

REPUBLICANS BEGIN CAMPAIGN OF 1916

Candidates for Nomination for President Already Coming Out Into Open.

ORGANIZERS ARE AT WORK

Pacificists Urge Progressive Leaders to Unite in Presenting Solid Front to Common Enemy; Local Situations Watched.

WASHINGTON, April 4.—(Special.)—The hunt for Presidential delegates is on. It will grow in vigor and intensity until the nominations are made in June, 1916. The candidates are coming into the open.

Ex-Senator Burton, of Ohio, thought it best to get out of the United States before proclaiming his ambition. He journeyed to Panama and then softly admitted he was in the running.

Myron T. Herrick, ex-Ambassador to France, and Governor Willis, of Ohio, have lightning rods extended high and will contest with Mr. Burton the election of delegates from Ohio.

Root's Friends at Work.

Senator Root, in New York, announces he is not a candidate for nomination, but his friends in that state are laying wires to capture the New York delegation for him, believing the vote of the great Empire State must be reckoned with in the making of a selection.

Governor Whitman is in a receptive mood. From the heart of Illinois there comes a gentle murmur that Senator Lawrence Y. Sherman is nibbling at Presidential bait.

Ex-Governor Hadley, of Missouri, has loomed as another possible standard-bearer.

Pennsylvania is grooming her Governor, Brumbaugh, to lead her delegation into the convention under the banner declaring that state's right to consideration because of its undaunted Republicanism.

Indiana doubtless will proclaim ex-Vice-President Fairbanks as her choice. Organizers Busy Everywhere.

Republican National and Congressional committees are perfecting their organizations in every district in every state. The organizers are at work, particularly in Indiana, Missouri, California and New York. They will become active soon in the Carolinas and in Louisiana. Funds for carrying on this work are being contributed by business men who belong to the Republican party throughout the country. In this sense the work of the 1916 campaign is on. It will be continued until the polls close on election day. From now on no opportunity to make Republican votes will be overlooked.

National issues, especially the tariff, are to be considered in every local political contest.

State Contests Important. Special attention is to be given to state contests in Maryland and Massachusetts next Fall. Maryland now has a Republican Governor and even though it is to be made by the National leaders not only to insure the election of another Republican Governor in that state, but to capture the general assembly as well.

The elections in Massachusetts will be for a complete state ticket and the Republican leaders hope to defeat the present Democratic Governor with Samuel W. McCall, their Republican candidate last year, who went to defeat because of the Progressive vote.

Republican pacifists are being sent to all Progressive leaders to get them back into the Republican party, that united front may be presented to the Democrats in the fight next year.

GREAT CROPS PREDICTED

H. B. EARLING SAYS MIDDLE WEST INCREASED GRAIN ACREAGE.

Business Outlook Good and More Activity in Lumber Markets Are Seen on Inspection Tour.

SEATTLE, Wash., April 4.—(Special.)—Promising weather and ground conditions and a greatly increased grain acreage in Montana and North Dakota will insure a grain crop well above normal next season and thus contribute to the prosperity of the entire Northwest, according to H. B. Earling, vice-president of the Chicago, Milwaukee & St. Paul Railroad, who has just returned from his annual inspection trip.

"Montana has placed about 25 per cent more ground under cultivation and North Dakota 15 per cent," said Mr. Earling today. "There has been plenty of snow in Montana and even too much in North Dakota, as I saw drifts 10 feet deep there a week ago. Promising weather conditions and this increased acreage are nearly certain to make a great grain crop. Conditions are practically the same throughout the Middle Western States, I understand."

"The farmers of Montana and North Dakota, the former especially, should become prosperous this year, for, along with the high price for grain and the outlook for a good crop, wool is higher in price than it has been at any time during the past 10 years. Business conditions generally throughout Montana and North Dakota are improving. The country stores are all doing a good business, and the tide of emigration in these two states has started earlier than usual."

"The lumber business eastward bound is satisfactory and has been for some time. There will be a great deal of lumber bought in North Dakota and Montana just as soon as the farmers feel sure of a crop. Northwest freight business is improving also."

CORNELIUS RESIDENT DIES

George B. Tedrow Succumbs to Heart Disease at Age of 74.

CORNELIUS, Or., April 4.—(Special.)—George B. Tedrow died at his home here this morning from an illness lasting two weeks. He had long suffered from heart trouble.

Mr. Tedrow was born in August, 1841, at Batavia, Ohio. In 1858 he was married to Mrs. A. Miller, at Baker City, and in 1869 they came to Cornelius, settling on a little place at the edge of town, where he died.

Besides his widow, he leaves one daughter, Mrs. W. A. Ross, of Forest Grove, and a sister, Mrs. L. Saul, of Springfield, Ohio.

Mr. Tedrow was a veteran of the Civil War, a member of the Grand Army of the Republic, and an Elk. The funeral will be held Tuesday.

TWELVE-YEAR-OLD GIRL, WHO IS PRODIGY, AND HER MOTHER.

MRS. JAMES BUCHANAN STONER AND WINIFRED SACKVILLE STONER.

GIRL, 12, IS PRODIGY

Accomplishments Due to No Spanking, Says Mother.

8 LANGUAGES MASTERED

Child Never Scolded, Frightened Nor Compelled to Do Anything; Any Parent Can Achieve as Much, Says New York Woman.

NEW YORK, April 4.—(Special.)—Instead of being a phenomenon, 12-year-old Winifred Sackville Stoner, who is regarded by men of science as a prodigy, merely is a product of the most carefully simple training, according to her mother, Mrs. James Buchanan Stoner, of this city. In addition to other accomplishments, Winifred speaks eight languages. She has never been spanked nor subjected to other physical punishment, scolded, frightened or told she must do this or be that.

"Every mother," says Mrs. Stoner, "may have as bright a child as is my own daughter, whom I do not consider a phenomenon."

"The rules are simple. All one need do is follow carefully the 10 commandments laid down by Mrs. Stoner: Thou shalt not scold thy child. Thou shalt never say 'must' to thy child. Thou shalt never give thy child occasion to disobey. Thou shalt never frighten thy child. Thou shalt not allow thy child to say 'I can't.' Thou shalt always answer thy child's questions. Thou shalt not tease thy child. Thou shalt make thy home the most attractive place thy child can find. Mrs. Stoner points with pride to her daughter, with whom she posed especially for this photo (note), as an example of what a mother can teach her child.

Accomplishments Are Many. Already the 12-year-old miss is accomplished with the following accomplishments: She reads, writes and speaks eight languages. She has written French verse, a sufferage book entitled "A Plea to Gallant Knights," and magazine and newspaper short stories, illustrated with her own drawings. This she started when she was 5 years old. She has taught Esperanto at the Carnegie Institute at Pittsburgh when her father was surgeon at the United States Marine Hospital in that city. She is teaching a class of youngsters now with her own adoption of the Montessori method of education. She has memorized several of Cicero's orations and parts of Horace, Livy, Sallust and Caesar. She plays the piano, violin, mandolin, guitar, as well as baseball, and can ride a horse, drive an auto, row, swim and, not to say the least, cook. She has made her first translation of "Mother Goose" rhymes into Esperanto.

STEAM ROADS' NET REVENUE FOR 1914 IS \$845,216,654.

Federal Commission Reports Vast Increase in Number of Passengers Carried Over 1913.

BILLION PAID IN WAGES

Operating revenues for the same period in 1913 were \$3,125,125,795, with operating expenses of \$2,169,968,924.

The investment of the roads to June 30, 1914, was \$13,235,977,840, or \$212,338,326 more than on June 30, 1913. Of this increase about \$220,000,000 for betterments and additions from cash or

other working assets and about \$138,000,000 from issues of securities.

There were 1,355,483 persons on the payrolls of the railroads at the end of last June, a decrease compared with the same day in 1913 of 112,756 persons. The wages paid last year amounted to \$1,373,422,472.

The par value of the outstanding securities of all the companies concerned amounted to \$20,247,301,257 and dividends paid by all steam roads, irrespective of revenue, amounted to \$451,343,197, being equal to 7.57 per cent on dividend-paying stocks. On \$3,019,202,981 of stock no dividends were paid.

The roads carried 1,052,128,718 passengers, or 19,459,038 more than in 1913, and carried 1,976,138,155 tons of freight, a decrease of \$1,897,532 tons in the year.

Flight Contest Is Set

DEVELOPMENT OF MILITIA AVIATORS IS PLANNED.

Ocean-to-Ocean Competition to Be Carried Into Every State, and All Airmen Are Invited.

NEW YORK, April 4.—Ocean-to-ocean flights along three routes are planned by the Aero Club of America as a part of its National 90 days' aeroplane competition, beginning July 1 next, the club announced tonight.

The competition, as described in the club's recent announcement, is designed to assist the War and Navy Departments in developing aviation corps from the National Guard and naval militia, and also to demonstrate the practicability of mail-carrying by aeroplane to isolated places.

"To carry the competition into every state, the contest committee of the Aero Club has outlined three main, transcontinental routes," says tonight's statement. "Every aviator in America will be able to reach one of these routes at some point by a cross-country flight of moderate length. The contest committee believes that there will be many aviators who, in flying for the daily cross-country prizes at \$100 a day, will find themselves on the way across the continent in pursuit of this aim, and who will find it to their advantage to keep on in an effort to gain the sea-to-sea prize."

"For water flying, it is proposed to establish a distance prize, starting and landing places for water aeroplanes will be located on the Atlantic, Pacific and Gulf coasts, as well as on the Great Lakes."

"For water flying, it is proposed to establish a distance prize, starting and landing places for water aeroplanes will be located on the Atlantic, Pacific and Gulf coasts, as well as on the Great Lakes."

NEW YORK, April 4.—New Yorkers enjoyed a white Easter today, for the first time in many years. Despite the snow, the annual Easter parade took place, a bright warm sun aiding thousands of men in cleaning Fifth avenue for the display. Hours before daylight today 30,000 men were engaged in lifting the blanket of the ten-inch snowfall laid on this city yesterday in one of the most furious April storms on record.

A weather bureau report said that the thaw was general over the storm-whipped Atlantic seaboard and steam railroads were running their trains according to schedule once more.

Balmy Spring weather today restored Philadelphia and vicinity to virtually normal conditions, after one of the worst blizzards in the history of the Weather Bureau there. The 19 inches of snow which fell in 12 hours, breaking all records, disappeared rapidly.

Efforts to ascertain the extent of the storm's damage to shipping in the vicinity of the Delaware capes, as wire communication still is interrupted, were unavailing.

SAILORS DROWNED OFF COAST

Tug and Two Barges Go Down With Loss of Twenty-six Men.

NORFOLK, Va., April 4.—The tug Edward Luckenbach sank off False Cape yesterday. Sixteen of the crew of 18 men are reported lost.

LEWES, Del., April 4.—Ten seamen were drowned yesterday off the Delaware capes in the coast storm. They were members of the crews of the Consolidation Coal Company's barges Nos. 6 and 9, which foundered in the gale.

NEW ENGLAND HAS SLEIGHING

Wintry Weather Prevents Customary Display of Easter Finery.

BOSTON, April 4.—For the first time in more than 25 years, sleighing was enjoyed in Southern New England on Easter day, but the wintry conditions

checked the customary display of finery. In Boston only a few inches of snow fell, but in other parts of the state it reached a depth of more than a foot.

REICHSBANK GAINS GOLD

Deposits Show Gain of \$414,164,500. While Loans Decrease.

BERLIN, April 4.—The statement of the Reichsbank, issued March 31, shows increases of metal stocks, treasury certificates and notes of other banks of 397,351,000 marks (\$59,347,750); gold, 7,640,000 marks (\$1,146,000); discounts, 1,844,468,000 marks (\$282,688,000); notes in circulation, 680,359,000 marks (\$102,759,750); deposits, 1,656,658,000 marks (\$248,498,750).

The statement shows a decrease in loans of 19,028,000 marks (\$2,854,500) and in treasury bills of 9,721,000 marks (\$1,458,250).

WOOD BLAMES PANAMANS

General Says Assault on American Soldiers Was Unprovoked.

PANAMA, April 4.—Major-General Leonard Wood, commander of the Department of the East, arrived in Panama today. He will begin tomorrow an inspection of the Pacific fortifications of the canal. He already has inspected those on the Atlantic side of the waterway.

Concerning the disturbance between American soldiers and the police and populace of Colon on Friday, in which one American soldier was killed, General Wood said today: "While the investigation into the affair has not yet been completed, the evidence obtained thus far clearly indicates that the shooting of the soldier by a Panamanian policeman was entirely unprovoked."

"The situation clearly indicates that some action must be taken, as disturbances of a similar nature between the soldiers and police cannot be permitted to continue."

Catholic Priest Condemned in Syria.

AMSTERDAM, via London, April 5.—According to a dispatch to the Berlin Lokal Anzeiger, from Beirut, Syria, a Catholic priest named Yusuf El-Hait has been sentenced to death by hanging for sending a letter to the President of the French Chamber of Deputies regarding the situation in Lebanon.

Some Men Born Great.

Buffalo, N. Y., Courier.

Boreleigh—Some men, you know, are born great, some achieve greatness, Miss Keen—Exactly! And some just grate upon you.

Heat that reduces living costs!

The struggles of many a man through life seem like a journey through a howling wilderness of bills which mount so high that he can hardly see the blue sky of living economy. But one of the strangest, reckless habits of running up domestic expense is the way that many people still cling to old-fashioned heating ways which greedily eat up coal and send the heat a-flying up the chimney, rather than distributing it evenly to the rooms to comfort the folks. The only way to get out of that wilderness of self-imposed taxation, and to stay out forever, is by putting in an outfit of coal-economizing

AMERICAN & IDEAL RADIATORS & BOILERS

Big Builders and Real Estate men will tell you that the first question asked in buying or renting is: "How is it heated?" This is because heating is now recognized as most important. IDEAL Boilers and AMERICAN Radiators put new life into old buildings and add a permanent extra selling value to any property, new or old.

IDEAL Boilers and AMERICAN Radiators change any house into a home.

Ever heard of any purchaser of these ideal heating outfits not getting back the full price paid for them when offering his property for sale, or not obtaining 10% to 15% larger rental? Ever heard of a banker who would not promptly loan a larger amount on property thus modernized?

IDEAL Boilers and AMERICAN Radiators are rapidly supplanting all other methods of heating among thinking people who want to save money, and sanitarily heat their home or other building from top to bottom—automatically regulated to produce day and night the exact volume and degree of heat necessary to meet every caprice of the weather—and no fuel waste. IDEAL Boilers burn with greatest success either oil, gas, wood, coke, lignite, hard coal, soft coal—screenings, pea or nut sizes—anything that will burn will be made to yield its full volume of heat.

These outfits are absolutely tight, hence send no coal-gases or ash-dust to living rooms, thereby protecting the health as well as the furnishings. They are a permanent investment. We cordially invite the inquiry of those interested in stores, schools, churches, farm, or city houses, etc. Will gladly send booklets and helpful information without cost or obligation. Iron prices now rule the most attractive in 10 years past and at this season you get the services of the most skillful fitters! Better act now—reduce your cost of living and better the living.

IDEAL Boilers and AMERICAN Radiators change any house into a home.

Built-in, genuine Vacuum Cleaner—iron suction pipe runs to each floor. Price, \$150

We also make the ARCO WAND Vacuum Cleaner, connected by iron suction pipe to various floors of houses, flats, schools, churches, hotels, etc. Through a light-weight hose ALL the dirt, cobwebs, lint, threads, moths, etc., are drawn with lightning rapidity down the iron piping into big, sealed dust-bucket in cellar. No dragging around a clumsy, inefficient portable cleaner—instead, you have a practical outfit that is part of the building—like radiator heating. Ask for catalog—it does not obligate you to buy.

MORMON CHURCH GAINS

NET INCREASE OF 129,493 IN 13 YEARS IS SHOWN.

Tithes Collected in 1914 Yield \$1,887,920, According to First Financial Report Ever Made Public.

SALT LAKE CITY, Utah, April 4.—The first public financial statement ever issued by the Mormon Church was presented in the tabernacle today before the annual conference.

The report shows that the church collected \$1,887,920 from tithes in 1914, of which \$750,960 was expended on church buildings, \$330,984 to maintain the church schools, \$64,598 to maintain the Mormon temples, \$227,900 for missionary work, \$99,293 to maintain church offices, \$126,727 for complete and maintaining the L. D. S. Hospital in Salt Lake City and \$116,238 to the poor.

The report also shows that the Mormon relief societies and the local church organizations gave \$150,290 additional for the relief of the poor and that the European war relief fund of the church amounted to \$55,000, which has been sent abroad to be disbursed through the church's representatives. The expenses of the general offices of the church are not paid from tithing, the report says, but from revenues derived from the church's investments. The report shows a net increase in the membership of the church of 129,493 for the period from 1901 to 1914, a birthrate of 23.5 per thousand, a death rate of 8.36 per thousand and a marriage rate of 17 per thousand in 1914.

The report, which embraces the operations of the church throughout the world, shows that 1318 men and 115 women are engaged in Mormon missionary work, that 14,717 Mormon children were born in 1914, that 73 per cent of the families of the church own their own homes and that 219,000 members of the church were born in the United States. The total membership is not given.

Some Men Born Great.

Buffalo, N. Y., Courier.

Boreleigh—Some men, you know, are born great, some achieve greatness, Miss Keen—Exactly! And some just grate upon you.

DIETING TO KEEP WELL

Some people are born with a tendency to certain diseases. What they eat either aggravates this condition or tends to correct it.

Anybody can see the importance of a proper diet but human beings, unlike the lower animals, lack the instinct that tells them what to eat and what to avoid.

It is a fact that proper diet and a good tonic will keep people well under most conditions and restore them to health except in acute diseases where the need of a physician is imperative.

Start today by writing to the Dr. Williams' Medicine Co., Schenectady, N. Y., for a copy of the diet book, "What to Eat and How to Eat." It is full of useful information and describes the tonic treatment with Dr. Williams' Pink Pills for indigestion, nervous dyspepsia, for those conditions of flatulency or gas on the stomach, discomfort after eating, caused by lack of tone in the digestive organs. Dr. Williams' Pink Pills supply the stomach with well-oxygenated blood without which good digestion is impossible. Dr. Williams' Pink Pills are a non-alcoholic tonic and are free from poisons.

A short course of treatment with these pills will show in an improved appetite, better digestion, refreshing sleep and quiet nerves. Your own druggist sells Dr. Williams' Pink Pills.

Our ideal heating will lead you out of the wilderness of high fuel costs.

A No. 1-32-W IDEAL Boiler and 422 ft. of 38-in. AMERICAN Radiators, costing the owner \$195, were used to heat this cottage. At this price the goods can be bought of any reputable, competent fitter. This did not include cost of labor, pipe, valves, freight, etc., which vary according to climatic and other conditions.
