## OUT-OF-TOWN MAIL ORDERS

Filled From This and All Our Ads If Received Within 3 Days of Date of Publication

We give our out-of-town customers the same privilege of buying from our daily advertisements as those who live in the city. Moreover, our method is not a "mail-order system," it is, rather, a systematized shopping service which gives the personal attention of a trained shopper to the filling of every mail order.

Your order is studied and promptly filled with as much "intelligent interest" as if you were here yourself. Should you come in person we will be glad, upon request, to have one of our experienced shoppers assist and conduct you to as many of the 75 different departments as you choose. There is no charge.

## Frolaset Front Laced Corsets

We are sure you'll look better in a Frolaset, especially if you select the one shown here.

One of the secrets of correct corset fitting is to keep the flesh within the corset instead of forcing it above or below.

This illustration shows how ably the Frolaset front-lacing corset does this. There is no bulging of flesh at the thighs or the back. The corset fits snugly and the wearer feels comfortable. The hip bone is left entirely free.

We call this model the "semi-girdle" because it graduates higher in front and at the back, thus taking care of the diaphragm and lends the graceful effect to the lines of the silhouette.

It is a corrective corset, because it gives the latest figure—a suggestion of a curve at the waist, priced at **\$5.00**

We also have other models at \$6.50, \$10, \$12 and upwards.
