STORY RELATED BY MR. WEST DENIED

District Attorney Godwin on Stand Says Governor Never Asked Aid in Copperfield.

ATTORNEY GETS APOLOGY

Executive Retracts Statements About J. H. Nichols, Amount of Suit Less.

BAKER Or., April 14.—(Special.)—
Statements of Oswald West, ex-Governor of Oregon, that he had tried to get C. T. Godwin. District Attorney, and Ed Rand, Sheriff of Baker County, to act in the Copperfield case before Fern Hobbs and the militial were sent there, was denied in Circuit Court to-day by Mr. Godwin and Mr. Rand, testifying for the plaintiff in the William Wiegand suit against Mr. West for damages caused by confiscation of his liquor and salcon fixtures during the Copperfield raid.

Mr. Godwin told of his call with Sheriff Rand on Governor West at Salem approximately three weeks before

lem approximately three weeks before the raid, and said Copperfield was not mentioned during the conference. He also said that no evidence was offered him about Copperfield, by Governor West, or anyone representing him, that West, or anyone representing him, that no documents were submitted to him and that no requests were made by the Governor or anyone acting for him, to take any action in Copperfield. This is in direct contradiction of Mr. West's testimony that he had ordered martial law at Copperfield because local authorities would not act. Mr. Godwin's testimony was not shaken under cross-examination.

"When did you first learn of the pe-tition for an investigation?" he was

"When did you first learn of the petition for an investigation?" he was asked.

"Only when it was published in The Oregonian." he answered.

During Mr. Godwin's cross-examination Frank Collier, attorney for Mr. West, inquired about the Circuit Court trial of Copperfield liquor men following the Copperfield raid. Mr. Godwin said that indictments were returned against A. J. Warner, William Wiegand, H. S. Stewart, J. J. Burns, Martin Knezevich and W. Woodberry, Wiegand's bartender. He said Mr. Stewart was acquitted and that Mr. Burns entered a plea of guilty.

"Mr. Nichols was appearing for the defendants?" inquired Mr. Collier.

"He was," Mr. Godwin replied.

"And Wiegand was discharged on your motion?" pursued the examiner.

At this Circuit Judge Gustav Anderson, before whom the case is being tried, quickly interposed.

"Do I understand you to question the proceedings of this court?" he demanded.

He then started by rail for Budapest, and upon arriving was promptly arrested and thrust in prison. He later was released with many apologies.

He found Mrs. Hansen at Budapest, but she had passed through some trying experiences. Being a Hungarian and of attractive appearance, she had been accosted on a train when passing through Roumania. Smarting under his rebuff and having his face slapped in public, the man who approached her telegraphed to authorities at Pedreal that she was a spy.

The authorities sent her to Bucharest for examination, where she was given over to a matron at the prison. Finding nothing incriminating, the matron ordered her release.

Mr. Hansen was living at Kiev during the excitement over Bielas, the Jew who was accused of murdering a boy and using his blood for certain rites, and passed several days at the trial. On being acquitted, the demand for Bielas' services was so great that he gathered a fortune of half a million before Mr. Hansen left Russia. He was shown chiefly in moving pictures.

This completes the list of delegates for whom credentials have been received. This is the second year under the new system of electing delegates by the subordinate granges entitled to representation in the State Grange. The rotation will be completed next year, then each grange will know its turn and be governed accordingly. There seems to be some confusion over the number of representatives to which a

grange is entitled. The by-laws provide that "Each grange shall be entitled to one representative," but further provides that "if said representative has a wife and she is a patron, she shall be a voting member of this body," or if the representative has a husbandman, he shall be a voting member of this body."

"It is evident from the by-laws that the basis of representation from each grange is one representative, with the provision that the husband and wife have equal privileges if they are both fourth degree members in good standing. The same conditions apply to the alternate. If the alternate has a wife and she is a fourth degree member in good standing she shall be a voting member. No one can be substituted for the wife or husband, in either case." member. No one can be substituted for the wife or husband, in either case."

Positive Relief For Constipation

The progress of modern med-The progress of modern medical science is, perhaps, no more forcefully evident than in the simplifying of many of the old-time remedies of past generations. For instance, the harsh cathartics and violent purgatives used by our forefathers to relieve constipation are now known to be not cold unprecessary, but to be not only unnecessary, but really harmful. Constipation can be more effectively relieved with-out the discomfort and pain these old-time remedies occasion. HAIR COMING OUT?

Dandruff causes a feveriah irritation of the scalp, the hair roots shrink, loosen and then the hair comes out fast. To stop falling hair at once and rid the scalp of every particle of dandruff, get a 15-cent bottle of Danderine at any drug store, pour a little in your hand and rub it into the scalp. After a few applications the hair stops coming out and you can't find any dandruff.—Adv.

Says Thin People Can Increase Weight

Food Alone Produces Fai, Says Noted Expert — How to Turn Food Into Healthy Flesh,

The reason that some people are chronically thin and under normal weight, says a noted authority, is because of a chrosic leakage of the fat-making elements in their food. The assimilative functions of their stomach and intestines are not working properly. Only a small portion of the food nourishment of their meals over reaches

properly. Only a small portion of the foon nourishment of their meals over reaches their blood—just enough perhaps to keep life within the body—the rest passes out as waste. The problem of gaining weight and flesh depends entirely therefore on a natural stopping of this dangerous waste of fats and the correction and repair of the organs of assimilation.

For those who wish to gain healthy flesh and put on from ten to twenty pounds of weight a single Sargol tablet taken at meals for a few weeks will almost hevariably produce the desired offect. Surgol does not of itself build flesh, but, swallowed with your food, it acts upon every mouthful you eat, first separating all the fats, ollaways exarches and other flesh-making materials from the food waste and then preparing all the mourishing elements in a form which the blood can resailly accept and distribute all over the body. Bargol stops the leakage of fats, keeps all the flesh-making materials within the body, allows only the worthless waste to leave it, it further repairs the faulty organs of assimilation, enabling them gradually to properly perform their natural functions to that the new found flesh "stays put." Eargol is not an experiment. Thousands have used it and proved it, fur action is natural and harmless and it is seldom indeed that it cannot produce an increase of from ten to twenty pounds of natural healthy flesh on

If You Eat Meat Regularly.

No man or woman who eats meas regularly can make a mistake by flushing the kidneys occasionally, says a well-known authority. Meat forms urio acid which clogs the kidney pores so they sluggishly filter or strain only part of the waste and poisons from the blood, then you get sick. Nearly all rheumatism, headaches, liver trouble, nervousness, constipation, dizziness, sleeplossness, bladder disorders come from sluggish kidneys.

The moment you feel a dull ache in the kidneys or your back hurts, or if the urine is cloudy, offensive, full of sediment, irregular of passage or attended by a sensation of scalding, get about four ounces of Jad Salts from any reliable pharmacy and take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salts is made from the acid of grapes and ismon juice, combined with lithin and has been used for generations to flush clogged kidneys and stimulate them to activity, also to neutralize the acids in urine so it no longer causes irritation, thus ending bladder disorders.

Jad Salts in inexpensive and can-Jad Saits is inexpensive and cannot injure; makes a delightful effervescent lithia-water drink which all
regular meat eaters should take now
and then to keep the kidneys clean and
the blood pure, thereby avoiding
serious kidney complications.—Adv.
