A PIMPLY SKIN

Pimples Are Impurities Seeking an Outlet Through Skin Pores.

Pimples, sores and boils usually result from toxins, poisons and impurities which are generated in the bowels and then absorbed into the bloed through the very ducts which should absorb only nourishment to sustain the body.

absorb only nourishment to sustain the body.

It is the function of the kidneys to filter impurities from the blood and cast them out in the form of urine, but in many instances the bowels create more toxins and impurities than the kidneys can climinate, then the blood sees the skin pores as the next best means of getting rid of these impurities which often break out all over the skin in the form of pimples.

The surest way to clear the skin of these eruptions, says a noted authority, is to get from any pharmacy about four ounces of Jad Salts and take a tablespoonful in a glass of hot water each morning before breakfast for one week. This will prevent the formation of toxins in the bowels. It also stimulates the kidneys to normal activity, thus coaxing them to filter the blood of impurities and clearing the skin of pimples.

pimples.

Jad Salta is inexpensive, harmless and is made from the acid of grapes and lemon juice, combined with lithia. Here you have a pleasant, effervescent drink which usually makes pimples disappear; cleanses the blood and is excellent for the kidneys as well.—Adv.
