More Than Score of American Firms Build Plants.

Mr. Merrill's son owns a bank at MILLIONS ARE INVESTED

Development of Manufacture of Color Materials Made Necessary by Embargo on German Trade Is Advancing Rapidly.

WASHINGTON, April 20 .- More than core of American firms are establishing new color works or enlarging QUIET MARKET AT NORTH PORT-the output of existing plants to meet LAND STOCKYARDS. the demands of the textile industries and other allied branches of manufactured stuffs, the supply of which formerly almost exclusively came from Germany, and which has been cut off since Great Britain's embargo against German commerce. The Department of Commerce today announced it was devoting much attention to the progress in American uye stuff manufacture and had found a noteworthy advance.
One company has provided for additional by-products ovens at an outlay of \$1,000,000. Plants at Johnstown, Pa., of \$1,000,000. Plants at Johnstown, Pa., Gary, Ind.; Youngstown, Ohio; Inland Harbor, Ind.; Buffalo, N. Y.; Woodward, Ala., and another in the south, all are increasing or establishing facilities for bensel production. A plant at Marcus Hook, Pa., is nearly completed for the manufacture of intermediates on a large scale.

It is hoped, a report from Commercial Agent Norton says, those works will produce most of the aniline oil and salts required by American color works.

works.

Among existing dyestuff works, a large plant at Buffalo has greatly widened the scope of its manufacture; one at Brooklyn has increased its capacity to \$1,000,000 and equipped a spacious new plant; a new company has leased a large plant at Stamford, Conn., which had not been in operation for two years; a New York firm has established the manufacture of sulphur colors, the consumption of which class of coal tar dyes is large, especially in hosiery manufacture, and a big steel company is planning a dyestuff plant to use its benzol, intending to concentrate manufacture at the outset on a few of the staple dyes in greatest demand.

staple dyes in greatest demand.

American coal tar dye factories are making every effort to increase their output. These include factories at Albany, N. V., and three at Newark, N. J. Extensions also are being made by manufacturers of vegetable dyestuffs, including firms at New York, Stamford, Conn., and Hanover, Pa.

## YAKIMA GROWERS TO PAY

Collection of Assessment Ordered to Meet Selling Expenses.

NORTH YAKIMA, Wash., April 20 .-(Special.)—The board of trustees of the Yakima Fruitgrowers' Association yesterday adopted a resolution directing its officers to collect the assessment called for by the Growers Council for support of its work; but only after satisfactory evidence has been pre-sented that at least 85 per cent of the fruit tonnage shipped out of the Palific Northwest this season pays a sim-

C. H. Hinman, Austin Woodyard, E. L. Porter, W. B. Armstrong and C. H. Stein were elected as the Yakima mem bers of the new board of trustees of the North Pacific Fruit Distributors nd the reorganization plan was in

### spection Bureau. BARTLETT PEARS INJURED

All Other Fruit About Quinaby Undamaged by Recent Frost.

QUINABY, Or., April 20.—(Special.)
-The recent frost did little damage to \$3000 automobile for use in making in-spections and in business trips about the city. An ordinance appropriating the money will be considered at the regular Council meeting today. At present the Council is without a prunes and peaches, as they were too far advanced, but fruitgrowers report a steady dropping of Bartlett pears. The shortage of Bartletts was marked last year and there are few dried or canned ones held over. Other fruits are looking well and all garden stuff is far in advance of former years, out-stripping the early gardens of last year, which broke the record previ-ously set for earliness, but which fell short in quantity owing to the intense heat that prevailed later in the Sum-

Hop training is well under way, the vines making a good growth.

BIG WOOL BUYING IN NEVADA

Three Clips, Aggregating 600,000 Pounds, Taken by Eastern Mill. Direct buying of wool by mills has been he feature of the wool market so far this season. The American Woolen Company, which has been operating heavily in the Yakima district, has not confined its attention to Washington, according to reports in the trade, but has also made large pur-chases in Nevada. Three of the largest clips in that state, those of Taylor, Williams and Jordan, have been bought by the company. The aggregate amount of these clips is about 600,000 pounds. It is said they ere bought by Mr. Livingstone between his first and second purchases in Eastern Washington, but the prices pald were not given

Commenting on the buying end of the market Fibre and Fabric, of Boston, says: "It was thought that the large arrival of foreign wools would tend to depress prices sufficiently to cause an easing off in the West, but in spite of the recent recession in the markets the growers in the West have in the markets the growers in the West have hung on, and seem to be determined to 57c, 10-case lots, ic less. domestic market is that the manufacturers are not at all interested, and the lack of supplies in old wool does not seem to trouble them at all, so that when there are no buyers in the market it becomes a hard mat-ter to determine whether there is a real

of the year, a small one at Walker ten days ago, was at 32% cents. Then, on Monday, the Eddyville pool of 22,000 pounds brought 22% cents. Yesterday the pool at Biddle was sold and it brought 31% cents. The Biddle pool was bought by a Southern Ore-

## MARKET'S TREND REVERSED

New Haven Leads Railroad Shares in Upward Movement-Coppers and Industrials Are Features of Day's Advance.

NEW YORK, April 26, The stock market day reversed its course of the preceding region by closing with an almost buoyant one, after several hours' hesitation and unortainty. Early restraints were found in the
flock Island receivership and further analysis of Chaltman Gary's remarks to the
United States Steel shareholders, but these
considerations were set aside in the final
hour when a flood of fresh buying orders
list. Although opening quotations showed a
oreponderance of gains, the market denoted
pregularity, this condition becoming more
cente as Rock Island shares and bonds began
their precipitate declines. The stock had
allen 13 points by mid-day with severe
cosses in the underlying securities, while the
balance of the list reflected general heaviafter several hours' hesitation and un

balance of the list reflected general heaviless.

The late rise began with a movement in
New Haven, that stock leading the railroad
list. Later it spread to the investment issues and then to specialities or the class recently neglected, including Bethlehem Steel,
which rose il points. It reached its best
when the coppers began to show activity,
the rise being coincident with another advance in the price of metal, the fourth in
less than a week's time.

Over three-fourths of the day's trading,
which aggregated 1,250,000 chares, was
transacted in the first and last hours, the
latermediate period showing relative inactivity.

An unusual development in the foreign
exchange situation was the heavy buying of
'future bills on London,'' These are to mature next Summer-and Autumn and the assumption prevailed in well informed quarters that the contracts presses expectations
of peace by that period.

Bonds were irregular, chiefly because of
the losses in Rock Island issues. Total sales,
par value, aggregated \$6,250,000. United
Stats bonds were unchanged on call.
