

GERMANS AS GAIN WIN FOOTING ON HILL 60

British War Office Says Attack Was Made Under Cover of Poisonous Gases.

TEUTONS ON OFFENSIVE

Allies' Line Vigorously Assailed at Several Points—Paris Reports That French Gain in Montmare Wood and Alsace.

LONDON, May 5.—The Germans have maintained a strong offensive all along the line in Flanders and France today. They have gained a foothold on Hill 60, according to the British official report, and have attacked in the vicinity of Ypres, but rather feebly.

The French report tells of numerous attacks by strong German forces and of spirited actions lasting through the day. Paris says the French on the whole have gained some ground.

The following official communication was issued by the British War Office:

"Fighting in progress on Hill No. 60, southeast of Ypres, on which the Germans attained a footing this morning under cover of poisonous gases, which were extensively used and favored by weather conditions.

"Attack East of Ypres Repulsed. "A feeble attack, preceded by an extensive use of poisonous gas, was made east of Ypres and repulsed. Our artillery inflicting severe losses on the enemy.

"In the neighborhood of Givency, the Germans exploded a mine and again employed poisonous gases. Four men were poisoned, but otherwise the enemy's efforts in this direction failed completely.

The following official communication was issued by the French war office at Paris tonight:

"In Belgium the day has been calm. On Tuesday night we captured a German trench and pushed our lines forward between Ligny and Hettaux, which we are still masters. The enemy made no counter-attack.

"In Champagne, to the west of Perthes, an attempt to attack by the Germans was completely repulsed and the same thing occurred in the Arzonan at Four de Paris.

"Some spirited actions have taken place between the Meuse and the Moselle. At 4 o'clock in the morning the enemy strongly bombarded our positions at Les Eparges and the trench of Calonne. About 10 o'clock he attacked at the latter point, but his check was complete. Our fire arrested him in his attack and his losses remained intact. The German losses were high and we made some progress.

"Germans Gain But Lose Again. In the morning likewise, three regiments of the enemy advancing together attacked the position recently captured by us near the Alilly Wood, particularly that part to the east of the Wood and the open ground to the ridge to the southwest. By this attack they succeeded in gaining a foothold in our first line, but a counter-attack enabled us almost immediately to re-occupy half of the ridge. We have maintained ourselves there and toward the end of the day we delivered a second counter-attack the result of which is not yet known. This was for the purpose of retaking the rest of the positions which the Germans had gained.

"In the Montmare wood we gained a characteristic success in carrying two successive lines of German trenches to the east of the wood, which were captured by us near the road from Pirey to Essey. We immediately joined these trenches and the result was a strengthened ourselves there.

"Counter-Attacks Are Repulsed. "Three counter attacks were directed against us in the course of the day, but they were completely repulsed with heavy losses to the enemy in killed and prisoners.

"In Alsace, on the north bank of the Recht River, we continue to gain ground. This morning we took possession of Mamelon, east of Sillaker-wasser (Hill 856). We have progressed in the direction of the river toward Steinbruck, 900 meters from Metzeral."

The official report of the French War Office, issued at Paris today, dealt with events of yesterday.

"North of Ypres the Germans last night delivered an attack against the left sector of the British line. They were repulsed and taken in the flank by the French artillery and suffered serious losses."

MRS. DUNWAY HONORED

Oregon Commission's Invitation to Be Guest at Fair Accepted.

Mrs. Abigail Scott Dunway has received a special invitation, which she has accepted, to be the guest of the Oregon Commission at the Panama-Pacific International Exposition at the Oregon building during the convention of the National Women's Club, San Francisco, from July 1 to 15, inclusive.

The invitation was sent by George M. Huland, managing secretary of the Commission, at the instance of O. M. Clark, its president. Mrs. Dunway is further advised that she will be met on her arrival and accompanied to the Oregon building. She will be prepared to register every voter from suffrage states who visits the Oregon building during her stay. Reception hours in the public reception-room will be announced later.

\$50,000 APARTMENT SOLD

Big Clackamas Fruit Farm Part Payment for Lincoln Building.

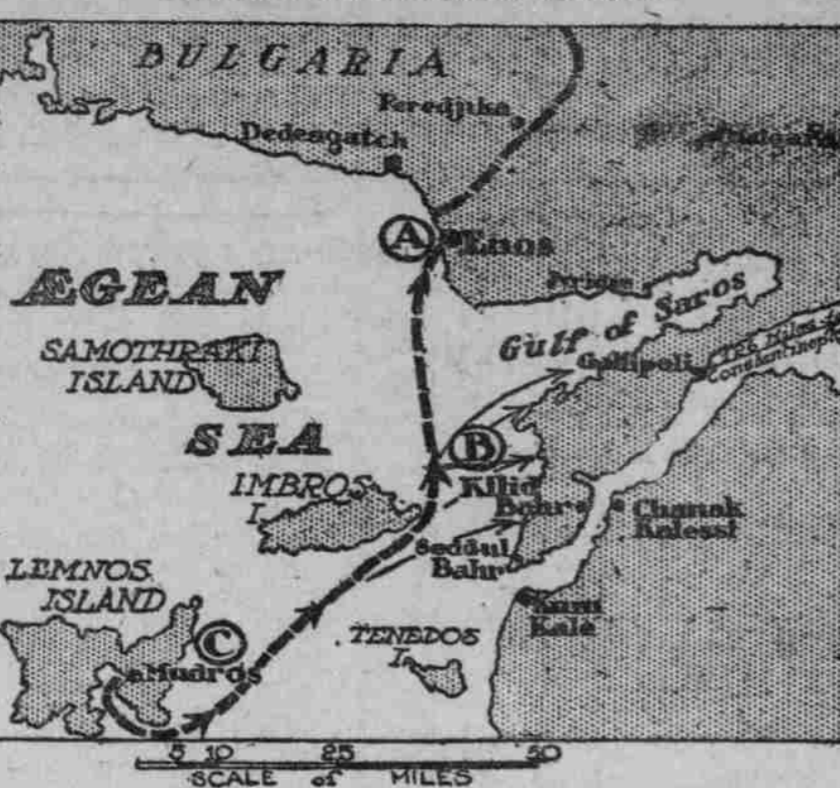

The three-story and basement brick Lincoln apartment building, on the southeast corner of Fourth and Lincoln streets, has been sold by H. G. Wolff to the firm of Stokes & Zeller, Portland architects, at a valuation of \$50,000.

As \$30,000 of the payment Mr. Wolff accepted a 101-acre fruit farm, located four miles from Estacada, in Clackamas County, the balance of the consideration being cash advanced by the bank. The Lincoln Apartment covers a lot 56 by 190 feet in dimensions and contains 37 apartment suites. The building has been standing about three years.

Theft of Castings Laid to Two.

Caught in the act of disposing of some iron castings that had been stolen from L. L. Carter of 210 Morrison street, Frank Winters and Lindsay Smith were arrested by Patrolman Hennessy yesterday at a second-hand store at Front and Taylor streets. A variance charge was preferred, but Mr. Carter will prosecute the men for the alleged theft.

POINTS WHERE ALLIES' ARMIES HAVE SUCCEEDED IN LANDING IN EUROPEAN TURKEY.

The allies' expedition to European Turkey is known to have been preparing for at least two months past, and more than two weeks ago an unofficial German report, purporting to emanate from Constantinople, described the landing of 20,000 troops at Enos (A) in Thrace. This point, however, is across the Gulf of Saros, and nearly 50 miles from the Gallipoli Peninsula (B), where, it now appears, the expedition has landed under the guns of the allied fleet. A report from a British correspondent officially accredited to the expedition, mentions the landing of parties who examined the silenced Turkish forts at Seddul Bahr and Kum Kale, near the mouth of the straits.

The advanced base of the expedition is the island of Lemnos (C), which was seized by landing parties from the fleet last winter, because of its harbor, where transports may lie. A recent German report said that 25,000 men had landed on this island, but there are probably many more there now.

GERMAN GOODS SAIL

Chemicals Exported and Food Is Still Imported.

NORSE VESSELS ARE USED

American Business Firms Are Receiving Supplies From Luebeck, Which Is Becoming Fatherland's Busiest Seaport.

LUEBECK, Germany, April 25.—Germany's export trade is popularly supposed to be dead. That, however, is an illusion that would be shattered by a visit to Luebeck, or that could be shattered by a visit to Luebeck, should they see fit to admit that they are still importing chemicals and other necessities from Germany.

From a city of relatively small importance, on the Baltic Sea, Luebeck has become one of the empire's chief centers, its veritable mouth in fact, through which supplies by the ton are entering Germany. He who believes Germany is suffering from a lack of food would be interested in the sight of dozens of ships anchored along Luebeck's harbor, discharging tremendous cargoes.

News from Mitylene received by the Havas Agency tonight, by way of Athens, says that Turkish prisoners who arrived at Tenedos and the Turkish army has suffered enormous losses by the combined fire of the guns of the fleet and the quick-firing of the expeditionary forces.

The allies, according to reliable information, occupied several strategic positions on May 4, and the land forces continue to receive reinforcements daily.

ALLIES AT HILLATE TURKISH REGIMENT

Two Aeroplanes Brought Down and Rescued German Aviators Made Prisoners.

PEOPLE DESERT GALLIOLI

Adrianople Almost Completely Denuded of Troops—Constantinople Reports One Attempt at Landing Failed.

PARIS, May 5.—A dispatch from Mitylene to the Havas Agency says that a regiment of Turkish troops was annihilated in the fighting at the Dardanelles last night and that the allies transported 1000 more prisoners to Tenedos and Moudros.

The dispatch also says that a squadron of warships of the allies again bombarded forts at the Dardanelles and Turkish encampments on the coast.

Two Turkish aeroplanes have been brought down by shells from allied warships, according to a dispatch from Salonika. Setting out from Seddul Bahr, the aeroplanes flew over the fleet, dropping several bombs, all of which, however, failed to explode.

They had put out to sea to reconnoiter Lemnos and Tenedos, when they were brought down. The German aviators were rescued and made prisoners.

People Fleeing From Gallipoli. A Havas Agency dispatch from Athens says that the inhabitants of Gallipoli and other parts of the peninsula are fleeing in large numbers to the Asiatic shore.

Adrianople has been almost completely denuded of troops while all heavy artillery has been removed from the city, says a dispatch from Sofia. A large part of the troops which had been sent to the Gallipoli Peninsula now have been withdrawn in haste and sent to Kirk-Kilisli, 25 miles northeast of Adrianople, and to Midia, on the Black Sea.

The Turkish government has reconsidered its decision to suspend railway service to Bulgaria in the fear that Bulgaria might be provided with an excuse to seize the railway. One train daily will be operated to Dedeagatch.

Turks Report Capture of Guns. According to a dispatch from Constantinople, the Turkish War Office gave out the following report today: "An attempt of the enemy to land troops near Gaba Tepe, south of Avi Burnu, yesterday, failed."

The night before last our troops attacked Seddul Bahr, in spite of a bombardment of the enemy's fleet, and they have been withdrawn in haste and sent to Kirk-Kilisli, 25 miles northeast of Adrianople, and to Midia, on the Black Sea.

The Turkish government has reconsidered its decision to suspend railway service to Bulgaria in the fear that Bulgaria might be provided with an excuse to seize the railway. One train daily will be operated to Dedeagatch.

await the Russian advance through the infected region."

DARDANELLES BATTLE VIOLENT

Britons Having Part Return to Egypt and Describe Fight.

CAIRO, Egypt, via London, May 5.—Some of the British troops who took part in the landing at the Dardanelles have arrived in Egypt. They are the first men to reach here from the scene of the fighting and they relate stirring incidents in connection with the landing of the allied forces at the straits.

At Sari Bair the men, wading ashore, rushed three ridges in succession and a running bayonet fight extended more than three miles.

The men told of the arrival of reinforcements and said the ridges were carried by storm in the first rush. The concentrated Turkish fire during the beginning of the fighting was terrific. Strapped machine gun and rifle fire caused heavy casualties among the allies.

SOLDIERS TO WORK HARD

Militia Officers to Find Instruction School No Vacation.

EUGENE, Or., May 5.—(Special).—The annual Coast Artillery officers' instruction school which began today at Fort Stevens will be no vacation, according to Captain R. W. Collins, U. S. A., instruction officer. It will be the hardest kind of work. He says the men will be called at 5:45 A. M. Their drill work and instruction work will last until 4 o'clock in the afternoon, and from this time until 9 o'clock at night they must study the war game from books. Examinations in this work will be held on the last day.

Captain Collins announced today that the Federal Government has supplied a quantity of one-pound and quarter-pound sub-caliber ammunition for target practice, which for a time was thought would be discontinued from this year's training school.

The Eugene officers left last night at midnight, accompanied by the Cottage Grove officers who arrived in the afternoon.

The Eugene officers are: Colonel C. C. Hammond, Major George F. Willoughby, Captains W. F. Copperrill, W. G. White, Paul G. Bond, First Lieutenants M. B. Huntley, W. G. Williams, Thomas D. Harrison, Van Svarverud, E. C. Spencer, Second Lieutenants J. P. Metzger, Glen Walker, Sergeant-Major Crenshaw, Electrician-Sergeant P. A. Beebe, Corporal Alfred Willoughby, Private Bill Hinson.

NIGHT RIDERS KILL GIRL

Negro Woman Beaten for Cruelty to Children, Husband Escapes.

PRESCOTT, Ark., May 1.—A party of unidentified white men rode to the home of Smith Briley, a negro, four miles from Prescott last night, pulled Briley's wife from bed and gave her a terrific beating, and then fired several shots into the house. One of the shots struck Briley's daughter, aged 12, in the forehead, killing her instantly.

Briley fled as soon as he heard the night riders approaching.

About six weeks ago Briley and his wife were brought before a local justice and fined \$10 and \$50, respectively, for cruelty to the children. They were unable to pay their fines and went to jail, and the negro had been released only a few days ago.

The only motive the officers can assign for last night's crime is that the night riders believed Briley and his wife had not been punished sufficiently. Neither the negro nor his wife could identify any of the men in the party.

This section has suffered greatly from night riders during the last few months. Last Fall notices were posted on all cotton gins threatening the owners with death unless they ceased operating the gins. For a time every gin in the county was shut down, but they finally resumed under the protection of Deputy Sheriffs.

COLLEGE SENDS EXHIBIT

Unique Display of Work Forwarded to Oregon Building at Fair.

OREGON AGRICULTURAL COLLEGE, Corvallis, Or., May 5.—(Special).—The Oregon Agricultural College exhibit, which will occupy a prominent place in the Oregon state building at the Panama-Pacific Exposition, has finally been shipped and will be set up at once by E. P. Jackson, of the college cabinet shop.

The display consists of 20 panels, in each of which are nine transparencies. Subjects illustrated include the campus, the various laboratories, student life and extension work. The college is already represented at the Fair by elaborate exhibits from the department of poultry and the school of forestry.

HOSTILE SHIPS NEAR LIBAU

German Cruiser and Other Vessels Sighted Off Russian Port.

PETROGRAD, via London, May 5.—The following official communication was issued by the Russian War Office tonight:

"An enemy cruiser and other small hostile warships were sighted off Libau today."

NEW DANGERS OF CONSTIPATION

A recent issue of the New York Times says: "Recent researches of Prof. Metchnikoff and others have led doctors to suppose that many conditions of chronic ill health, nervous debility, rheumatism and other disorders are due to poisoning set up by unhealthy conditions in the Large Intestine, and it has even been suggested that the lowering of the vitality resulting from such poisoning is favorable to the development of Cancer and Tuberculosis."

"At Guy's Hospital, Sir William Arbuthnot Lane decided on the heroic plan of removing the diseased organ. A child who appeared in the final stage of what was believed to be an incurable form of tubercular joint disease was operated on. The Lower Intestine, with the exception of nine inches, was removed, and the portion left was joined to the Smaller Intestine."

"The result was astonishing. In a week's time the internal organs resumed all their normal functions, and a few weeks the patient was apparently in perfect health."

"The Lower Intestine can never get into this condition if Internal Baths are used. The 'J. B. L. Cascade' cleanses the Lower Intestine its entire length thoroughly with pure warm water and removes all this poisonous waste which is such a menace to health."

It is Nature's own cure for Constipation, and is now being used by over 300,000 Americans with great success.

The 'J. B. L. Cascade' is now being shown and explained by the Woodard Clark & Co.'s Drug Stores in Portland, who are also distributing a most interesting booklet called 'Why Man of To-Day Is Only 50 Per Cent. Efficient.' There is no charge for this. Ask for it.

\$2,000,000 Worth of Confidence—

Mr. C. Markham, President of the Illinois Central Railroad Company, is preaching the "Buy-It-Now" gospel—and practicing what he preaches.

He writes: "As an illustration of my co-operation, we have closed contracts for 50 locomotives, representing nearly \$1,000,000 and are considering additional equipment aggregating about as much more."

What are you doing to help?

BRITISH BUILD WIRELESS

Powerful Plant Is Being Installed on Island of Jamaica.

NEW YORK, May 5.—To supply a need felt by the British navy, a powerful wireless station is being built on the highlands of the island of Jamaica, 3000 feet above the level of the sea, according to Rev. George B. Stallworthy, a Unitarian clergyman, who arrived here today aboard the steamer Juan, after a five months' visit to the island.

Mr. Stallworthy said 300 men had been working on the plant for two months. No details as to its equipment or range had been permitted to become public except that it would be exceedingly powerful with a long radius of effectiveness.

continuity because of disputes with which neither this company nor its employees had any direct relation. The company is, therefore, opposed to employees affiliated with an organization which might call a sympathetic strike.

If there is to be any strike on this railroad, the management believes that it should be the result of the choice of its own employees and because of some difference between this company and its own men, and for no other reason.

"Is your company always in a state of preparedness for any industrial warfare that might spring up," asked Mr. Walsh, "such as having men and arms and clubs on hand?"

"We are always prepared for anything the other fellow is getting ready for, I can assure you," Mr. Atterbury replied.

"How many rifles do you keep on hand?"

"I don't know that we keep any, but we have everything that is legal that it is necessary to have on hand to keep running our trains."

FLEET TAKING SUPPLIES

(Continued From First Page.)

Japanese troops have mounted nine cannon in the suburbs of that city. The Chinese troops obeying a general order from Peking, did not interfere.

Tsinan lies about 230 miles south of Peking, and is the land force's way leading from the Shantung Peninsula to Tien Tsin.

S. T. Smith Is Dead.

In a telegram from New York to I. L. Riggs, manager of the Portland agency for the Underwood typewriter, yesterday, was the news of the sudden death of S. T. Smith, general manager of the Underwood company. The services stated that death was sudden, Mr. Smith having gone to work as usual yesterday, succumbing to an attack of heart failure. Mr. Smith was in Portland, having been in this city on business trips.

Planning for the Stork's Arrival

Among those things which all women should know of, and many of them do, is that a woman should have a Stork's Arrival. It is a penetrating liquid and many and many a mother tells how it so wonderfully aided them through the period of expectancy.

At any rate it is reasonable to believe that since "Mother's Friend" has been a companion to motherhood for more than half a century no more timely advice could be given the inexperienced mother than to suggest its daily use during expectancy.

Ask at any drug store for "Mother's Friend," a penetrating external liquid of great help and value. And write to Bradfield Regulator Co., 302 Lamar Bldg., Atlanta, Ga., for their book of recipes and timely information to expectant mothers. It contains many suggestions that are of interest to all women.

BUILDING CONFIDENCE

The easiest way to win popular confidence in the goods you sell is to offer only merchandise that is worthy of such confidence.

I sell ready-to-wear clothing that is "backed to the limit" by some of the best manufacturers in the country.

I sell for less because I do not have to tack on a big profit for high ground-floor rent and overhead expenses. I sell
