ROAD ISSUE TO MAKE 200,000 ACRES TILLABLE, ARGUED.

Dr. G. H. Douglas Tells Club at Multnomah \$1000 a Year a Mile on 70 Miles of Road Can Be Saved.

McInnia, wanted in Portland for parole violation, has been arrested in Salt Lake City and is held for the local authorities, according to telegraphic advices received by Sheriff Huriburt, Requisition papers on the Governor of the \$1,250,800 road bond issue by Multnomah County would permit the cultivation of 200,000 acres of now undeveloped land, and that \$1000 annual expense for the up-keep of each of the 70 miles of road-way could be saved to the county by building hard-surface roads, was asserted by Dr. G. H. Douglas, of West Portland, at a recent meeting of the Multnomah Commercial Club, at Multnomah, Or. After the adoption of the \$1,250,800 road bond issue by Multnomah County acres of now undeveloped land, and that \$1000 annual expense for the up-keep of each of the 70 miles of road-way could be saved to the county by building hard-surface roads, was asserted by Dr. G. H. Douglas, of West Portland, at a recent meeting of the Multnomah County Multioman Commercial to the club unanimously indorsed the bond issue.

"Our present macadam roads cost \$1000 a mile for their annual upkeep,"

\$1000 a mile for their annual upkeen," declared Dr. Douglas. "For the 70 miles of road, \$79,000 would be saved every year if the roads were hard-surfaced. They are guaranteed for ten years, so \$700,030 would be saved to the county in ten years. During this time the roads would always be in first-class condition. I understand that there is one hard-surfaced street in Portland that has gone 14 years without repairs. If this is true, we can add \$250,000 more, raising the total saving to \$1,000,000.

"These roads will not only increase

"These roads will not only increase the value of property, but will throw open to farmers 200,000 acres of undeveloped land. Near Seattle thousands upon thousands of dollars have been made through roads which made it possible to haul produce to market without its being half spoiled in transportation.

vearly all the money spent on good reads remains in the community and provides employment for thousands of men. Good roads will bring people from

men. Good roads will bring people from all over the world to see the scenic beauties of Oregon.
"It is safe to say that the tax valua-tien of Multnomah County will double in the ten years the bonds will run. If hard surface is cheaper, why not have it?"

#### 'Gift" of Dead Cat Embroils Neighbors.

had been thrown into the backyard of Matthen Macenich, be declared, by a neighbor, Frank Bookshnes.

The cat was too much, so Macenich took an ax and proceeded to chop down the steps in front of his neighbor's home. This proceeding did not meet with the unqualified approval of Bookshnes, who came out of his house with a long lath with which he whammed Macenich over the head. The force of the blow broke the lath in two and Macenich beat a retreat. Macenich beat a retreat.

Macenich beat a retreat.

Bookshnes was in Municipal Court yesterday to answer to the charge of assault and battery, preferred by his neighbor. Sons of the contestants interpreted the voluble Russian with which the occurrence was explained.

The court's order was that the men stop throwing things in each other's yards, for Macenich was also said to be an offender in this respect, and to ignore each other in the future. A fine of \$10 was imposed upon Bookshnes and remitted by the court pending good behavior.

and remitted by the court pending good behavior.

As he left the courtroom, Bookshues hissed at his accuser, in sibilant Rus-sian, "If we were only in Russia, I'd fix you, you dog." Which was taken to augur iil for future peace.
