

COMING PRODUCTION STIRS UP COMMENT

Few Decry "Damaged Goods," But Majority of People Heartily Indorse Play.

MEDICAL MEN APPROVE

Almost All Educators, Clergy and Doctors Commend George L. Baker for Bringing Startling Drama to Portland.

From every source letters are pouring in to the office of George L. Baker relative to the forthcoming production of Eugene Brienx' sociological drama, "Damaged Goods," which the Baker Players will put on next week.

Dr. E. A. Pierce, president of the Oregon State Board of Health, says in a letter to Mr. Baker: "Permit me to congratulate you for placing within the reach of the citizens of our city the great moral drama, 'Damaged Goods.'"

Dr. Whitehead Approves Play. Dr. George S. Whitehead says: "I want to write you and congratulate you for your public-spirited action in producing 'Damaged Goods.'"

Parents Should Accompany Children. There is a unanimous agreement among educators, ministers and physicians that no children under 18 may view the play.

The story of "Damaged Goods" is that of a young man who refuses to follow the advice of his physicians.

A private invitation production will be tendered to about 100 special hygiene workers, ministers and physicians this afternoon at 2:15 at the Baker Theater.

SCHIFF SEES WAR'S END

BANKER BELIEVES FUTILITY WILL DAWN ON BELLIGERENTS.

Europe Expected to Finance Own Restoration—Meanwhile America Is Putting House in Order.

LOS ANGELES, March 25.—(Special.)—"That country is the strongest which has the fewest debts outside," said Jacob H. Schiff, of Kuhn, Loeb & Co., of New York, today.

"We have become stronger since the great war broke out," he continued, "because we have had opportunity to repurchase many of our securities from the European holders at low prices."

"The war, I personally believe, will end in the autumn. No, it will not end because of an exhaustion of the belligerents' credits. In fact, money for the making of war will never be scarce so long as there are printing presses. In the case of the European conflict I believe that the end will come through both parties' recognition that no advantages are being gained and that the coming of winter will only intensify sufferings."

"This country has much money, but little capital. If you have your pocket full of money and many debts you have nothing absolutely yours to lend. But if you have a savings bank account you have capital. This country is in the first condition; England and France have savings bank accounts. These last countries have the capital resources that come only with age and the patient husbanding of resources. I expect Europe itself to refinance most of its own obligations."

"But," he continued with emphasis, "the rebuilding will not take years, but decades. The effect of the waste of the economic resources will be long felt."

Ashland Club May Be Cupid Aid.

ASHLAND, Or., March 25.—(Special.)—An emergency call as first aid to Cupid has been filed with the local Commercial Club through its general correspondence channels. The appeal, which is one for a position on a ranch and which comes from a woman in Goldfield, Nev., is qualified, to the extent that the writer would not be averse to entertaining a proposition of marriage, provided the call came from an eligible rancher of independent means. Parenthetically, the writer adds that she has had experience as a nurse.

NEW SECRETARY OF STATE BOARD OF HEALTH ELECTED YESTERDAY.

DR. ROBERG NAMED

Successor to Dr. Calvin S. White Is Elected.

TWO BALLOTS IN NEGATIVE

Newly Elected Official Will Accept Proffered Position, Paying \$4000, Providing It Is Permanent During Administration.

(Continued From First Page.)

as there is no money available for this work at the present time, no action was taken regarding them.

Committee Is Named.

A committee of three was appointed to confer with the City Commissioners, the County Board of Health, the State Dairy and Food Commissioner and the dean of the University of Oregon Medical School with a view to considering some plan for the consolidation of the various laboratories in Portland now receiving money from the state. On this committee were appointed Dr. White, Dr. Marcellus and Dr. Smith.

The secretary was given authority to instruct the Oregon Social Hygiene Society to be conservative in carrying forward its work and make no effort to get the subjects which it handles into the public schools. The Board of Health has jurisdiction over the work of the society.

Plans were discussed relative to the preventing of the annual attacks of typhoid and other diseases incident to the hop-picking season. It was decided to get out cards bearing rules of sanitation for the instruction of the owners of hopyards.

The cards for posting on the docks at Astoria, relative to the putting in of rat guards and the taking of other precautions for the prevention of dis-

ease, were changed to comply with the Federal law.

Overseas Visited for Study.

Dr. Roberg, the new secretary-elect, is a graduate of Chicago University and Rush Medical College. He served as fellow in pathology at the latter institution for some time and about five years ago he was appointed professor of pathology and bacteriology at the medical department of the University of Oregon, remaining in that capacity for three years. Under a special appropriation of the 1913 Legislature opportunity was provided to send Dr. Roberg to the Orient to study tropical diseases and more particularly diseases which may be transmitted to the Pacific Coast of the United States through commerce.

Since he has been in the Orient he has co-operated with the branch of Harvard College at Shanghai in the investigation of diseases prevalent in China. When he completed his work there he went to the Philippine Islands, where he made a special study of cholera, bubonic plague, leprosy and amoebic dysentery. He was afflicted with the latter disease three different times and fully recovered each time. He worked in conjunction with the College of Medicine and Surgery of the University of the Philippine Islands at Manila in a study of diseases peculiar to the people of the islands. While there he also made a wide study of sanitation.

Training Is Thorough.

"On account of his thorough training as a pathologist and bacteriologist Dr. Roberg is scientifically equipped to serve as secretary of the State Board of Health," said Dr. Andrew C. Smith last night. "He is regarded foremost along that line of work, and the state is to be congratulated for being able to secure his services."

Dr. Roberg is 32 years old and is a native of Chicago. His father, Oscar H. Roberg, is well known throughout the United States and Sweden as publisher of one of the oldest Swedish newspapers (Missionen) published in the United States. Two brothers, Dr. Frederick Roberg and Dr. O. Theodore Roberg, are prominent in medical circles in Chicago. Dr. Roberg was married about two years ago, just before he left for the Orient.

Dr. White, who will be succeeded by Dr. Roberg in September, said last night that he will continue as secretary until that time. He then will resume practice as physician and surgeon. Dr. White has been secretary of the board for six years. During his term the board made a state-wide campaign against tuberculosis, participated in the anti-fly crusade, undertook a movement to keep schoolhouses and grounds clean and investigated sources of water supply for various towns for the purpose of preventing the spread of typhoid fever. Dr. White has delivered health lectures in all counties in the state except two. He has administered the Pasteur treatment to 21 persons afflicted with rabies. He was one of the founders of the Oregon Social Hygiene Society and was its president for three years.

Since the election of Governor Withycombe it has been predicted that Dr. White would not long remain as secretary of the board. It was known that he took an active part in the campaign to defeat Dr. Withycombe and this political activity was widely criticized by Republicans.

PIONEER OF 1847 PASSES

Mrs. Jane Moist, Member of Prominent Linn Family, Dies at 87.

ALBANY, Or., March 25.—(Special.)—Jane Moist, one of Linn County's earliest pioneers, died at 7 o'clock tonight at the home of her son, John Moist, two miles north of Lebanon, at the age of 87 years. She crossed the plains to Oregon in 1847.

Mrs. Moist was a member of one of Linn County's most prominent pioneer families. Her brother, William Ralston, was the founder of the City of Lebanon. Upon her marriage to Joseph Moist she settled with her husband on the farm north of Lebanon where she died tonight. After the death of her husband 25 years ago she resided in this city until about a year ago, when she returned to the farm to reside with her son. She was a member of the United Presbyterian Church of this city.

Mrs. Moist is survived by two children, John and Frank Moist, both of Lebanon. C. H. Ralston, of Lebanon, and John M. Ralston, of Albany, are brothers.

Read Lectures Announced.

In Reed College extension course 12, natural science, Dr. H. E. Torrey will give the 57th lecture, entitled "Accelerants and Readjustments," today at 8 o'clock in the biological lecture-room of the college. Tonight at 8 o'clock, Coleman will speak on "Walt Whitman," the eighth lecture in extension course 20, English poets.

ESCAPE BRINGS WARRANTS

Portland Men Charged With Aiding Girls From Industrial Home.

SALEM, Or., March 25.—(Special.)—

FOOD SOURING IN STOMACH CAUSES INDIGESTION, GAS

"Pape's Diapepsin" Ends All Stomach Distress in Five Minutes.

Wonder what upset your stomach—which portion of the food did the damage—do you? Well, don't bother. If your stomach is in a revolt; if sour, head dizzy and aches, belch gases and acids and eructate undigested food; breath foul, tongue coated—just take a little Pape's Diapepsin and in five minutes you wonder what became of the indigestion and distress.

Millions of men and women today know that it is needless to have a bad stomach. A little Diapepsin occasionally keeps this delicate organ regulated and they eat their favorite foods without fear.

If your stomach doesn't take care of your liberal limit without rebellion; if your food is a damage instead of a help, remember, the quickest, surest, most harmless relief is Pape's Diapepsin, which costs only fifty cents for a large case at drug stores. It's truly wonderful—it digests food and sets things straight, so gently and easily that it is really astonishing. Please, for your sake, don't go on and on with a weak, disordered stomach, it's so unnecessary.—Adv.

Charging them with aiding Virgie La Grand, Mamie Elwell and Opal Lattin in escaping from the State Industrial School for Girls warrants were issued today by Justice of the Peace Webster for John Doe Bingenheimer and James La Grand, of Portland. The District Attorney preferred the complaints after

conferring with Mrs. Esther Hopkins, matron of the school. The girls escaped Monday night and were captured in an automobile, in which they were fleeing with La Grand, at Oregon City. La Grand was arrested there on a charge of resisting an officer and is now serving a sentence

in the Oregon City Jail. Bingenheimer is said to have provided the girls with money at Wacanda. The Portland police have been asked to arrest him.

Economy may enable you to lay up large sums for your children to quarrel about.
