Northern Grain & Warehouse Company Submits Price of \$32.40. Scattle Offers Are Higher. Grain Market Is Strong.

Only one Portland grain firm submitted a proposal for supplying the Government with 1250 tons of oats. The bid, which was made by the Northern Grain & Warehouse Company, was opened yesterday morning at This firm bid \$32.40 a ton. Bids were also opened at Scattle, but they were higher than the Portland price. Kerr, Gif-ford & Co. put in a bid there of \$32.80 and W. W. Robinson & Co. a bid of \$32.80. Several other bids, still higher, were submilited by other Washington dealers. The local grain market was very firm,

The local grain market was very firm, but no sales were posted on the board. Influenced by the bulge at Chicage, where serious crop damage reports lifted wheat prices 1% to 4% cents, bidders here were disposed to offer more, but sellers could not be reached, as compared with Saturday, offered prices were raised in some instances 3 and 4 cents, but prices averaged about 7 cents above the bids. Similar conditions prevailed in the market for feed grains, July delivery was yesterday quoted for the first time.

Quarter of Cent.

Tillamook cheese prices were reduced a uarter of a cent yesterday. Although the fastern market is firm and about 3 cents above a parity with Oregon prices, the Pa-cific Coast markets are weak because of the larger production, both in this state an in California. At San Francisco, stocks bave accumulated heavily, while in Oregon many small factories are turning out choose, much of it of indifferent quality, and this has naturally affected the market for the Tillamook article.
