### HARVARD STUDENTS FREE TO CRITICISE

Irritated German Professor Told Faculty Will Not Discontinue Policy.

"GOT MIT UNS" STIRS IRE

Dr. Kuno Meyer Says Publication of Poem Is Crowning Incident of Series of Acts Offensive to His People.

CAMBRIDGE, Mass., April 28. CAMBRIDGE, Mass., April 28.—A.
Lawrence Lowell, president of Harvard University, made public today
his reply to the letter addressed to him
by Professor Kuno Meyer, of the University of Berlin, in which the latter
protested against the publication by
a Harvard student paper of a poem
entitled: "Gott Mit Uns." Dr. Lowell
disclaims for the university authorities disclaims for the university authorities eny responsibility for the verses and says Harvard's policy of freedom of speech will be preserved. His letter

Cambridge, Mass., April 27 .- My dear Professor Meyer: Your letter has come, and I am grieved at the feeling of irritation against Harvard that it shows. The poem and prize to which you refer I had never heard of until your letter came.

Freedom of Speech Unlimited.

"As you are aware the freedom of speech of neither the professor nor the students in an American university is limited, nor are they themselves subject in their utterances to the direction of the authorities. This policy of freedom of speech we shall continue to pursue, for we believe it to be the only one which accords with the principle of academic freedom. I hope the time will come when you and your colleagues in Germany will recognize that this course is the only right one."

Is the only right one."

The poem, which was anti-German in vein, was written in competition and the author received a prize. The judges were two professors of the university.

Poem Called "Crowning Incident." Professor Meyer, in his letter of res-ignation, referred to the publication of the poem as the crowning incident of a series of acts from Harvard offensive to the Germans and that he in-dorsed "the hope expressed by my brother, an honorary graduate of your university, that no German will again be found to accept the post of exchange professor at Harvard." Professor Meyer was to have filled his term as exchange professor dur-ing the next college year.

was graduated by the Oregon
City High School in the class of
1914, has gained admission to
West Point Military Academy
and has been ordered to report
there June 15.

there June 15. He is an exceptionally bright student, having completed the four years' High School course in two and one-half years. Wis par-ents are Greeks, and he writes speaks that language, as as being proficient in Eng-Latin, German and French. While in school he was a leader in athletics, being a member of the football, basketball and track teams. He is 19 years old.

was selected to go into the fight. did so at the urgent request of Governor Hughes."

ernor Hughes."

"Where did you meet him?"

"I met him on commencement day at Harvard. We each knew that the other would be there; that was in June, 1910."

"Were your meetings and breakfasts with Senator Platt—" began Mr. Bowers.

"Bowers."

fronted when their national egotism or racial pride is touched. The Americans have touched both, not once, but repeatedly.

The affront has been given with a supercilious carelessness that has emphasized its effect and importance.

Now I hold no brief for the Japanese

"State the subject of your conversation by the Japanese government with him as head of the Republican party, so as to prevent a break with the organization.

"I did not want to disrupt the Republican party. I knew I could get until the night before I was nominated," said the Colonel, and he continued in reply to a series of questions, done in Albany if I did not break with the party. I knew I could prevent wrong.

"Senator Platt urged me to take the place. Our chief conversations took place. Our chief conversations took place in Philadelphia, although in the Spring we talked about the thing two or three times. At first Senator Platt ing Japanese sensibilities, such a result may easily be brought about. There are two courses which may one of the Legislature. I had to prevent a break. If there had been one, a could not have had my nominees confirmed by the Legislature. I could go to one or two Senators who were not controlled by the organization.

"After full investigation, I became convinced that the organization controlled the Senate, and if there was likely to be an issue between me and in Philadelphia the thing came to a head. A letter bearing on the situation was then read. The Colonel continued by saying with great emphasis:

"I was not satisfied to have had a more negative result of my administra

"As a matter of fact, you wrote a letter congratulating Mr. Barnes for making the nomination of Governor Hughes unanimous, didn't you?"

"I did. In 1908 the men I communicated with told me the men who were cated with told me the men who were back of Hughes were trying to break my influence and allack my position.

I paid no heed to their statements, I

# JAPAN'S DESIRE IS

Energy Diverted From American Troubles by Ambitions on Asia's Mainland.

CHINA TO BE DOMINATED

Oscar King Davis Says People of United States Could Provoke War Easily, but Nipponese Are Willing to Be Peaceable.

(Continued From First Page.) nizes the importance of keeping the laborers at home, and that is why it has given its assent to the gentleman's agreement. For, however it may be ignored in America, the fact is recognized here that Japan's development trends naturally not across the Pacific but into the adjacent territory on the Asiatic mainland.

Furthermore, Japan's natural and national interest lies in industrial expansion, and for that she needs her

laborers at home

Outlet Is Demanded. It is to be remembered that Japan has a population of more than 50,000,-000, crowded into a territory about the size of the State of Montana. If there size of the State of Montana. If there was a population of 50,000,000 in Montana it can be readily believed that there would be some moving out. But not only are the Japanese already crowded to the point where their population averages about 3000 to the square mile, it is increasing by between 600,000 and 700,000 annually, by the excess of births over deaths.

In other words, a situation is presented for which there must be an outlet. What is that outlet to be?

Every once in a while somebody gets

Every once in a while somebody gets up in the United States and cries aloud that Japan has designs on American territory. Usually it is the Philippines, but there are those who profess to be-lieve that Japan would really like to have a big slice of our Pacific Coast and is actually contemplating the ef-fort to take it by force of arms.

Such loose talk derives its chief support and acceptance from the fact that Americans have undoubtedly given a serious affront to the Japanese people. There are not people anywheres more self-satisfied nationally and more around racially than the Japanese. They are undertaking in the American interests and development disappears for a long period of wears as soon as Japan is fairly emundertaking in self-satisfied nationally and more proud racially than the Japanese. They are extremely sensitive, and easily affronted when their national egotism or racial pride is touched. The Americans of racial pride is touched. The Americans to Americans for a long period of ment disappears for a long period of the provided part of the provided pa

With Sensator Platt—" began Mr. Bilss' son were for contributions of less than \$3,000,000.

"Give your conversation with Mr. Cortelyou," said Mr. Bowers.
"It was," said Colonel Roosevelt, "10 years ago. It was to the effect we had received about half of what President McKinley had. I was mistaken when I said Mr. Cortelyou told me our contributions in 1904 were \$3,000,000. I had \$3,500,000 in my mind when I said that. That was something like the figure President McKinley's fund totaled, Mr. Cortelyou told me, was about \$1,800,000. I was in error."

"Colonel Roosevelt, you have testified to many conferences with Senator Platt and suggestions received from him."

"Yes. I found his wide knowledge of much value to me. I consulted Mr.

res. I found his wide knowledge of much value to me. I consulted Mr. Platt on all important matters that came up through my entire administration. My purpose was partly to take advantage of his experience and partly to see if I could not come to an agreement with him as head of the Partly.

War Could Be Brought About.

I have no doubt that it would be possible for Americans, by continuing the possible for and conversed with Senator Platt about the Vice-Presidency.

"Yes."

"State the subject of your conversation about this matter."

"We had several talks from April 1.2. The play upon the sentimentality of the Japanese, to stir up an agitation that dustry, or home labor. It is a sort of national sweatshop process, which, at first blush, seems to produce cheaper goods.

But as a matter of fact it is less efficient and more expensive than the clear recognition by the Japanese government and leading statesmen that their true economic advantage is all against such a proceeding.

It would be a war that could have no possible advantage for either country, and would produce only disaster and the time required is materially greater. The prime needs of Japanese government and the time required is materially greater. The prime needs of Japanese government and the time required is materially greater.

nently. The attempt to block it will produce a graver situation than any that has resulted from the numerous plays upon Japanese sentimentality on the Pacific Coast. and the Japanese were to take a slice of the Pacific Coast of the United States, it would be only a temporary lodgment, and disadvantageous at that,

Leading Part in China Demanded. One of these two outlets, the one which will be first put to service, is expansion into the adjacent Asiatic mainland. The effort to facilitate that expansion is the moving cause at the bottom of the present negotiations going on between the Japanese and Chi-

ing on between the Japanese and Chinese governments.

The statesmen of Japan are determined to secure for their people the leading part in the commerce with China. Count Okuma frankly declared that the Japanese have three natural advantages over all competitors in the contest for this trade.

One of these advantages, he said, was geographical, another political, and the third racial. It is all true. The competitors of the Japanese who sake

One or these advantages, he said, was geographical, another political, and the third racial. It is all true. The competitors of the Japanese, who seek to develop their trade with China, whether they be Americans, British, Germans or Patagonians, must inevitably come face to face with these facts. The obligation rests upon them of finding some mans of overcomiver these ing some means of overcoming these

great natural advantages.

There is nothing to be gained by complaining about the situation. Complaining about the situation. Complaints will not alter the facts. What plaints will not alter the facts. What is required is the exercise of ingenue tity, skill and patience as well as industry. These are the means by which the natural advantages of the Japandustry. These are the means by which the natural advantages of the Japan-German Method Supplies Illustrations.

These are the means which the Germans have employed with marked success in developing their trade in Manchuria, that part of China which is already under the strong spell of Japanese influence.

Numerous Japanese who have proved their ability by their success have frankly admitted to me in the last few days that the Japanese as a whole are not able now to compete successfully

They ascribe their lack of success to lack of organization, lack of capital and lack of skilled labor. They declare that all three of these deficiencies will be made up in the near future, and they expect then to be fully able to held their own in all field. and lack of skilled labor. They declare that all three of these deficiencies will be made up in the near future, and they expect then to be fully able to hold their own in all fields with all competitors.

You, Who Want a Piano Your Attention a Moment!

Our "500 Piano Club" Offers Low Prices, Which Will Never Be Obtained Under Real Prosperous Conditions - Therefore, Your Opportunity!

Every home should have music in it. Why not have a fine Piano or Player Why let imaginary obstacles stand in the way of your home enjoyment of music and entertainment, when our club plan will provide you with a strictly high-grade Piano without strain on your income, or sacrifice, or skimping? Investigate this today. It is really one money-saving opportunity that you cannot afford to overlook. Highest grades of standard Pianos and Player Pianos are offered at astonishingly low prices, and in addition to these low prices, you get an actual bona fide saving of 22 per cent, and even greater. Can you realize what this means in your investment?

Every day adds many new members, who by means of this club opportunity have selected a Piano at a much lower price than they would have been able to obtain under ordinary conditions.

You join with 499 others and buy at wholesale. There are no dues, no "red tape" and no waiting. Neither do we hold out any "bait," such as prize checks, voting contests, promises of "no interest," etc. We state frankly that the prices and terms have never been as low anywhere, East, West, North or South, as obtained by joining our "500 Piano Club."

Remember, we always make the most liberal terms, if desired.

Tennelty Will Be Shown. Japan is engrossed on problems of the utmost importance to her and

which require the concentration of her energy and attention right at home. As long as she is so employed there

Japan will display a temper and a

## SUMMER TERM PLANNED

AGRICULTURAL COLLEGE OFFERS MORE THAN 70 COURSES.

Studies to Cover Wide Range for Men, Women and Students of High and Grammar Schools.

There is a second means of relief which will furnish a more effective solution of the problem than even successful expansion in China can afford always provided it can be accomplished in reasonable degree and within a comparatively few years.

This is the development of domestic industries that has served to solve the OREGON AGRICULTURAL COLLEGE. Corvallis, April 28 .- (Special.)-The ummer session of the Oregon Agricultural College will begin June 14 and continue to July 24. More than 70 courses will be offered by 50 instructcourses will be offered by 50 instructors. In addition there are a number of
lecturers who will address the students. The most notable of these is Dr.
P. Claxton, United States Commissioner of Education, who will devote
three days in July to lectures on industrial education.
Prominence is to be given the preparation of high school teachers in the
subject of agriculture, home economics,
manual training, and commerce, from industries that has served to solve the closely similar problem that confront-ed Germany not so many years ago. It ed Germany not so many years ago. It is the German experience, in fact, that furnishes the example which many of the leaders of Japanese regard so hopefully as marking the path for this country to follow.

There is the widest room for such development here. Japanese commerce is yet in its infancy. Japanese industry is hardly out of its swaddling clothes. There is little factory enterprise in

manual training, and commerce, from six to 15 courses being offered in each. Instruction suitable for teachers in the elementary grades of both city and country schools is also provided.

and eighth grades and the high schools are eligible, the number being limited to 100. These pupils are to be housed in a college dormitory.

The college orchards, fields and gar-dens, the laboratory, greenhouse, and the shops, the horses, cows, sheep, hogs and hens will be their books. Another new feature this year is the course in "camp cookery," in which the men and boys will be taught. In addition to the purely industrial courses instruction is to be provided in a number of the regular college subjects, including chemistry, physics, bothers. any, history, English, commerce and education. The school of music an-nounces work in all its departments. ncluding voice, piano, organ, harmony, wind and stringed instruments. art department offers instruction in its regular courses and in special courses for teachers.
