Spokane District's Part Hinges on Attitude of Agency.

SPOKANE, Wash., April 16.—(Spe cial.)—The continued affiliation of th Spokane Fruitgrowers' Company with the North Pacific Fruit Distributer hinges upon the willingness and ability of the management of the centra selling agency to revise its marketing policy to give the district a morn equitable distribution of its produc in what the local growers regard as their natural market, the territory west of the Missouri and Mississippi rivers. That was the gist of the sentiment expressed today at a convention in the Chamber of Commerce building, attended by about 60 representative growers of the district, present as del-egates from their respective local or

The convention will meet again to merrow morning at 9 o'clock. Every 1914 apple crop were entirely unsatis

wide difference between wheat prices in the Pacific Northwest and in the Eastern markets has already led to some buying in the interior for Eastern account, the grain to be shipped by rail. The quantity taken so far is reported to be small. More business, however, has been done in flour. Several of the interior mills are reported to have sold considerable quantities to go East overland. The natural route for most of these shipments would be by water through the canal, but the lack of sufficient steamer space has sent the business to the railroadz.

Dairy and Country Produce, Marked Increase in Demand for High-Grade Investment Isuses. Bank Clearings Indicate Improved Trade.

NEW YORK, April 16.—Apart from a fresh obulition of speculative hysteria, which was most conspicuous in various equipment issues, today's active stock market was essentially two-sided. That is, the huying of specialities frequently was offset by heavy selling of standard shares, which yielded much of their early advantages, though closing with general net gains. The unrestrained trading of the first half hour, probably without parallel in the annals of the heast exchange, was confined in a great measure to shares of companies which are supposed to be in receipt of remunerative orders from European belligerents. American Locomolive rose over 18 points almost at the outset, New York Are Brake 16, and numerous other industrials and equipments from 5 to 8 points.

In a way, today's rise in the so-called was specialities was accepted as a natural outgrowth of the recent gyrations in Bethlehem Steel, first of the industrial concerns to make marked response to its war business. Representative issues were under moderate pressure throughout the session, even though some, particularly United States Steel, attained their highest prices of the movement. Union Pacific, Reading and a few others which are commonly regarded as a few others which are commonly regarded as a few others which are commonly regarded in the final hour, though recovering in part toward the end, which was marked by a confusion of prices.

Winancial conditions were again highly favorable to buillish interests. Bankers reported a marked increase of demand for high-grade investment issues, the success of the New Haven Railroad note issue giving stimulation to this inquiry. Refined capper you to the new high price of 19½ cents and bank clearings testified to betterment in general lines of merchandise.

Total sales of stocks amounted to 1,150,800 shares.

Americans Steady at London,

FOREIGNERS ARE PURCHASING FOR DISTANT DELIVERY. Chicago Market Advances Nearly Five

Cents, but Extensive Profit-Taking Causes Reaction.

Chicago, April 16.—Wheat rose at one time reday nearly 5 cents a bushel. The jump was accompanied by assertions that fereigners were baying new crop deliveries and also were purchasing new crop flour on account of belief that the war influence would extend into the 1615 harvest. Unsually heavy profit-taking, though, led to a reaction, the market closing unsettled 4 cent off to 215 cents up, compared with last night. Corn gained 13, 514; cent to 14 of 18; cents net, and outs \$6.5 cent to 14 of 18; cents net, and outs \$6.5 cent to 14 of 18; cents net, and outs \$6.5 cent to 14 of 18; cents net, and outs \$6.5 cent to 14 of 18; cents net, and outs \$6.5 cent to 14 of 18; cents net, and outs \$6.5 cent to 14 of 18; cents net, and context of hieror varied from 5 cents decline to 16 cents advance. Buying demand centered chiefly on the July option, a new erop month. Word of a hig advance in prices at Buenos Ayres and of extraordinary European competition for what little was left of the Argentine surplus emphasized reports of foreign buying Sales of wheat futures here to realize profits amounted to several million hushels before the market showed a decided tondency toward a sethack.

Higher prices for corn were based largely on buillah crop reports from Argentina and on the first big lake shipments of the year. Besides, there were cash sales here of 30,000 hushels, including a round lot to exporters. NEW YORK, April 16.—Tin quiet and ominal; five-ton lots at 54c. lambs at steady prices. The animals were largely ahoep. Mutton material continues in demand. Spring lambs are no longer a novelty and buyers are now bidding for them on a parity with full wool yearling lambs. The hogs that have come on the market this week, while generally in fat condition, have been mostly odds and ends and mixed cars. Good wagon hogs from nearby places have readily brought \$7.50. Uneven lots of fat hogs have arrived, which have caused cuts for the heavies. The trade wants pork from hogs weighing less than 250 younds, and heavy stuff is taken only at a cut. The fairly light consignments of cattle
