## Women's Clubs

By Edith Knight Holmes

THE days from April 12 to April 15 will be known as "Western Club Women Consumers' Week." The women of the Northwest have endorsed the movement and will work for the interests of local concerns.

In Idaho the clubs are taking up the home industry campaign with a will. In Washington and other states great enthusiasm is being displayed. The manufacturers realize the power that the clubwomen hold, the clubwomen are busied with the ordering and buying of household commodities.

Mrs. Pennybacker, president of the

General Federation of Women's Clubs, says: "We need nothing at this time more than information as to what goods and what quality of goods are made in the United States. I suggest that the Manufacturers' Associations enter upon an educational campaign and tell the women of the country exactly what the different factories are turning out."

"Since we women are the spenders of 45 per cent of the income of the Nation, it does not logically follow that we must patronize American industries if the United States is to reach the zenith of prosperity?"

The women's clubs of the Western states—Washington, Oregon, Idaho, Montana, Utah and Nevada—will bring the sentiment closer home.

Mrs. Martha Spangler, of Twin Falls, Idaho, says: "This is the first time such a movement has been initiated by the consumers where they are sold, for the retailer will sell more goods that week if he advertises by special displays in the windows and inside the store where the housewife may see them when shopping. Then the retailer to get ready for this week, will order ahead from the wholesaler. Knowing the clubwomen of his town will ask for Western products that week, he wants to be alive and have a good display to show his loyalty to home institutions. The wholesaler also will have to get busy and see that the home manufacturer is shown that the women are really doing practical work by giving him real support—the kind that builds larger factories."

With all the whirl of benefits and the many meetings planned, the clubwomen of the city will be busy for the next two months. Of course, many of them were interested in the club welfare benefit yesterday, and in the silver tea for the Old People's Home, and they will assist loyally in all of the affairs that are planned.

**TALKS ON DOMESTIC SCIENCE**  
BY LILLIAN TINGLE.

Portland, Or., April 5.—I was interested in the talk given by Lillian Tingle, but did not see the kind I want, one in which she would talk to the women in larger pieces. You will also give, at your earliest convenience, a recipe for a Spanish sauce or dressing, served with meats, fish or eggs? MRS. E. R. D.

In any of the tamale recipes given you might use the chicken meat in larger pieces, if you wished. The essential factors are (1) well cooked cornmeal, (2) cooked meat or chicken and (3) a sauce, seasoned to taste with Spanish peppers, fresh, dry, or powdered. You can see that many minor variations are possible. If corn husks are not available make little "pies" in individual casseroles, using the mush as crust and the chicken and sauce as filling.

Tamales—Make a mush of white well cooked cornmeal, using, if possible, chicken stock in place of water, and a little chicken fat or tried-out pork fat, about 1 level tablespoon of fat to each cup of mush. You will also give, at your earliest convenience, a recipe for a Spanish sauce or dressing, served with meats, fish or eggs? MRS. E. R. D.

While the mush is cooling get ready the corn husks by washing and soaking them in boiling water. Have ready, also, some cooked chicken and a suitable type given below. Spread a large spoonful of cold mush on a prepared husk, place on it a piece of chicken meat, then a spoonful of garlic and onion sauce and a little more mush. Put another husk on top, rolling carefully and putting other husks to cover the joining places of suitable size. Tie the ends firmly and clip off neatly. Steam two hours, then dry out a little in the oven and serve.

Sauce.—Cook 1 finely-minced onion in two tablespoons oil, butter or lard until yellow and tender, but not brown; add one level teaspoon of garlic, and then add one-half cup strong broth or stock and one cup stewed and strained tomato pulp. Simmer to blend the flavors and reduce a little. Use two level tablespoons of the sauce, and then add one-half cup strong broth or stock and one cup stewed and strained tomato pulp. Simmer to blend the flavors and reduce a little. Use two level tablespoons of the sauce, and then add one-half cup strong broth or stock and one cup stewed and strained tomato pulp.

Where dry or fresh chilies are available use them in place of the onion. Use two level tablespoons of the sauce, and then add one-half cup strong broth or stock and one cup stewed and strained tomato pulp. Simmer to blend the flavors and reduce a little. Use two level tablespoons of the sauce, and then add one-half cup strong broth or stock and one cup stewed and strained tomato pulp.

For serving with omelets poached or baked eggs and some kinds of meats and fish, a few peas, mushrooms or stoned sliced olives are a nice addition. Other optional additions for special purposes are chopped green pepper or canned pimento, tiny strips of ham or bacon, or a little chopped cucumber.

Wicked Thought. HAROLD did not like to go to school. He had a book in his pocket, so he seated himself under a tree and began to read. Suddenly he listened. A bird was singing over his head a minute before, but now it was talking to another bird just like a person.

"Yes, this is the boy under this tree," Harold heard the bird say. "He ran away from school and he thinks no one will know it."

"What a bad boy," said the other bird. "I wonder why he did it? He does not look like a bad boy."

Harold started for home wondering how he would tell his mother that he had run away from school, and as he had heard the Raven say in his dream: "Wicked Thought," said: "Don't tell her, she may never find out."

But Harold had finished working for him, so he kept his promise to the Raven and told his mother that he had listened to Wicked Thought and ran away from school.

Of course, his mother was very much grieved to think her boy would do such a wrong thing, but because he had confessed it and was sorry and promised not to work for Wicked Thought again, she forgave him. (Copyright, 1915, by the McClure Newspaper Syndicate, New York City.)

Raven stopped talking, "and I never will work for Wicked Thought again." Harold jumped up with a start, for something hit his hand, and looking up, he saw a dead branch had fallen and awakened him, for, of course, he had been asleep and dreamed about the birds and the squirrel, and his talk with the Raven.

**WHEN YOU WASH YOUR HAIR DON'T USE SOAP**

Most soaps and prepared shampoos contain too much alkali, which is very injurious, as it dries the scalp and makes the hair brittle. The best thing to use is just plain multifid cocoanut oil, for this is pure and entirely greaseless. It's very cheap, and beats soaps or anything else all to pieces. You can get this at any drug store, and a few ounces will last the whole family for months.

Simply moisten the hair with water and rub it in, about a teaspoonful is all that is required. It makes the hair shine, keeps it clean, cleanses thoroughly and rinses out easily. The hair dries quickly and evenly, and is soft, fresh looking, and fluffy. It loosens and takes out every particle of dust, dirt and dandruff.

**"TIME'S UP AND I'M STILL SAVING"**  
"I'm Going to Buy My Suit ON CREDIT, Tomorrow!"

The day Leora's Suit came home and she came over and showed it to me, I vowed to myself that I'd have something that looked like Spring in two weeks myself.

"I had about \$10 saved then, and there isn't much more in my purse toward new clothes now. Why, at this rate I'll still be wearing 1914 styles on 4th of July."

"I'm not only going to buy a new Suit tomorrow, but I shall get a dress as well. CHERY'S—that's where I'm going, you know—must have really exquisite Dreeses, Suits and Coats. For ALL the girls who've been there the last few weeks are so enthusiastic about them."

"By the way, Leora bought her Spring suit at the very same store—CHERY'S. I passed CHERY'S STORE this morning and the glimpse I caught of their windows fascinated me. You know they have a lovely store. It is in the Pittco Block, 332-331 Washington St.—AdV.

## IF KIDNEYS ACT BAD TAKE SALTS

Says Backache Is Sign You Have Been Eating Too Much Meat.

When you wake up with backache and dull misery in the kidney region it generally means you have been eating too much meat, says a well-known authority. Meat forms uric acid which overworks the kidneys in their effort to filter it from the blood and they become sort of paralyzed and laggard. When your kidneys get sluggish and clog you must relieve them, like you relieve your bowels; removing all the body's urinous waste, else you have rheumatic twinges. This uric acid is cloudy, full of sediment, channals often get sore, water scalds and you are obliged to seek relief two or three times during the night.

Either consult a reliable physician at once or get from your pharmacist about four ounces of Jad Salts; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to clean and stimulate sluggish kidneys, also to neutralize acids in the blood, to rid the system of uric acid, to soothe bladder irritations, thus ending bladder weakness.

Jad Salts is a life saver for regular meat eaters. It is invigorating, cannot injure and makes a delightful, effervescent lithia-water drink.—Adv.

## Acute Articular Rheumatism Relieved by Anti-Kamnia Tablets

The exact cause of rheumatism is unknown, though it is generally believed to be due to an excess of uric acid in the blood. It may be also said with equal truth that no other remedy for the relief of the pain in all cases. In fact, the literature of rheumatism shows that there are but few drugs which have such a quick and certain effect. The hands of an observer we find that certain drugs have been used with the utmost satisfaction; others have found the same remedy to be a great disappointment. All physicians however agree that every method of treatment is aided by the administration of some remedy to relieve the pain and quiet the nervous system and Dr. W. S. Schultze has found the most effective remedy. CHERRY'S STORE should be given preference over all other remedies for the relief of the pain in all forms of rheumatism. These tablets can be used in any quantity, they are also unsurpassed in headache, neuralgia and all pain. Ask for A-K Tablets.

**It's Easy to Peel Off All Your Freckles**

The contrast between the freckles and the clear skin usually is so great that no bleach can be more than partially successful in obliterating the disfigurements. Ordinary mercurized wax is far better; it literally peels off the freckles. Get an ounce of it at the nearest drugstore and tonight spread on enough to completely cover the face; remove in the morning with warm water. Repeat daily until every freckle is gone.

Rough, blotchy, pimpled skin, also common at this season, may be entirely gotten rid of by using a special cream without discomfort or inconvenience. The effort is decidedly worth while, the new complexion obtained being so clear, smooth and youthful.

If bothered with wrinkles, bathe the face in a lotion made by dissolving an ounce of powdered saxolite in a half pint of witch hazel. This is the most effective and quick acting wrinkle treatment known.—Adv.

**A MEDICINE OF MERIT**  
A proprietary medicine, like everything else that comes before the public, has to prove its merit. The law of the survival of the fittest applies to this field as in others. The reason for the tremendous success of Lydia E. Pinkham's Vegetable Compound is because it has been fulfilling a real human need for forty years, so that today thousands of American women owe their health and happiness to the marvelous power of this famous medicine, made from roots and herbs—nature's remedy for woman's ills.—Adv.
