GRADE RULES MADE

New Classification of Apples Is Announced.

3 STANDARD QUALITIES

Regulations Adopted by Northwest Fruit Shippers Council Are Put Into Final Form—Other Fruits Included.

For the first time in the history of the fruit industry of the Northwest, shippers have come together on a set of standard grading rules. The 1915 rules adopted by the Northwest Fruit Shippers' Council at Spokane, April 28, have been put into final form by the committee appointed for that purpose and copies are being sent to shippers throughout the Northwest this week.

Principal variations from the rules observed during the past season are: In the case of apples, the color requirements for extra fancy Jonathans are 66 2-3 per cent red, which is a compromise between the 75 per cent required by some shippers and 50 per cent required by others. For Rome Beauties, there is a big variation from last year; the extra fancy grade is the same, 50 per cent good, red color, but the fancy grade, instead of requiring 25 per cent red, as heretofore, does not now necessitate any specific amount of red, but must show a red blush for all sizes under 96, while 96 and larger need not. The red color area for extra fancy Delicious and Stayman Winesaps has been raised from 50 per cent to 66 2-3 per cent. The grading rules follow:

First Grade.

Grade No. 1, or extra fancy, are defined as sound, smooth, mature, clean, hand-picked, well-formed apples only, free from all insect pests, diseases, blemishes, bruises and other physical injuries, scald, scab, scale, dry or bitter rot, worms, worm stings, worm holes, spray burn, limb rub, visible water core, skin puncture or skin broken at stem.

The following varieties will be admitted to this grade, subject to the color requirements specified:

Solid red varieties—Aiken Red, Arkansas Black, Baldwin, Black Ben Davis, Gano, King David, McIntosh Red, Spitzenberg (Esopus), Vanderpool and Winesap. Must have not less than three-fourths good, red color.

Jonathan must have not less than two-thirds good, red color.

Black Twig and Missouri Pippin must have not less than 50 per cent good, red color.

Striped or partial red varieties—Delicious and Stayman must have not less than two-thirds good, red color.

Ben Davis, Hubbardson Nonesuch, Jeniton, Kaighn Spitzenberg, Northern Spy, Wealthy, Rome Beauty, Rainier, Snow, Wagner and York Imperial must have not less than 50 per cent good, red color.

Gravenstein, Jeffery and King of Tompkins Co. must have not less than one-fourth good, red color.

Red-cheeked or blush varieties—Hydes King, Maiden Blush, Red Cheek Pippin and Winter Banana must have a perceptible blushed cheek.

Yellow or green varieties—Grimes Golden, Yellow Newtown, White Winter Pearmain and Cox Orange Pippin must have the characteristic color of the variety.

Ortley must be white, yellow or waxen.

Second Grade.

Grade No. 2, fancy apples, are defined as apples complying with the standard of first grade apples, except that slight leaf rub, scratches or russeting shall be permitted up to a total of one inch in diameter in counts running 125 or less to the box, or three-fourths of an inch in diameter in counts running from 138 to 163 to the box, and one-half inch in diameter in counts running 175 or more to the box; and limb rubs will be permitted showing an aggregate area in the various counts of one-half of that allowed for leaf rubs, providing that no apple shall show total blemishes aggregating more than one inch in diameter in counts running 125 to the box or less; more than three-fourths inch in diameter in counts running 138 to 163 to the box, and one-half inch in diameter in counts running 175 to the box or more. No clearly misshapen or bruised apple, or apples bearing evidence or rough handling shall be permitted in this grade.

The following varieties shall be admitted to this grade, subject to the color requirements specified:

Solid red varieties—Aiken Red, Arkansas Black, Baldwin, Black Ben Davis, Gano, King David, McIntosh Red, Spitzenberg (Esopus), Vanderpool and Winesap must have not less than 40 per cent good, red color.

Jonathan must have not less than one-third good, red color.

Black Twig and Missouri Pippin must have not less than 25 per cent good, red color.

Striped or partial red varieties—Delicious and Stayman must have not less than one-third good, red color.

Ben Davis, Hubbardson Nonesuch, Jeniton, Kaign, Spitzenberg, Northern Spy, Rainier, Snow, Wagner, Wealthy and York Imperial must have not less than 10 per cent good, red color.

Gravenstein, Jeffery and King O' Tompkins Co. must have not less than 10 per cent good, red color.

Rome Beauty; no specific color requirement is defined, in this grade, other than that each specimen must show a perceptible blush or overspread of reddish color characteristic of the variety; except that Rome Beauty apples of 96 size and larger shall be admitted without color.

Red-cheeked or blush varieties must have correct physical quality with tinge of color.

Yellow or green varieties must be of the characteristic color.

Third Grade.

Grade No. 3 or C grade apples shall consist of mature apples, free from all insect pests, worms, worm holes, infectious diseases, skin punctures, bruises or broken skin—but slightly misshapen apples, or those having sun scald, not to exceed two healed-over stings, and the blemishes allowed for second-grade apples shall be permitted, and there shall be no requirement as to color.

Combination extra fancy and fancy grade—When first and second grade apples are packed together, the packages must be marked "combination extra fancy and fancy." Combination grade may also include all other apple varieties not provided for in first and second grades.

When second and third-grade apples are packed together, the packages must be marked "third grade."

When first, second and third-grade apples packed together, the packages must be marked "orchard run," but orchard run packages must not contain any apples that would not meet the requirements of third grade.

Summer and early Fall varieties—Summer varieties, such as Astrachan, Bailey's Sweet, Bietingheimer, Duchess, Early Harvest, Red June, Strawberry, Twenty-ounce Pippin, Yellow Transparent and kindred varieties not otherwise specified in these grading rules, together with early Fall varieties, such as Alexander, Blue Pearmain, Wolf River, Spokane Beauty, Fall Pippin, Waxen, Tolman Sweet, Sweet Bough and other varieties not provided for in these grading rules, as grown in sections of early maturity, shall be packed in accordance with the grading rules covering fancy grade, as to defects, but regardless of color rules.

All apples packed otherwise than according to the foregoing grading rules shall be accompanied by printed description of the contents on each package.

Rules are also made for the grading of peaches, prunes, pears, cherries and berries. The pear rules are a departure from previous practice. Last season the best grade for Bartlette and similar varieties was fancy now the rules have been tightened up on that grade to a considerable extent and it is called extra fancy, while fancy, consists of the better fruit which formerly went into "C" grade and the poorer fruit which went into fancy, leaving "C" grade only a minimum amount of the poorer fruit, formerly packed under that grade, with the culls eliminated.

HIGH PRICES FOR FIRST SELECTIONS

Attitude of Wool Buyers in Utah and Colorado Explained.

Eastern wool buyers justify the high prices they have been paying in Utah and Colorado by the necessity of getting good early selections. A trade report from Boston says:

"Regarding the operations of buyers in territory wool recently, it seems as though Eastern operators had accepted the only present alternative of paying high prices, for two or three reasons. One of these is the fear of being left later without desirable lines to turn over to regular customers; another is the fact that they maintain buying organizations in the West and like to have them doing something; also the temptation is strong to dip into the first selections offered and thereby perhaps get the best lines of the season.

"Under the circumstances, some of them are taking hold with a will in an effort to get a useful selection of clips, though they still consider prices exorbitant. The better the selection, the more chance is had to get a return on the money expended in spite of a high grease cost. In this connection, it is interesting to state that the recent purchases in Utah and Colorado have been of such a character that the estimated scoured cost is favorable in view of the grease price. It is asserted that the Australian wool available, even when well-grown and sound, does not contain the strength required for American fabrics. So dealers are after the wools to meet the demand, despite the bullish stand of growers."

SURPLUS POULTRY GOES TO SOUND

Local Quotations Would Otherwise Be on Lower Plane.

Receipts of poultry, especially hens, have been very heavy this week, and but for an outlet on the Sound, prices would be lower than they are. Hens sold on the street yesterday at 13@13½ cents. Broilers were quoted at 25@28 cents. There was demand for young ducks at 25@30 cents for white and 18@20 cents for Indian Runners. Old ducks were sluggish.

Dressed meat receipts were ample and prices were steady.

The surplus egg receipts, which are now of lighter volume, are going into storage at steady prices.

The latter market is also steady, with no indications of an early change.

STOCK LIST SLUMPS

Prices Break With Violence in Wall Street.

LOSSES 8 TO 29 POINTS

Substantial Banking Support in Final Trading Causes Partial Recoveries — Last Half Hour Is Exciting.

NEW YORK, May 7.—Stocks broke with extreme violence this afternoon on confirmation of the sinking of the British liner Lusitania, presumably by a German submarine. Prices fell from 8 to almost 30 points, greatest losses being sustained by the shares which have come to be known as war specialties.

Bethlehem Steel, which early in the day assumed new prominence by selling up to 159, the highest price yet recorded, made a maximum decline of 29 points. Westinghouse Electric, another stock in the same class, broke 21 points, Amalgamated Copper fell almost 12 points and many others from 6 to 10 points.

In the final trading, evidence of substantial banking support was seen in the partial recoveries which extended to 15 points in Bethlehem Steel, 13 in Westinghouse and 3 to 9 points elsewhere. The stock ticker was almost half an hour behind in recording transactions.

The last 30 minutes was perhaps the most active and exciting period in the history of the exchange, over 600,000 shares changing hands in that brief space of time. Scores of speculative accounts were sold out on the decline, which came with such force as to make calls for impaired margins a matter of extreme difficulty.

Only the most fragmentary reports of the disaster were available up to the close of the market, but Wall street employes remained downtown until nightfall taking up the scattered ends of the day's work.

The Government crop report on Winter wheat, which should have been a factor by reason of its reassuring features, was overlooked in the intense excitement of the day. Additional gold engagements from Japan were likewise ignored.

Total sales of stocks amounted to 1,150,000 shares.

Bonds were heavy, later showing weakness in speculative issues. Total sales par value aggregated $4,600,000. United States bonds were unchanged.

WHEAT SELLS AT LOWER PRICES

Local Market Is 4 to 7 Cents Cheaper Than One Week Ago.

There was more business done on the grain board yesterday, but at low prices The exchange sales are as follows:

5000 bushels prompt club	$1.22
5000 bushels prompt club	1.21
5000 bushels prompt club	1.19
1000 bushels prompt fife	1.20

Club wheat for prompt delivery changed hands at prices 4 to 7 cents lower than were paid a week ago and spot fife sold 4 to 5½ cents cheaper than at that time. Bids for other deliveries not actively traded in ranged from unchanged to 6 cents down, as compared with Thursday's offers. Interest was lacking in the coarse grain division.

Wheat shipments for the week from Argentina and India compare as follows:

BIG SUPPLY OF BERRIES TODAY

Arrivals From California Estimated at 3600 Crates and Price Will Be Down.

Front street will today see the largest supply of strawberries of the season. Receipts from California are expected to amount to 3600 crates. Prices will be reduced and it is hoped thereby to move the stock. Florin Dollars will probably sell at $1.35 to $1.50 a crate. A good supply of Oregons is also looked for and they will likely be quoted at $2 to $3, according to quality.

Receipts yesterday were not too heavy and the market cleaned up without much trouble. Florins brought $1.50 to $2 and Oregons $2.50 to $3. A few crates of Clark Seedlings from Kennewick sold at $4.

California cherries were cheaper at $1.75 to $2 a box. The first Royal Annes arrived from the south. Citrus fruits were firm. Grapefruit is higher at $5.75 for fancy.

Vegetables were in good supply and generally steady in price.

Bank Clearings.

Bank clearings of the Northwestern cities yesterday were as follows:

Coffee Futures.

NEW YORK, May 7.—After opening unchanged to four points lower under scattering near-month liquidation, the coffee market steadied up on a little trade buying, but eased off again in the later trading under renewed liquidation, which appeared to be inspired by the news that the Lusitania had been sunk. The close was net unchanged to five points lower. Sales, 40,000 bags; May, 6.08c; June, 6.16c; July, 7.20c; August, 7.23c; September, 7.35c; October, 7.35c; November, 7.41c; December, 7.40c; January, 7.51c; February, 7.57c; March, 7.65c; April, 7.65c.

London Wool Sales.

LONDON, May 7.—A good selection, amounting to 9060 bales, was offered at the wool auction sales today. The smaller catalogues stimulated the demand and the best grades of merinos hardened. Queensland scoured realized 2s 3d; New South Wales scoured, 2s 3½d, and the others were firm.

Dried Fruit at New York.

NEW YORK, May 7.—Evaporated apples, quiet. Prunes, steady. Peaches, quiet and easy.

SELLING IS HEAVY

Lusitania News Causes Break in Wheat Market.

PRICES SLIDE DOWN FAST

Holders Unload With Haste on Belief That Exporting Will Be Stopped—Bearish Government Crop Report Anticipated.

CHICAGO, May 7.—Free selling of wheat took place today after news came of the torpedoing of the Lusitania. Previously, although the market had been tending downward, influenced by correct anticipation that the Government crop report would prove bearish, no acute weakness had been shown. The close was heavy at 1⅛c to 2½c under last night. Other leading styles, too, all finished at a loss, corn 1c to 1⅜c net, oats ½@⅝c to ⅝c and provisions 2½c to 15c.

When the Lusitania news was confirmed, the market dropped quickly about a cent a bushel in addition to earlier declines. Many holders unloaded with a haste that bordered on semi-panic, a number of traders apparently jumping at conclusions that export shipments might be lessened by higher rates of vessel insurance or by other disturbing consequences.

Government crop figures regarding wheat turned out 18,000,000 bushels higher on suggested yield than had been generally estimated here. The official figures, though, were not available until after trading hours and did not modify prices.

Corn was relatively firm the greater part of the day, but gave way when wheat broke in earnest. The comparative strength earlier was attributed to Argentine crop damage reports and to assertions that domestic planting was being hampered by too much rain.

Oats had little if any independent action. Opinions were expressed that the chief producing states now have ample moisture for some time to come.

Weakness of hogs and grains spread to provisions. The resulting declines were in the face of good support from packers.

BUYERS ORDER AHEAD

DRY GOODS TRADE IS LARGER THAN YEAR AGO.

Many Other Favorable Features in Business Situation—Big Gain Reported in Bank Clearings.

NEW YORK, May 7.—Bradstreets will say tomorrow:

Undercurrents run in a favorable direction, though trends in certain lines and some sections affected either by weather conditions or marked dependence on a particular commodity still lag.

But by and large the outstanding factors indicate that industry has made further progress; steel mills are operating at close to 75 per cent of capacity; buying of pig iron, helped by speculative purchases, has spread; plants making war supplies are pushed to the front; additional export orders of magnitude are pending; unemployment is decreasing; scarcity of labor exists in the machine, tool and automobile trades; the railways seem to be more hopeful; distribution of essential commodities, though checked here and there by vagaries of the weather, is growing; there is a stronger disposition to order ahead; buying of dry goods is probably larger than at this time last year; lumber shows irregular improvement; cereal crop prospects are excellent; traveling salesmen report that the wheat growers are in fine financial shape and collections are better.

This week's bank clearings of record proportions are reported at $4,196,715,000, an increase of 29.4 per cent over last week and 21.8 last year. Money is easy.

WHEAT CONDITION IS BETTER.

Rapid Improvement in Winter Crop Prospects Noted.

WASHINGTON, May 7.—Rapid improvement in the Winter wheat crop's condition has increased the estimate of the ultimate outturn of the crop 74,000,000 bushels since the April estimate, the Department of Agriculture today reporting an indicated production of 693,000,000 bushels, based on the May 1 condition. That would be 1.2 per cent more than the record crop produced last year. The department's May report announced:

Winter wheat—Area to be harvested, 40,169,000 acres; condition, 92.9 per cent; indicated acre yield, 17.3 bushels; indicated production, 693,000,000 bushels.

Rye condition, 89.8 per cent.

Meadowlands condition, 89.8 per cent.

Hay, stocks on farms, 8,468,000 tons, or 12.1 per cent of last year's crop.

Pastures, condition, 87.2 per cent.

Spring plowing was 78.3 per cent completed May 1.

Spring planting was 65.5 per cent completed May 1.

WOOL PRICES ON STEADY LEVEL

Buyers and Sellers in West Are Still Apart.

BOSTON, May 7.—The Commercial Bulletin will say tomorrow:

While there has been only a moderate volume of business done in Boston and the other Eastern markets during the week, prices are on a fairly steady level. In the West, however, no basis in common has been established to any extent between the grower and the dealer.

London has strengthened a bit for good merinos and Melbourne was firm for good wools at the close. The goods market is still very unsatisfactory.

Scoured basis—Texas fine, 12 months, 68@70c; fine, 8 months, 62@63c.

California — Northern, 65@66c; middle county, 60@62c; Southern, 56@58c.

Clarke County Crops Suffering.

RIDGEFIELD, Wash., May 7.—(Special.)—The various crops throughout this section of Clarke County are beginning to suffer for want of moisture, as the rain this Spring has been unusually light. Unless rains come within the next fortnight the strawberry crop, light as it is, will suffer seriously, as will garden truck, grains and grasses. Plowing and other farm work is hampered. Grasses are turning yellow.

Lower Discount Rates Approved.

WASHINGTON, May 7.—Rediscount rates of 3½ per cent on maturities up to 30 days, 4 per cent on maturities from 30 to 60 days, 4½ per cent on those from 60 to 90 days and 6 per cent for longer were approved for the San Francisco bank today by the Federal Reserve Board. This is the first time the board has approved a rate below 4 per cent.

Metal Market.

NEW YORK, May 7.—Copper—Quiet; electrolytic, 19c, casting, 18.50@18.75c.

Iron—Quiet and unchanged.

The New York Metal Exchange quotes tin quiet; five-ton lots, 38@41c.

The Metal Exchange quotes lead 4.15@4.20c.

Spelter—East St. Louis, June, 12.25c bid.

Cotton Markets Slump.

NEW YORK, May 7.—The news of the sinking of the Lusitania today was followed by excited general selling in the cotton market. October contracts declined $2.50 per bale, as compared with last night's closing.

Wool at New York.

NEW YORK, May 7.—Wool, steady.

MR. KAY CORROBORATED

COLUMBIA COUNTY JUDGE DENIES MAJOR BOWLBY'S ASSERTIONS.

Declaration Made That Not One Foot of Surfacing Was Done Under Former Official's Direction.

SALEM, Or., May 7.—(Special.)—In a letter received here today Judge Clark, of Columbia County, corroborates a statement recently made by State Treasurer Kay that Henry L. Bowlby, former state highway engineer, did not build any paved roads in that county. Major Bowlby denied Mr. Kay's allegation and declared that 26 miles of road were completed there under his supervision.

Judge Clark was elected at a recall election, the former judge and County Commissioners being recalled because they were not in sympathy with the policy of the State Highway Engineer. Several months after his election the new judge charged Major Bowlby with extravagance, and made other allegations similar to those that had been made by the old court against the engineer. Judge Clark says in his letter:

"By stretching the goods to the utmost limit, and allowing for short stretches of road from a quarter of a mile up to one stretch of three miles, there is a total of 15 miles of finished road, but I doubt, however, if the engineers in charge of the work will accept one-third of that without some finishing work being done on it.

"Of the county roads built under Mr. Bowlby's direction there is possibly five miles completely graded, one piece of which, 9000 feet long, cost us nearly $24,000, being $8000 above the estimate.

"I would say by way of making myself clear that if you mean roads with some kind of a surface on them, there has not been one foot of such road built under Major Bowlby's direction."

COURTHOUSE BIDS OPENED

Portland Man's Figures on Josephine Structure Appear Lowest.

GRANTS PASS, Or., May 7.—(Special.)—Bids for the construction of Josephine County's new $80,000 courthouse were opened Thursday at the regular meeting of the County Court. More than 20 bids were received.

John Almeter, of Portland, appears to be the lowest bidder for the completed structure, though this will not be definitely determined until the court segregates the bids, as many were on certain portions of the building only.

The structure is to be of white faced brick and concrete trimmed with terra cotta. Final action on the bids will not be taken for several days.

BUDGET MEETING TODAY

Chamber Committee to Make First Report at 12 o'Clock.

The budget committee of the new Chamber of Commerce, which held its first meeting since its appointment last night, will meet with the board of directors of the Chamber today at 12 o'clock to make its first report.

The old Chamber of Commerce has still to carry through the formality of adopting the new bylaws and constitution of the reorganized body, and to attend to this, a meeting of the membership of the old body has been set for June 9. The members informally approved the constitution at a meeting April 15, and the coming meeting is to be held merely to comply with the law in the case.

The members' council will hold its first meeting at the Chamber of Commerce dining-room at 12 o'clock Monday, at which time a special programme will be given and plans for the future activities of that division will be considered.

J. W. Brewer, of the Chamber, was a guest in Sherwood yesterday and delivered an address on "Commercial Club Organization" before the Sherwood Commercial Club.
