

3 RESISTS DENIED

National Commission Grants One Plea of Fraternity.

WAIWERS TO BE SECRET

Governing Baseball Refuses to Fix Minimum Salary Clause in Contracts of Players Sold to Other Clubs or Released.

CINCINNATI, April 22.—Of the nine provisions requested by the Baseball Players' Fraternity to be inserted in what is known as the Fraternity agreement, the National Commission yesterday handed down a finding allowing one of the provisions and denying three.

Of the five, two were found to already exist in the agreement; another existed in the agreement in a modified form, making the provisions unnecessary in the opinion of the commission; one was withdrawn and another dealt with minor leagues and was therefore up to the national board of the National Association.

One Provision Allowed.

The provision that was allowed, No. 5, was: "That the commission and board furnish the management in the various organizations over which they have jurisdiction respectively with forms of release making provision for the several items of information required by the agreement."

The provisions that were denied were: "That the commission shall report to the club either before the close of the season of the release club or immediately thereafter and shall be put on salary."

Players Are Protected.

The commission in denying this request says: "The effect would minimize the call of optional players and thus operate to the disadvantage of the players."

Another denied was: "That a club releasing a player outright or optionally, shall serve upon him a written notice containing, in addition to the data already mentioned in the Fraternity agreement, a statement of the minimum amount of salary he is to receive from the purchasing club, which shall be a reasonable salary for that classification."

Waivers to Be Kept Secret.

When waivers are made, the committee of the Fraternity is to be notified."

SHARES FALL WIDELY

Stock Speculation Decreases, Prices Are Irregular.

STANDARD ISSUES LOWER

Coppers Are Again Strongest Features of List—Other Industrials Score Advances, While Bond Market Is Firm.

NEW YORK, April 22.—Trading in the stock market today fell away in a marked degree, total transactions falling far short of the recent daily average of a million or more shares.

As a matter of fact, the dispassionate observer, events of the past few days, including heavy foreign and domestic selling, with a consequent professional speculation in the metal shares, seemed to make today's outcome a matter of logical sequence.

The minor rally again was under the cloud of a fall from the stock land reeve-ship, Missouri Pacific and Missouri, Kansas and Texas, which were found to be probably a result of their approaching financial reorganization.

Investment conditions offered more encouragement, but it was found that the bank of the new issue of New Haven notes rose to a slight premium over the subscription.

Increased weakness in almost all foreign exchange rates, with reports of the loss of the British government's credit from a slight recession of gold and a decline in the value of the pound sterling of England statement was devoid of special features.

The moderate rally in Rock Island issues and strength in copper convertibles imparted firmness to the bond list. Total sales, par value aggregated \$5,125,000. United States bonds were unchanged on call.
