

Great Sale of Flower & Berry Plants

Today at Meier and Frank's

We purchased the surplus stock of a prominent Northwestern nurseryman, and are prepared to offer you a great selection of the best varieties of flowers, dahlias and berry roots at about half their actual worth. If planted now they will bloom this Summer and help to make Portland the "City Beautiful" we are all striving for, at a very slight cost.

Sale will be held in Basement Grocery Section. Experienced florist will give planting instructions. No telephone orders—No deliveries.

Out-of-Town Mail Orders

Filled From This and All Our Ads If Received Within Three Days of Date of Publication

We give our out-of-town customers the same privilege of buying from our daily advertisements as those who live in the city. Moreover, our method is not a "mail-order system," it is, rather, a systematized shopping service, which gives the personal attention of a trained shopper to the filling of every mail order.

Your order is studied and promptly filled with as much "intelligent interest" as if you were here yourself. Should you come in person we will be glad, upon request, to have one of our experienced shoppers assist and conduct you to as many of the 75 different departments as you choose. There is no charge.

SLOUGH PLANS REJECTED

PETITION THAT BRIDGING APPROPRIATION BE MADE IS DENIED.
Council Acts on Recommendation of Mr. Dieck, Who Wants Survey Completed Before Action.

Petitions of George S. Shepherd and others that the City Council appropriate money for the immediate dredging of Columbia Slough as a sewer outlet for the large sewer system planned for the Peninsula district, were denied by the Council yesterday upon recommendation of Commissioner Dieck who has submitted a detailed report of the investigations made of the Slough and surrounding country by the Department of Public Works.
In his report Mr. Dieck says "it is not advisable to make any expenditures for the improvement of Columbia Slough as a sewer outlet until a more thorough investigation is made of its feasibility and a complete plan for the sewer system worked out. The topographic survey begun in October, 1912, has covered 19,000 acres up to March 1, 1915. Approximately 2000 acres remain to be surveyed. These will be completed by May 1. In addition to these surveys additional information will be obtained in regard to current measurements which must be performed during the low water period.
"To March 1 there had been expended on the surveys, office work, cost of equipment and minor expenses for the Peninsula sewer surveys, \$21,935. It is probable that \$48,000 more will be required to complete the work."
The natives of Slough have a horror of old numbers. They have never been known to build a house or a temple with five, seven, nine or eleven windows.
