OREGON CITY, Or., March 14. (Special.)-Twelve thousand gallons of the sulphide liquid, claimed by some to excel oil as a road dressing, will be applied to Singer Hill road by the street committee of the Council as a test to determine the real merits of the liquid. In case it is a success the sulphilde liquid will be applied to Oregon City streets instead of oil. The sulphide liquid is a waste prod-

uct from local paper mills and can be secured at a far less cost than oil, Ex-County Road Engineer Hobson became interested in the matter some time ago and has approached the Crewn Willamette Faper Company in an attempt to lease the right to secure the waste liquid from all the plants of the company in the Northwest.
