# HIGH SCHOOLS ARE SCORED BY BAPTIST

Habits Formed Must Be Combated by Christian College, Says Professor.

### TALKS MADE AT SESSION

"What Next?" Topic of Another Address at Willamette Association Meeting - Rally Tonight Ends Gathering.

In the course of his address on

"Christian Education" yesterday fore-

noon, before the Willamette Baptist Association, in session in the Montaville Haptist Church, Professor Van Osdell, of McMinnville College, gave the high schools a grilling, remarking that much of the habits formed there must be combatted at the Christian college, and further, that the demands of the high schools upon the state institutions were such that they dictated to the insti-tutions in special lines. The state institutions, he said, had been required to introduce preparatory studies, so that the "tail really wagged the dog." Professor Van Osdell outlined some of the advantages of the Christian col-leges in that the atmosphere, morally, is better, and that the tendency at McMinnville is not toward specializa-tion as much as toward unification; development of the head and heart, to-gether, and elimination of high school practices in manner and in dress He practices in manner and in dress. He pointed out that students come with a fixed purpose to enter some profession. fixed purpose to enter some profession, but that this purpose gives way as the student advances and he finds he does not want to enter the profession he had selected. The high standard of scholarship and morality maintained at Mc-Minnville was pointed out as one of the features of that pioneer institution, and one of the distinguished characteristics of the Christian college.

"What Next?" In Subject. "What Next" was the subject of the address by R. P. Hutton, of the Anti-Saloon League, and he declared that while the victory for prohibition last year had been a great one, reaping of the fruits of that victory remained.
"Low enforcement National prohi-'Law enforcement, National probl bition and church co-operation," he said, "are the next step, if Oregon is to reap the fruits of its great victory." He pointed out that the work is not finished, but just begun, and asserted that it would be necessary to elect men. that it would be necessary to elect men as Sheriffs, Prosecuting Attorneys and Congressmen from Oregon who are in complete harmony with the enforcement of the prohibition laws, and public sentiment must get behind them.

"New Year's eve." said Mr. Hutton, "the saloons will go out of business in Oregon, and more than 100,000 men who have made them their rendezvous will find them closed. What will the

find them closed. What will the churches do. Will the churches open their doors and keep them open and start a great revival at that time? "Alcoholic Candy Made."

Rev. W. J. Beaver said that candy bearing 2 per cent alcohol had already been manufactured for distribution, and Superintendent Hutton said that and Superintendent Hutton said that was a violation of the Anderson law passed by the last Legislature.

Rev. W. T. S. Spriggs and Rev. W. J. Beaverton were appointed to unify the statistical year of the churches of the association, so that there will be less confusion. A report of the work of the two Portland Italian missions was

# PAVING NEAR SPANS ISSUE

Amendment Considered to Lift Remonstrance Power.

Strong opposition said to exist among residents of Broadway on the East Side to the proposed change of grade and the proposed paving of that street between the east approach to the Broadway bridge and Union avenue may result in the submission to the voters in June of a proposed charter amendment taking the power of reamendment taking the power of re-monstrance against proposed improve-ments, from property owners on streets leading to bridge approaches. The submission of such a charter amend-ment was discussed at yesterday's meeting of the Council.

meeting of the Council.

Ever since the completion of the Broadway bridge, the city has been trying to have Broadway paved, but so far the attempts have been of no so far the attempts have been of no avail. Each time that paving has been proposed, the proposal has been remonstrated out. Some time ago proceedings were started for the lowering of the grade and the paving of the street. While the proceedings have not been remonstrated out as yet, it is understood that the property owners propose such action.

## DENTIST UNDER ARREST

Shaving of Gold Coins to Obtain Metal Is Suspected.

Dr. Norton North, dentist, 48 years old, is under arrest on suspicion of old, is under arrest on suspicion of shaving gold coins to procure gold used in his practice. Police Captain Circle, Lieutenant Harms and Patrolman Martin made the arrest late Tuesday night at Fifth and Washington streets. He is held without bail pending an investigation by Government officials. According to the police, two shaved coins were found in the dentist's pockets, and others were recovered after he had passed them. The milled edges of the coins were almost smooth and some of the sharp die marks had been rubbed down.

## BAHAINISM IS EXPLAINED

Library Room Filled to Hear Lectures on Prophet's Teachings.

Room A of the Library was filled to overflowing with persons interested in the teaching of the Persian prophet, Eaha'o'llah, Tuesday night, when A. E. Lund and W. H. Randall, of Boston, and J. H. Hannen, of Washington,

spoke on the present social conditions and their cause, in connection with the Bahai movement. The speakers repeatedly emphasized the point that Bahainism was not a fad, cult nor a religion, but a live and active movement "to inculcate and establish in the social organism a heart-felt brother love, to do justice to the poor and to abolish discord and prejudice."

The only way we know God is through his prophets, and every prophet has left some good to the world. The East has always been a dawning hope and the West now is the dream being fulfilled," said Dr. Randall.

SPITE FENCE' HELD LEGAL

Ordinance Declared Unconstitutional on Appeal of Fine.

The Portland "spite fence" ordinance is unconstitutional, according to a decision by Circuit Judge Morrow yesterday. The city cannot restrict by ordinance the height of fences built on private property, as long as they do not run on an adjoining property line.

The decision was rendered in the case of Portland against E. J. Grahs.
Charged under the "spite fence ordinance" with building a fence more than five feet high on his property, Grahs was fined \$25 in Municipal Court. He appealed to Circuit Court, on grounds that the ordinance was unconstitutional.

"Not many days."

"How long will I be here if I get well?" was her next question.

"Perhaps six months," answered Dr. Ettleson.

"Whew—one's about as had as the other." commented the girl, solemnly.

"I was all alone in my room in the hotel and terribly lonesome and blue. I really don't know why I took the poison. I'm sorry now for I am so sick."

Pretty 23-year-old Helen Carruthers looked up from her cot at the Good Samaritan Hospital, where she was taken after swallowing 30 bi-chloride of mercury tablets at the Multnomal Hotel late Tuesday night, and smiled "I'm awfully hungry, too, They won't give me anything to eat."
