appearance bore out her statement. Mrs. Heard lives at East Sixth and Davis
