Learn to save heating dollars!

If you were getting 4% interest on your savings deposit and another bank offered you 10% to change your account, what would you do? Would you put it off? Certainly not! Why therefore do you cling to the reckless fuel wastes, the health risks, and the replacement bills of old fashioned heating devices, when you can begin at once to save far more than 10% in heating dollars by investing in a big dividend-paying outfit of

AMERICAN & IDEAL RADIATORS & BOILERS

having learned from experience, or from neighbors use, that these ideal heating outfits do far more than any other material feature of the building to make it a genial, healthful, convenient, cleanly place in which to live and work.

If all the people knew, after a year's trial, of the comforts, the lessened coal bills, doctor bills, repair bills, cleaning bills, and the saving in labor, fire protection, absence of blackening, rusting, storing, etc., no one would be willing to go back to old fashioned heating.

A No. 1-22-W IDEAL Boiler and 400 ft. of 3/8-in. AMERICAN Radiators costing the owner \$190 were used to heat this cottage.

Each Spring and Fall, in the renting and buying seasons, the public is showing a fast increasing preference for buildings that are radiator heated, and at a minimum outlay. They earn their cost!

If you now own, or are about to buy or rent, you owe it to yourself to use that same shrewdness and foresightedness in planning, buying or leasing as taught by ablest Builders and Real Estate men everywhere.

An unfailing, stationary Vacuum Cleaner—in sizes now at \$150 up! You should know about our ARCO WAND Vacuum Cleaner, for dustless, complete cleaning of rooms, furnishings, etc.

complete the task assigned and we had seized the principal chain of the Carpathians on a front between Reghetov and Volosale, of 110 versts (about 75 miles).
