MR. LISTER WINS IN FIGHT OVER BILLS

Emergency Clause Decision Makes About \$3,250,000 Available for Roads.

INSTITUTIONS

Referendum Against Jitney Bus Act Also Is Warded Off; Appropriations for tSate Declared Not

Subject to Challenge.

OLYMPIA, Wash., April 22,-(Spe cial.)-Five contested "emergencyclause" measures, the general budget, highway appropriations bill, fish code, litney bus bill and Renick bill pro-hibiting the diversion of city funds, all were declared in immediate effect by the Supreme Court today.

The decision is a notable victory for Governor Lister, who contended that the general appropriations, highway appropriations and appropriations un-der the fisheries code were available immediately, despite the opinion of Attorney-General Tanner, who instructed Auditor Clausen to issue no warrants under the contested appropriations.

One effect of the decision is to prevent the use of the referendum against the jitney bill, requiring drivers to file \$2500 indemnity bonds.

Referendum Held Barred. The emergency clauses in these bills were attacked by the Referendum League, which sought to compel the Secretary of State to accept the filing secretary of State to accept the filing of referendum petitions. The Secretary of State refused on the ground that the emergency clause was a bar to the referendum. The Supreme Court uphel dthis action, deciding that the emergencies declared by the Legislature were real and that appropriations for the support of the state government and its existing institutions are not subject to referendum and can be not subject to referendum and can be put in effect immediately.

Judge Chadwick in his opinion says the Washington direct legislation amendment, adopted after the initia-tive and referendum had been in effect in Oregon, apparently was drafted with care to avoid the situation by which Oregon University appropriations were tied up by referendum. The majority of the court continues of the opinion that determination of whether an act comes under the exemption of measures for the support of the suppo ures for the support of the govern-ment and its institutions rests ulti-mately with the court and not with the Legislature, as does the question of the constitutionality of the entire act, but states that doubts will be resolved in favor of he legislative declaration.

About \$3,250,000 Made Available. Approximately \$3,250,000 is rendered available immediately for 1915 road construction work by the decision. Governor Lister at once called, a meeting of the State Highway Commission for for tomorrow morning to set machin-ery in motion for the \$1,000,000 state work planned for this year, while the majority of the counties also are ready

majority of the counties also are ready to work immediately with the \$2,500,-900 available for permanent highway construction under the joint county and state supervision.

Decision on the general appropria-tions bill relieves the University of Washington, Washington State College and the state fair from threatened inancial embarrassment and also eland the state lair from threatened financial embarrassment and also allows the Board of Control to start work immediately toward the construction of any of the institution buildings authorized by the last Legislature. The new fish code goes into effect immediately, with a higher license on this season's catch.

Judge Fullerton, holding that the highway appropriations should not go into effect immediately, was the only active dissenter, but three judges placed their concurrence on grounds different from those given in the main decision written by Judge Chadwick.

INJUNCTION APPLIED FOR

Refusal to Permit Presentation of "The Valley of the Missing" on Account of Criminality Depicted Cause of Suit.

War between motion-picture exhibtors and municipal censorship was started yesterday when the James Council and by our Chief of Police Amusement Company, owners of the Municipal Judge."

Majestic Theater, filed suit against the Chief of Police, the Mayor and City Council, and the censorship board. The suit asks that the censorship ordinance be declared void, and that the authorities be enjoined from stopping or sels-ing a film entitled "The Valley of the Missing," which was turned down by the board two weeks ago.

"The Valley of the Missing" was taken from the local screen because Mrs. Eleanor T. Colwell, secretary of the censorship board, said there was so much crime, shooting and revenge in it that it wasn't good for public morals.

This is the second time the Majestic Theater has locked horns with the censorship board. The first occasion, howsorship board. The first occasion, how-ever, was before the passage of the present censorship ordinance. The "Kreutzer Sonata," one of Count Tols-tol's plays, was declared in its pic-turized version to be unfit for the screen. A board of appeals, headed by Municipal Judge Stevenson, overruled the censors' action, and the film was shown.

Delegated Authority Attacked. Yesterday's suit names Chief of Po-lice Clark, Mayor Albee, the four City Commissioners and the seven outside members of the censorship board. With regard to the ordinance, it declares the City Council has no power to delegate the authority to pass on moving plo-tures—that the police and the Council alone are the judges in matters of

It does not come on immediately after eating, but after the food has had time to ferment, which it does because the digestive fluids that should take care of it are insufficient, because the glands that secrete these fluids are weak, because the blood is failing to nourish these glands properly.
