This slogan will be printed on 1000 buttons for distribution among the delegates and members of the State Grange at the session in Tillamook on May 11, 12, 13 and 14. SPRAYING FOR CATERPILLARS ADVISED.—Now is the time to spray for caterpillars and other plants for the caterpillar and the first brood of the codling moth, according to J. E. He advises to use one pound of arsenate of lead to 15 gallons of water and spray all kinds of shrubbery thoroughly.

The Albina public market, on Knott street, will have its public opening on the season of 1915 on Saturday, May 15. At a meeting of the market committee from the Albina Consumers' League, yesterday, the date of the official opening was fixed and plans were adopted for a celebration. Hot coffee and sandwiches will be served to the public.

Firms in the Albina district will be asked to decorate their places of business. Farmers who have been bringing produce to the Albina public market will be invited to make a special effort on May 15. The committee of women from the Consumers' League will have general charge of the arrangements for opening day, with the assistance of members of the Albina Exchange and Club.

M. H. Calef, who has been a moving spirit in behalf of the Albina public market, said yesterday that practically all the farmers of Clarke County, Washington, who have been coming to the market since it was established last year are preparing specially to supply this season. Some of the farmers have put in from six to 10 acres in vegetables for the market. These farmers generally have enclosed their land on Knott street for the entire season.

PROPOSED LAW PROTESTED. Peddlers Object to Measure Compelling Reports of Purchases. Junk peddlers and detectives were before the City Council yesterday when an ordinance requiring junk peddlers to make daily reports of purchases to the police, was up for consideration. The detectives representing public service corporations declared that the measure is necessary because peddlers are buying quantities of stolen goods, wire and other metals.
