

WHITE MAN SEEN ON ARCTIC COAST

Marooned Person on Icy Cape
Possibly Member of Stef-
ansson Party.

NATIVES FAIL IN RESCUE

Floe Drifts Far to Sea in Direction
of Wrangell Island and Possibly
Touches There Where Food
Was Cashed by Party.

NOME, Alaska, April 12.—Natives hunting seal last winter are reported in mail advices received from Icy Cape, on the Arctic Coast near latitude 70, to have seen a white man marooned on an ice floe which was drifting in a southeasterly direction toward Wrangell Island. Whether the man was a member of Vilhjalmur Stefansson's Canadian Arctic expedition or was a survivor of the wrecked whaling schooner New Jersey the natives were unable to determine.

When the natives first saw the man he was on a large ice pack separated from them and the shore ice by a wide stretch of water. At first they thought he was a hunter from their tribe, but upon reaching shore learned that the man was not a native.

The hunters immediately hurried out to the ice to try to rescue the marooned man, but before they reached the lead separating the floe from the shore ice, a strong off-shore wind had sprung up, carrying the ice far to sea.

The man was walking slowly in the same direction as the moving ice. The natives were surprised that he had not halted them before the wind widened the distance between the ice floe and the shore ice.

The ice was moving steadily south-west, and unless the wind shifted must have touched Wrangell Island, where food caches were left last summer by the party which rescued the survivors from the wrecked Stefansson exploring ship Karluk.

The general belief here and among the natives at Icy Cape is that the man was a member of the Stefansson party of three who started north over the ice from Martin Point, west of the Mackenzie River, April 7, 1914. With Stefansson at the helm, the Ole Anderson and Storker Storkerson.

Nothing has been heard from Vilhjalmur Stefansson and his two companions since they left Martin Point a year ago to explore the unknown Arctic region north of Alaska.

Stefansson expected to travel 150 miles north on the ice, by which time he believed the eastward drift would bring him in touch with Banks Land, but the early spring resulted in 40 to 50 miles of open water along the coast of Banks Land at the time Stefansson had calculated he would land there.

The shore ice covers east until it strikes the discharge of the Mackenzie River, which carries the ice farther out to sea. Then it is caught in a westerly drift. Stefansson, failing to reach Banks Land, would be carried west with the ice pack. Thus it is not impossible that the man seen on the ice floe off Icy Cape was a member of the little party which set out from Martin Point, nearly 1000 miles east of the place where the marooned white man was seen.

DEATH BETRAYS SWINDLER

Absconding Banker Dies Under As-
sumed Name Near Crime Scene.

CHICAGO, April 12.—Ignatius J. Chileski, lawyer and prize banker, who in 1911 fled from Chicago with clients and depositors clamoring for more than \$100,000 of their money, which he declared he had lost in gambling, died today at the tubercular ward of the county hospital, a charity patient under an assumed name.

When Chileski became involved he fled to South America, from there to Africa and later visited Asia. He returned to Chicago a few months ago hopelessly ill and without funds. Just before he died at the hospital he revealed his identity to a nurse and whispered:

"Tell my old friends that I paid for my folly with my life. Gambling did it all."

KAISER'S GIFT IS READY

Duplicate of Shield for American
Singers to Substitute Until Peace.

BERLIN, April 12, by wireless to Say-
ville, N. Y.—Among the items given out-
today by the Overseas News Agency was the following:

"Emperor William's gift to the North-eastern Singing Society for the festival to be held in Brooklyn is now ready. It is a large silver and gold-plated shield of honor, rich in relief work, prepared from designs drawn by Professor Otto Rohloff. It represents Apollo playing a harp. The picture is surrounded by the American and German coats of arms and also bears a picture of the Emperor. Because of the danger of capture by a hostile ship only an inexpensive duplicate has been sent to the United States and the original of the gift will not be sent until peace is concluded."

JAPAN ALARMS MISSIONS

Situation Caused by Demands on
Situation Caused by Demands on

WASHINGTON, April 12.—Several prominent American missionaries have cabled from Peking to the Government here saying, it is said, that they thought it their duty to call the attention of the United States officials to the gravity of the situation arising out of the Japanese demands on China.

The signers of the message included Charles A. Hubbard, W. A. P. Martin, president of the Imperial University, Chalmers Goodrich, H. H. Lowry, president of the Peking University, John Wherry and Edward W. Thwing.

BETHLEHEM STEEL SOARS

Sensational Upward Move Further
Unsettles Stock Market.

NEW YORK, April 12.—Another sensational upward move in Bethlehem

STEEL TO 125.8 POINTS ABOVE ITS RECENT HIGH RECORD, CAUSED FURTHER UNSETTLEMENT IN THE STOCK MARKET TODAY.

The rise took place in the final hour, beginning at 112 and advancing in existing fashion with jumps of from 1 to 3 points to its top figure from which it receded to 113, then back to 124, its closing quotation.

Individual dealings in the stock were large, but the total output was less than 20,000 shares. The floating supply of Bethlehem Steel is small, being estimated at less than 20,000 shares, so that recent operations in the stock actually represent a constant turning over of the stock available for speculative purposes.

Officials of the company again professed ignorance of the causes back of the movement. In the financial district and on the Stock Exchange the belief prevailed that it is mainly due to the existence of a short interest which has thus far resisted all efforts to be driven to cover.

FEW LEFT TO RECRUIT

BRITAIN SAID TO BE GLEANED OF
ELIGIBLE ARMY MEN.

Remaining Ones Making so Much Money
That Conscription Will Be Necess-
ary to Get Them, Writer Avers.

LONDON, March 22.—(Correspondence of the Associated Press).—"There are virtually no willing eligible men left to be recruited in those parts of the country which I have visited," writes an army recruiting officer to the Times. Those who remain, he says, are either in the employ of the state, doing work which is essential for the defense of the state; under binding obligation to parents, wives, children, employers or employees; or religious principles, from which the state alone can release them; earning such good money that they are deaf to all other considerations, or ignorant, or skulkers.

The officer believes that if any considerable additional number of men is required conscription will be necessary.

Discussing the men who decline to enlist because they are earning too much money, the officer says:

"There are many small towns which for several months have been full of overflying with troops billeted there. Traders and householders have been making more money than ever before in their lives. Artisans and laborers have been able to get employment at greatly enhanced wages. Labor is nowhere to be had. In these towns it is the question of profit that largely keeps the eligible men from coming forward."

In the agricultural districts, the writer adds:

"Farmers at first encouraged their men to enlist to an extent which has seriously hampered their business. Now they can no longer spare a single man."

NEW PROTEST IS LIKELY

BRITISH PRIZE COURT DELAY
AROUSES AMERICAN SHIPPERS.

Appeal to State Department Is to Be
Followed by Another Note, Ask-
ing Action on Vessels Held.

WASHINGTON, April 12.—Moved by the appeals for relief from the owners of American ships and cargoes now held in British ports, mainly at Kirkwall, the State Department is preparing further representations to the British government requesting a speeding up of the prize courts.

So far not a single American ship or cargo has passed through the British prize courts, although many of those held were seized months ago.

One typical case is that of the steamship Antilla, which has been tied up at Dundee, Scotland, since February 26. Her cargo was composed mainly of cattle food consigned to Sweden. Both the Danish and British Consulates in New York certified that there was nothing in the Antilla's cargo that could be exported from Sweden to Germany.

Nearly the same conditions are said to exist in the case of the American steamer Joseph W. Forney, whose owners today appealed to the State Department. She was seized off the Norwegian coast and taken into Kirkwall.

Notice was today received from the British government that in case contraband is found in the cargoes of detained ships, all of the expenses of loading, unloading and dockage will be charged to the shippers. In view of the wide range of the British contraband list, few cargoes can hope to escape these charges.

DELAYED RELIEF DOCKS

CAMINO REACHES HOLLAND WITH
FOOD FOR BELGIANS.

Vessel Crippled While Carrying Cal-
ifornia's Contribution Is Nearly
100 Days Making Trip.

SAN FRANCISCO, April 12.—Word was received here today of the safe arrival at Rotterdam of the steamer Camino, which was chartered by the Belgian relief committee to carry this state's contributions to the war-stricken Belgians.

The Camino left San Francisco December 5 and proceeded to Los Angeles, where she completed a cargo valued at \$250,000, consisting mainly of beans, rice, flour, dried fruits and clothing.

After passing through the Panama Canal and touching at New York for fuel, the Camino began the last leg of the long journey on January 9, to meet misfortune 150 miles from shore south of Sable Island eight days later.

While being buffeted by huge seas the Camino was crippled. Wireless calls brought nearby vessels to her rescue, and she was conveyed to Halifax, Nova Scotia, for repairs. The trip, which it was thought would be accomplished in 20 days, required nearly five times that number.

BATTLESHIPS RUSHED FOR SERVICE.

WASHINGTON, April 12.—The battleships Missouri, Ohio and Wisconsin, the Naval Academy squadron, at present in reserve in the Philadelphia Navy-yard, today were ordered placed in full commission not later than next Thursday. They will go to Annapolis about May 1 to carry the midshipmen on their summer cruise.

SUBMARINES FOR NAVAL PURPOSES WERE FIRST DEVELOPED BY FRANCE.

Individual dealings in the stock were large, but the total output was less than 20,000 shares. The floating supply of Bethlehem Steel is small, being estimated at less than 20,000 shares, so that recent operations in the stock actually represent a constant turning over of the stock available for speculative purposes.

Officials of the company again professed ignorance of the causes back of the movement. In the financial district and on the Stock Exchange the belief prevailed that it is mainly due to the existence of a short interest which has thus far resisted all efforts to be driven to cover.

MAYOR'S SENTENCE 6 YEARS IN PRISON

Donn M. Roberts in Jail in
Default of \$60,000
Appeal Bond.

15 OTHERS ARE WITH HIM

Four Convicted for Indiana Elec-
tion Frauds on Way to Serve.
Judge in Passing Sentence
Says Saloons Must Go.

INDIANAPOLIS, Ind., April 12.—Four men convicted in the Terre Haute election fraud trial and sentenced by Judge Anderson today to the Federal penitentiary at Fort Leavenworth, Kan., received their commitment papers late today and were given until Sunday to begin their trip to prison.

The other 16, including Donn M. Roberts, Mayor, who received prison sentences and appealed, and the 27 who were given sentences ranging from one day to six months in the local jail, were in jail here tonight. It was said the 16 will have two or three days in which to obtain their appeal bonds, which were fixed by Judge Anderson at \$10,000 for each year the men were sentenced. Edward Holler, the former chief of police, who pleaded guilty, also received prison sentence.

FOUR READY FOR PRISON.

The four who withdrew from the appeal are: John M. Messelink, city sealer of weights and measures and former member of the State Legislature; Arthur Gillis, Progressive election official; Joseph Strauss, liquor salesman, and George Severn, gambler. Each had been sentenced to a year and a day in prison and to pay a fine of \$100. They departed for Terre Haute tonight and will remain there until they leave for Leavenworth.

Do obtain liberty pending his appeal, Mayor Roberts, who was sentenced to six years and to pay a fine of \$2000, the severest sentence given, will have to furnish a bond of \$50,000. Efforts to secure the bond for the 16 were begun this afternoon. If all secure bonds it will mean a total of \$420,000.

JUDGE ANNALS SALOONS.

In passing sentence today Judge Anderson paused to comment on the evidence and the conditions in Terre Haute. While considering the case of several saloonkeepers who had pleaded guilty, he said:

"My conviction is that the saloon will have to go. I believe the time will come when people will rise up and smash the saloon, at least as we have it now. The evidence in this case showed that the saloons were the centers of nearly all the corruption in the election at Terre Haute."

CUTTER TO GUARD ALONE

Destroyers Likely to Be Recalled
From San Juan.

WASHINGTON, April 12.—Treasury Department officials believe the coast guard cutter Algonquin can handle the neutrality situation at San Juan, Porto Rico, making it possible for the destroyers Smith and Preston to come home to overhaul before the maneuvers of the Atlantic fleet. Acting Secretary Newton dismissed the matter today with Secretary Daniels.

When the German liner Odenwald was stopped by the guns of Morro Castle at San Juan for attempting to leave without clearing papers, the destroyers were sent to help the Algonquin maintain the neutrality of the port.

THAW ARGUMENT DELAYED

Motion for Jury Decision on Sanity
to Get Hearing Thursday.

NEW YORK, April 12.—Arguments on a motion to show cause why Harry K. Thaw should not have his present mental state determined by a jury will be heard in the Supreme Court here Thursday.

LINCOLN HIGHWAY WORK IS STARTED.

LA PINE, Or., April 12.—(Special).—Work started today on the Lincoln Highway from Bend through La Pine to the county line. Work is being done by the county. The road is being widened and after a good dirt grade has been established, it will be surfaced with cinders from Lava Butte. Still rough places in the road are being graded up first, so that automobile traffic will be able to use the road to good advantage during the time construction work is under way.

Appetite Follows Good Digestion

Nearly everyone indulges their
appetite and the digestive organs
are abused, resulting in a con-
gestion of poisonous waste that
clogs the bowels and causes
much misery and distress.

The most effective remedy to correct this condition is the combination of simple laxative herbs with Pepsin, known as Dr. Caldwell's Syrup Pepsin. This is a natural, pleasant-tasting remedy, gently yet positive in action, and quickly relieves indigestion, constipation, sick headache, belching, etc. Drug stores sell Dr. Caldwell's Syrup Pepsin at fifty cents and one dollar a bottle, and in thousands of homes it is the indispensable family remedy. For a free trial bottle write Dr. W. B. Caldwell, 452 Washington St., Monticello, Ill.

MOTHERS OF THIS COUNTRY

have through all ages past and will
through all years to come take care of
the ordinary simple ailments incident
to every family with their own favorite
remedy.

In almost every home in the land Lydia E. Pinkham's Vegetable Compound is the recognized standard household remedy for female ills; thousands of American women owe their good health to it. Made from the roots and herbs of the field, it is a simple remedy in which suffering women may place perfect confidence. It contains no narcotics or harmful drugs.—Adv.

FISHER'S BLEND FLOUR

Costs-
MORE per Sack
LESS per Loaf

Is superior to an all-hard
wheat or an all-soft wheat
flour for bread as well as for
pastry.

FISHER'S BLEND is a com-
bination of flours, made from
Eastern hard wheat, GROWN
IN MONTANA AND DA-
KOTA, and choicest Bluestem
wheat, GROWN IN EAST-
ERN WASHINGTON AND
EASTERN OREGON.

FISHER'S BLEND makes
more and larger loaves of bet-
ter bread with better crust,
better color, better texture
and of better flavor than an ALL-SOFT WHEAT
FLOUR and makes a better loaf of bread with a
better flavor, better texture and better color than
an ALL-HARD Wheat flour.

The slight extra cost of a sack of FISHER'S
BLEND is more than absorbed in the increased
number and size of the loaves, and the better qual-
ity of the bread.
