WOMEN GREET VISITOR

SUFFRAGE DELEGATION CALLS ON MARYLAND GOVERNOR.

Greatest Obstacle in East is Conservatism and Lack of Progressiveness, Says Mr. Goldsborough.

A deputation of representative Portland women waited upon Governor Goldsborough, of Maryland, Sunday in the room of the Benson Hotel.

The Rose Festival board Sunday night officially declared the contest closed with the midnight count Saturday, and in their announcement conferred the title of princess upon the six highest candidates next to the election of a maid of honor upon the six candidates next in the list.

This decision was the result of a conference that lasted throughout yesterday afternoon and evening, a large part of which time was devoted to hearing protests of various factions against continuing the count past Saturday's balloting.

Agreement Arrived At. The Woodmen of the World declared that the unexpected condition resulting from the omission of the contest yesterday had disorganized their campaign and that to continue the count until Tuesday night would place them at an unfair disadvantage.

The Governor, with arms filled with Portland roses, the gifts of Mrs. A. E. Borthwick and Mrs. Alva Lee Stephens, the interview, among those who waited upon the Governor were:

LOVE BONDS URGED

Dr. J. H. Dickey Pleads for More "Spiritual Marriages."

CHANGED LAW IS FORECAST

Speaker at Meeting of Temple of Universal Fellowship Declares Within Five Years Heaven Will Send Dispensation.

Look out for the man who before marriage is the lovey dovey type. It takes only a few weeks of married life to reverse him.

Others demand to see the pedigree of the person who is or daughter proposes to marry. The world will gain more spiritually in the next five years than has been gained in the last 2000 years.

In 1920 there will be a new dispensation which will change our marriage laws to prohibit marriage except for spiritual love.

All our greatest men and women are married people. Married people live longer than those who never marry.

We rejoice over the pedigree of our stock. Why not have a human pedigree show?

Rather than marry for anything but spiritual love, stay single and you'll live longer.

In five short years—in 1920 to be exact—the entire present system of "man-made" marriage will be brushed aside and there will be established a new marriage system based upon spirituality. It will be part of a new dispensation. So declared Dr. J. H. Dickey at Sunday night's meeting of the Temple of Universal Fellowship held at Woodmen Hall.

Dr. Dickey spoke on the subject "Eugenic Marriage." He denounced the marriage system of today, declaring that it is degenerating the race. "But," he said, "a change is coming. There will be handed down from Heaven a new dispensation. The marriage laws will change so that there will be no marriages except for love. In the next five years the world will gain more spiritually than has been gained in the last 2000 years.

Few Marriages "Spiritual." "There are spiritual marriages now but there are many, many more that are not. Never has there been a spiritual marriage that has ended in the divorce court. Unspiritual marriages keep the divorce mills grinding. When a spiritual marriage takes place it is a marriage for eternity. The others are marriages only until death do them part." Most of them do not last that long, even.

The law of the future will be against marriage except for love. There will be no marriages for money, for name or for lust or any of the other material things that bring about marriages. They will be for spiritual love. When there is a proper marriage there is no deception on either side, either before or after marriage. There is never a cross word in the home and the husband and the wife both can be trusted. There is never a slip.

Mildly Unions Warned Against. "Under our present system of marriages our race is going down hill. We are struggling to build up the people of our nation, and we give never a thought for the pedigree of our children. Why not have a human pedigree show? Mothers make your prospective son-in-law's pedigree show. Fathers make your prospective daughter's pedigree show. Select the companionship of your children so that there will be no misfit.

"Beware of the young man who before marriage is all attention; the young man who says lovey dovey this and lovey dovey that, and who gives marriage life will cure him and he will be the opposite in disposition afterward. Remember that the only marriage that is a success is marriage for spiritual love. A man or a woman should stay single rather than marry for anything other than love. Not that I am a single blessed man, but you will note that all of our greatest women and men are married people. It is better to be single than married for money, or for name, or for lust."

MACARONI TO BE HIGHER

ITALY'S ENTRY INTO WAR TO CUT DOWN EXPORTATION.

American Plants Increase Output to Meet Increased Markets—More Wheat Sales Likely.

WASHINGTON, May 24.—(Special.)—Italian macaroni will be scarcer and its price higher in this country as the result of the decision of Italy to enter the war. American producers of macaroni and noodles have increased their plants since the outbreak of the war because of the falling off in imports of macaroni from Italy and Italy's move will now result in a still larger increase in domestic production.

In the first half of 1914 macaroni imports from Italy amounted to \$6,637,228 pounds or about 12,000,000 more pounds than during the corresponding months of 1913. This trade expansion was coincident with the reduction of American customs duty from 1 1/2 cents to 1 cent per pound.

After the outbreak of the war Italy placed an embargo on exportation of alimentary pastes. The effect of this embargo is shown in the statement that in March, 1914, the imports of macaroni from Italy aggregated 236,871 pounds, while in March, 1915, they were 4,852,864 pounds. Italy will now be the most important source of macaroni at home for the use of her soldiers.

During the time Italy was curtailing her exports of macaroni to this country the wheat increased in price. Chances here of hard wheat to take the place of Russian wheat which she was unable to get.

In March, 1914, Italy bought from the United States 15,972 bushels of wheat and in March, 1915, 6,425,385 bushels, a nine-fold increase. Italy has bought from this country 41,374,098 bushels of wheat.

LIQUOR ACT IS EXPLAINED

Use Not Restricted to Sacramental Purposes, Says Attorney.

Although the belief has been expressed by some persons that the wording of the affidavit form which each person importing liquor for his own use must sign, as set out in the prohibition law, would bar any importation of liquor except for sacramental purposes after Oregon goes dry next January, lawyers declared yesterday that this is not the case.

Attorney John F. Logan pointed out that affidavit forms included in laws that are blank forms to be filled in by the importer, and that the law itself provides that liquor in specified quantities may be imported for private consumption, he said that a different wording of the affidavit form could not change the law.

That such forms are directory and not mandatory in effect already has been established in a supreme court decision. Mr. Logan pointed out. The initiative and referendum law contained a provision to be used in petitions, which included a clause to be printed at the top of the petition giving warning that the signing of a petition that brings about a person more than once was a felony.

A case came before the Supreme Court as to the validity of a petition which included a clause to be printed at the top of the petition giving warning that the signing of a petition that brings about a person more than once was a felony.

The affidavit form in the prohibition law comes under the same rule.

Resinol man. He talked for humanity to lower animals.

"We know by experience that kindness is best for animals," he said. "I don't believe you will find ten men who use the hot iron with their wild beasts. When a man's life is in danger he has a right to protect himself with a revolver, but we teach animals by perseverance and kindness. The study of kindness to animals should be taught in the schools for bringing children up with the right ideas."

Rev. Ward Macher, pastor of the church, introduced the speakers. The circus laid over here today and many performers attended humanity day exercises in other churches.

ANOTHER ERUPTION FORECAST

Lassen Will Boil Over Again Today, Says Mathematician.

SAN JOSE, Cal., May 24.—Albert Porta, mathematician, formerly a professor at the University of California, predicts another eruption of Lassen peak tomorrow or Tuesday, being caused by the quadruple conjunction of Venus and Jupiter, which occurred May 19. This will be followed by eruptions between May 27 and 21, the latter being the result of the opposition of Venus with Mercury.

For June four more outbreaks are predicted, the most violent eruption in the history of the Lassen volcano to occur about June 8-8. At this time Professor Porta says a fall of gravel for a radius of 100 miles, and gases that may reach into Nevada or Southern Oregon, according to the direction of the wind, will accompany the eruption.

CIRCUS MEN PREACH HUMANITY

Humanity Pleas Are Made at Church at Baker.

SHOW PEOPLE DEFENDED

Ex-Juggler, One of Managers of Animal Circus, and Trainer Say Kindness is Rule in Treatment of Their Animals.

BAKER, Or., May 24.—(Special.)—Humanity to circus people was urged last night from the pulpit of the Presbyterian Church by P. J. Staunton, who has been under the big top for 25 years and has worked his way up from juggler to one of the trainers and managers of the Barnes' Wild Animal Circus.

Invited to speak during the humanity day services, he said that circus people were humane to those about them and that people should be kindly in their judgment of the men under the canvas. His statements were backed by Jim Morrow, the lecturer on wild animals with the show. In the congregation sat many members of the show, who sang the old hymns and joined heartily in the services.

Mr. Staunton was surprised, but did not fit precisely the expectations of the large congregation who listened to him, although he forgot his "g's" sometimes. "The circus people are kind to animals with which they work day and night. They do it because they love them. The circus people are kind to animals with which they work day and night. They do it because they love them. The circus people are kind to animals with which they work day and night. They do it because they love them."
