PORTLAND BID WINS

Lightvessel 50 Awarded to A. B. Leve for $1667.

PLANS FOR USE UNCERTAIN

Intention to Convert Boat Into Summer Home Is Abandoned—Boat Oft Adrift at Sea During Years of Service.

The Bureau of Lighthouses at Washington, D. C., on a bid of $1667.99 made in April, has awarded to A. B. Leve the possession of lightvessel No. 50, the first floating navigation aid of the type stationed on the Pacific Coast. Robert Warrack, inspector of the 17th lighthouse district, was officially advised that Mr. Leve had won in competition with Portland and Puget Sound bidders.

Regarding his early intention to convert the old lightvessel into a Summer home, Mr. Leve said yesterday that he had discarded the notion, and while he had not received offers for the ship, was not certain what disposition he would make of her, other than that she will be towed to Portland from the Tongue Point buoy station, and on further examination of the hull will depend her future.

Bids First Opened in February.

Bids were first opened for the vessel February 16, and at the time Mr. Leve was the highest bidder with a tender of $627.98. All proposals were ordered rejected, and a new batch was opened April 6. Mr. Leve again took first place with a tender of $1667.99.

It was not generally known, but there was a plan considered of towing the ship to the Atlantic Coast via the Panama Canal, as it was thought she could be refitted on the other side and used as a lightvessel. No. 50 was turned out by the Union Iron Works and is a composite vessel. Her frame is of steel, planking being fastened to the frames, and the outer skin is copper. A story is told that the Union Iron Works was turning out the cruiser Charleston at the same time, and some of the steel being fabricated for the Navy job was increased to be utilized aboard the lightvessel.

Lightship Beached Twice.

The ship was equipped with sails, having no other power, and was moored off the entrance to the Columbia River in May, 1892. November 28, 1899, she broke adrift during a gale and managed to stand out to sea the following day, worked her way shoreward, and after repeated attempts to tow her inside she went on the beach near McKenzie Head. It was April 25, 1901, that she was launched in Baker Bay, after having been moved overland through a draw from the ocean beach. She unceremoniously left her station again October 6, 1905, and brought up on Peacock Spit, and it was October 9, 1906, that she resumed service once more. In May, 1907, her last runaway episode was recorded, and that time she was picked up by a tug and assisted inside, sustaining no damage.

For nearly five years she has been held at the lower river station. Much of her gear remains aboard, and some parts of the ship are in a fair state of preservation.

ROUNDTRIP SCHEDULE IS ON

Gatzert Begins Daily Service on Scenic Columbia Route.

Summer is here in the opinion of steamboatmen, in spite of the fact J. Pluvius has been putting in full time of late, for the excursion steamer Bailey Gatzert inaugurates her daily round trip schedule between Portland and The Dalles today, leaving here at 7 o'clock this morning. That move, following so closely on the resumption of the daily sweet trip service between Portland and Astoria by the speedy propeller Georgiana, is taken by fresh-water sailors as proof that the period for vacations is at hand.

Sunday the Gatzert leaves at 9 o'clock for the Cascade Locks, returning about 5 in the evening. The same day the Georgiana steams at 7:30 for Astoria, returning to Portland at 9 o'clock in the evening. The Gatzert is in command of Captain Alden, with Pilot Ed. Lyons, while Captain Archie Geer is on the Dalles City, which leaves today at 8:30 o'clock for The Dalles and with him as pilot is Captain Penn Short.

VANCOUVER WANTS DREDGE

Engineer Officers Asked to Assist in Work on Marine Road.

To dredge a channel that will have a ruling depth at zero of 25 to 27 feet of water is the aim of commercial interests at Vancouver, Wash., and a formal application for a Government dredge to prosecute the work has been made to Colonel Morrow, Corps of Engineers, U. S. A. As there are no diggers of a suitable type operated in the First Portland district, it was understood that Colonel Morrow would refer the application to Colonel McKinstry, in charge of the Second Portland district.

Dykes have been completed at Vancouver in connection with the improvement project and it is believed that once a suitable channel is provided no trouble will be met with in maintaining it. In the past deep-water vessels have made Vancouver, and being located such a short distance from the main ship channel it is promised that there will be a resumption of coast shipments from there.

NAVARRE LOADS ALL WHEAT

Pierre Antonine Makes Record Passage of Present Season.

Approximately 3000 long tons of wheat for Callao will go aboard the British steamer Crown of Navarre, which is due here tomorrow from Seattle and loads at Mersey, Montgomery and Albina docks. She is consigned to Balfour, Guthrie & Co. and is one of the small Harrison liners. On discharging at the West Coast port she takes on a nitrate cargo for the Atlantic.

The Merchants' Exchange was advised yesterday that the French bark Pierre Antonine passed Lizard Tuesday on her way to Queenstown from Portland. She left the river January 23 and was 115 days on the way, making the fastest passage of the season. The best previous time this season was 121 days. The Norwegian steamer Christian Bors, which left last month with a full grain cargo for Limerick, is reported arriving at Norfolk yesterday by way of the Canal.

COQUILLE IS BEING DREDGED

Seattle Working Three Shifts in Shoal Outside Bandon.

MARSHFIELD, Or., May 19.—(Special.)—The dredge Seattle, of the Puget Sound Bridge & Dredge Company, is engaged in work on the Coquille River, which was started at the Moore sawmill, on the outskirts of Bandon, where there is a troublesome shoal. The dredge is working three crews eight hours each and Roy E. Miller, superintendent, expects to complete the ten-foot channel to Coquille within two months or thereabouts. In some districts in the vicinity of Bandon the property owners are organizing fill districts and much of the tideflat area will be elevated.

At the Moore mill the channel will be cut to a width of 230 feet. It is believed there are sufficient funds to finish the channel to Coquille without issuing bonds.

SIX TRAMPS DISPOSED OF

Steamers That Have Loaded Here Among Carriers Sold.

Six British tramps are numbered with the latest carriers disposed of by their owners and all of them are known on the Coast. One of the most familiar of the fleet is the Norwegian steamer Rygja, which operated for a time in the service of the Portland & Asiatic Steamship Company. She was owned at Bergen, Norway, and has been sold to foreigners. The Frankmount, which has been dispatched from the river, is reported sold to the Canadian Pacific Railroad for approximately $460,000.

The Strathlyon, of the widely known "Strath" fleet, is another disposed of, and she has been taken over by Swedish interests. The British steamer Farley has been sold for $225,000 and the British steamer Needles is said to have brought $225,000. The British steamer Mancunia, loaded on Puget Sound in February, brought $200,000. High freights naturally have increased values and, with some steamers laid up at British ports because of the war, their owners are willing to sell, as there are better opportunities for disposing of them than was the case in advance of the European disturbance.

FINLAND AT SAN FRANCISCO

Big Atlantic Liner Makes Maiden Voyage Via Panama Canal.

SAN FRANCISCO, May 19. — The American steamer Finland arrived here today on her initial trip from New York, inaugurating a 17-day service between San Francisco and New York, which is to be maintained by the Finland and her sister ship, the Kroonland. The Finland was greeted formally by city officials and committees of civic bodies. She carried a large cargo and had a passenger list of 445. Some disembarked at San Diego.

The vessel encountered heavy head winds on the voyage up the coast and arrived several hours late, delaying her docking.

Swayne & Hoyt, agents for the steamers, have closed for shipments of grain and other cargo that will move from here on coasters and be transshipped at San Francisco aboard the Finland. It is hoped to maintain a steady movement of certain commodities from north coast ports at times when the direct liners cannot accommodate all offerings.

SANTA CLARA LEAVES OUT

Yucatan Sails for Australia With 2700 Tons of Oats.

In command of Captain Lofstedt, who was master of the steamer Geo. W. Elder until her arrival at San Francisco from here, the steamer Santa Clara left last night for the Golden Gate by way of Coos Bay and Eureka with a fair passenger list and average freight. Captain Jessen, who had been on the Santa Clara when she plied between San Francisco and Southern California, went to the Elder and she is due Sunday, having taken the place of the Yucatan. Captain Jessen has numerous friends in this district and is one of the pioneer shipmasters on the coast.

The Yucatan, Captain Paulsen, sailed last night for Australia with 2700 tons of oats. She finished working coal at the independent bunkers yesterday and it is understood that on discharging her grain cargo in the Antipodes she will take on freight for San Francisco. The steamer Alliance, of the same line, is to be floated from the Port of Portland drydock this week and proceed to San Francisco to be prepared for the Alaskan service.

STEAMER LIBELED BY SHIPPER

Recovery of $1128 for Loss of Cocoanut Is Asked Here.

A libel for $1128.22 against the British steamship Den of Airlie, one of the fleet of the Royal Main Steam Packet Company, was filed in the Federal Court yesterday by the Kaola Company.

The complaint charges that on July 19, 1914, Hayley & Kenny, at Colombo, Ceylon, shipped 100 pipes, nine puncheons and three hogsheads of cocoanut oil, valued at 60 cents a hundredweight, on the Den of Airlie. Leakage of 13,717 pounds of oil, valued at $1128.22, is declared to have taken place.

Marine Notes.

R. J. Vaughn, formerly auditor of the Portland Steamship Company, operating a service between this harbor and Alaska ports, has joined the Portland staff of The Dalles-Columbia Line.

That there is a good stage of water between Portland and all points on the Willamette is reported by Captain A. B. Graham, of the Yellow Stack line. He says reservations are being made for the first excursion of the season Sunday, which will be aboard the steamer Grahamona for Butteville.

Minor repairs having been completed aboard the lighthouse tender Heather, she has been ordered to proceed here from Astoria to load stores and supplies for light stations.

San Francisco is to be the end of the run for the steamers Klamath when she leaves today and she was cleared for there yesterday with a lumber cargo measuring 1,500,000 feet.

To complete her lumber cargo for California the steamer Hardy left St. Helens last night for Westport. The steamer Klamath proceeded to St. Helens to work the last of her load.

Latest schedules of the American-Hawaiian Steamship Company provide for the arrival here June 5 of the steamer Nevadan and of the steamer Montana June 16.

Leaving the Columbia June 16 the salmon ship Levi G. Burgess was 31 days making Nushagak River, while the Berlin, which sailed April 15, was 36 days en route, according to information received by wireless.

News From Oregon Ports.

ASTORIA, Or., May 19.—(Special.)—The steamer Zapora and the gasoline schooner Senator, which have been fishing for halibut at the banks off the mouth of the river, were in port today after fuel oil. Neither reported having met with much success on this trip, although they made large catches there last week. The Zapora goes immediately to Alaskan waters as it is believed the run on the local banks is over for the present.

The tank steamer William F. Herrin sailed for California after discharging fuel oil in Portland.

The American-Hawaiian line steamer Minnesota sailed for Puget Sound with part cargo from New York.

The steam schooner Quinault arrived from San Francisco with cargo for Astoria and Portland.

The dredge Chinook was put out of commission for a few hours today by the breaking of a pin which holds one of the large davits. She came to the upper harbor to have repairs made and returned to work tonight.

The tank steamer E. L. Drake sailed for California after discharging fuel oil in Portland and Astoria.

The steam schooner Yellowstone arrived from San Francisco, via Coos Bay, with freight for Astoria and Portland.

The steamship Northern Pacific sailed for San Francisco with freight and passengers.

The steam schooner Daisy Putnam sailed for San Francisco with 1000 tons of grain from Portland and lumber from the Hammond mill.

The steam schooner Daisy sailed for San Francisco with lumber from Knappton and shingles from Grays Harbor.

TOLEDO, Or., May 19.—(Special.)—The Alwaneda arrived from Portland with several tons of freight for Toledo and Siletz and cleared for Waldport.

Movements of Vessels.

PORTLAND, May 19.—Arrived—Steamers Quinault, from San Francisco; Yellowstone, from San Francisco, via Coos Bay. Sailed—Steamers Colonel E. L. Drake, for San Francisco; Roanoke, for San Diego, via way ports; Yucatan, for Sydney; Santa Clara, for San Francisco, via Eureka and Coos Bay.

Astoria, May 19.—Arrived at midnight and left up at 1:30 A. M.—Steamer Quinault, from San Francisco. Sailed at 7 A. M.—Steamer Minnesota, for New York, via way ports. Arrived at 11:30 A. M. and left up at 2:30 P. M.—Steamer Yellowstone, from San Francisco, via Coos Bay. Sailed at 2:15 P. M.—Steamer Northern Pacific, for San Francisco. Sailed at 1 P. M.—Steamer Daisy, for San Francisco.

San Francisco, May 19.—Arrived at 6 A. M.—Steamer F. A. Kilburn, from Portland, via Eureka and Coos Bay. Arrived at 8 A. M.—Steamer Bear, from Portland, for San Pedro.

Seattle, May 19.—Arrived at 6 A. M.—British steamer Hazel Dollar, from Portland. Sailed at noon—British steamer Crown of Navarre, for Portland.

Norfolk, May 19.—Arrived—Norwegian steamer Christian Bors, from Portland for Limerick.

San Pedro, May 18.—Arrived—Steamer Siskiyou, from Portland.

Dublin, May 17.—Arrived—French bark Vendee, from Portland.

Astoria, May 18.—Arrived down at 8:30 and sailed at 10 P. M.—Steamer W. F. Herrin, for Monterey.

Seattle, Wash., May 19.—Arrived—Steamers City of Seattle, Southeastern Alaska; Shinsei Maru (Japanese), Yokohama; Hazel Dollar, Manila; Prince George (British), Prince Rupert. Sailed—Steamers Admiral Farragut, San Francisco; San Ramon, Knik; Crown of Navarre (British), Callao via Portland; Prince George (British), Prince Rupert.

San Francisco, May 19.—Arrived—Steamers Nome City, Port Angeles; Admiral Schley, Seattle; F. A. Kilburn, Columbia River; Bear, Portland; Uakmoor (British), Newcastle, Australia. Sailed—Steamers Asuncion, Congress, Seattle; Alaskan, Matsahla, Honolulu.

New York, May 19.—Sailed—Steamer Montanan, San Diego.

Hongkong, May 17.—Arrived—Skidzuoka Maru, Seattle.

Yokohama, May 18.—Arrived—Chiyo Maru, San Francisco.

Calcutta, May 16.—Sailed—Sequoya, San Francisco.

Batavia, May 17.—Sailed—Frank H. Buck (from Portland), Singapore.

Callao, May 18.—Sailed—Azov, Vancouver.

Shanghai, May 19.—Sailed—Steamer Seattle Maru, Seattle.

NORFOLK, Va., May 19.—Arrived, steamer Christian Bors, from San Francisco.

VAN DOOZER—To Mr. and Mrs. J. G. Van Doozer, 6441 Sixty-sixth street Southeast, May 11, a son.

BILDERBACK—To Dr. and Mrs. Joseph B. Bilderback, 259 Stout street, May 11, a daughter.

WHEELER — To Mr. and Mrs. John E. Wheeler, Sixteenth and Elm streets, April 27, a son.

CRANE — To Mr. and Mrs. William B. Crane, Fifty-seventh and East Yamhill streets, April 30, a son.

GILBREATH—To Mr. and Mrs. Curtis B. Gilbreath, 786 Tibbetts street, April 3, a daughter.

SPLAWN — To Mr. and Mrs. Charles Splawn, 683 East Thirteenth street, May 9, a son.

CARROLL—To Mr. and Mrs. Melville W. Carroll, 1163 East Sixteenth street North, April 29, a daughter.

Momentous Future In Woman's Mind

The expectant mother revolves in her mind all we understand by destiny. And it is of the utmost importance that her physical comfort be our first thought. There is a most splendid remedy for this purpose, known as "Mother's Friend." It is applied over the muscles of the stomach, gently rubbed in, and at once penetrates to relieve all strain on nerves, cords, ligaments and all parts involved. It makes the muscles so pliant that they expand naturally. And at the same time they are invigorated by the absence of harassing pains so apt to distress the mind. Whatever will add to the comfort of the expectant mother is a great and helpful influence since a calm and peaceful period must have a wonderfully beneficial impress upon the coming child. Get a bottle of "Mother's Friend" of any druggist and you will realize why so many women declare it to be the most helpful remedy they know of. Write today to Bradfield Regulator Co., 402 Lamar Bldg., Atlanta, Ga., for a splendid book of great interest and value to every expectant mother.

Face Eruptions Have Deep Significance

Often They Indicate Impurities Deep in the Tissues.

The results shown by S. S. S. in clearing the skin reveal how searchingly and how deeply this famous blood purifier attacks blood troubles. Facial eruptions are more often significant of impaired nutrition resulting from faulty elimination of body wastes.

Most people realize this to be true. And yet it is a difficult matter to convince such people they should avoid those harmful drugs such as mercury, iodide of potash, arsenic and so on. S. S. S. gives just as good effect without the destructive results, because it is more searching. It goes deeply into the circulation wherever the blood flows, but it does not remain to clog the system. And its effect is complete and thorough as indicated by blood tests. One of the strange things today is that so many people are wedded to the notion that mercury is the one antidote. It is not so. There is in S. S. S. a product of nature that is rated one of the most potent principles known for the complete elimination of blood troubles.

Wherever you go there are people who know this to be true from their own experience, for it has been clearly shown there is one ingredient in S. S. S. as essential to health if the blood be impure as the nourishing elements of the grains, sugars and salts of our daily food. Get a bottle of S. S. S. today of any druggist, but insist upon S. S. S., accept no substitute. And if your case is peculiar or of long standing, write to the Medical Adviser, The Swift Specific Co., 101 Swift Bldg., Atlanta, Ga.
