## SULPHUR IS COMING

First Cargo for Municipal Dock No. 2 on Way.

COMMISSION SETS

pany on 7000 Square Feet Leased-Jap Ship Has Load.

Sulphur on the way from the Far East aboard the Japanese steamer Kenkon Maru II will be the first cargo handled on Municipal Dock No. 2, on the East Side, which was accepted early in the month by the Commission of Public Docks. At a meeting of the Commission yesterday space there was ordered leased to the Crown Pulp & Paper Co., to which firm the sulphur is consigned, and between 7000 and 8000 square feet is to be taken.

The Commission is to charge 25 cents a ton for the sulphur the first month and after that period storage will be allowed on a basis of three cents for each square foot of space occupied.

for each square foot of space occupied. A number of sulphur shipments have been made here for the benefit of paper manufacturers, usually being handled over the St. Johns municipal dock, small consignments also being discharged at points in the harbor. Early in the year it was estimated that close to 20,000 tons of sulphur would be transported to the Coast from Japan, about half of which comes here.

The Commission also entered into a lease with W. R. Grace & Co. yesterday for another year at Municipal Dock No. 1, where the company has a prefer-ential berth. The first year's contract is to expire in August and yesterday notice was given that the option of a second year there would be regarded favorably. The company operates the "Santa" fleet from New York to Pa-cific Coast harbors and the fleet of four carriers is to be augmented by three new ones, the first of which is under construction and contracts for the others were recently awarded. In being given privileges on the dock for an-other year it is stipulated that in the event of a congestion the Grace line ex-pedite handling cargo so that other vessels may be accommodated without unnecessary detention.

Regarding a request of the Portland Railway, Light & Power Company that It be permitted to relinquish its fran-chise on East Water street, so far as it pertains to track in use between East Oak and East Stark streets, the Commission favored the company being released to that extent. Favorable action also was taken on application of the Oregon and California road for a spur at East Ninth and Division streets, which is to reach the plant of the Montague. O'Reilly Company, providing a common streets. erted in the permit which will be revo-

Weights on cargo certified by the Weights on cargo certified by the Commission from the municipal docks will be accepted by the Transcontinental Freight Bureau, the same as from railroad and steamship lines, it was announced yesterday. That will was announced yesterday. That will facilitate the movement of freight ma terially and avoid extra weighing.
City Attorney La Roche was asked to
pass on a law effective May 22, providing for the incorporation in all
building contracts that home-manufac-

building contracts that home-manufac-tured material enjoy a differential of 5 per cent in its favor over other ma-terials. The matter was brought to the attention of the Commission by the United Metal Trades Association. Regarding an application to permit the indigent owner of a houseboat to moor alongside the city levee prop-erty, which was favorably passed on crty, which was favorably passed on the opinion was expressed by F. W. Mulkey, chairman of the board, that while it had authority to build across treet ends, he doubted if the Comm

street ends, he doubted if the Commission had further jurisdiction, that being vested in the Council.

It was voted that employes of the Commission who had been in service a year be granted vacations during the Summer for 15 working days, the same as are enjoyed by other city departments.

PORTLANDERS WANT REBATE

Final Decision on Underwood Act Feature Eagerly Awaited.

Virtually every firm in Portland that has imported goods since the passage of the Underwood act, which provides a rebute of 5 per cent on that transported in American bottoms, has filed a protest with Collector of Customs Burke against the rebate being withheld, as was ordered not long ago, and their hopes have risen as a result of a Washington dispatch published in The Orebronian yesterday to the effect that the Eugene Customs Court. That body held also that the rebate must apply to carge moved into the United States on vessels of other countries with which this country has "favored nation" treaties.

So far as the Portland customs district is concerned the rebate payment will reduce total revenues materially unless the matter is reversed by the United States Supreme Court. The contention here is that under the law if American vessels are favored, foreign vessels bringing cargo must be accorded the same advantage, as the United States has treatles with almost all nations.

The section of the Underwood.

The gasoline schooner Rustier, en route from forciand to Wedderburn, called here for oil.

That discount of the United States on vessels bringing cargo must be accorded the same advantage, as the United States has treatles with almost all nations.

The section of the Underwood act referring to the rebate, which was passed October 3, 1913, is as follows:

That a discount of 5 per centum on all duties imposed by the act shall be allowed on all goods, wares and merchandise as shall be imported in vessels admitted to registration under the United States and any foreign nation.

On being asked with reference to the United States and any foreign nation.

On being asked with reference to the United States and any foreign nation.

On being asked with reference to the undergo delivered only by American wassels could not be rebated without impairing the stipulation of existing treaties and that the subsection was in operative.

Coaster Makes Speedy Run From Golden Gate With 240 Travelers. Sengers from the steamer Bear at 10 Gray Hair Changed to an o'clock yesterday morning, making the earliest arrival here of the season, as the Beaver on her last voyage was in her berth at 10:30 o'clock. The Bear holds the record for early arrival, having reached here at 7:30 o'clock the morning of December 13, 1913. The vessel brought several hundred tons of cargo, including nine carloads of California fruit. Leaving the Golden Gate. Crown Pulp and Paper Com-

One out has been finished by the Port One out has been finished by the Port of Portland dredge Portland from the lower end of Swan Island, also known as Mock Bend, to a point 1800 feet downstream and she has been shifted to the starting point to make a second cut that will be parallel with the first. The channel there is being widened and deepened and when that work ends will be in the best condition in the history of Willamette River dredging. The dredge Willamette is engaged a

The dredge Willamette is engaged a short distance below the plant of the Portland Flouring Mills Company and her digging has resulted in the temporary removal of the lower beacon, a budy now being used at the place. When the cut is completed the beacon will be re-established. Both places have proved bethercome to allots and their improvebothersome to pilots, and their improve-ment will facilitate the handling of desp-draft ships when passing or when current and wind are unfavorable.

DRYDOCK CARPENTER HURT

the Port of Portland drydock yesterday morning, engaged in turning out material for the tug Onconta, Henry Vieth, a shipcarpenter of 1187 East Thirty-second street North, suffered the loss of the four fingers of his left hand, which were severed by the machine when his hand slipped as he was holding a narsew strip of lumber against the knives. He was hurried to St. Johns by Fred Pape, master mechanic for the port and later was taken to his home. It is said that a guard used on the machine, as well as a spring that preesed material against the knives, were off at the time. Vieth says that his father lost the four fingers of his left hand in much the same manner. left hand in much the same manner years ago.

Port of Portland Towage Department to Be Operated Direct.

Steps will be taken today to close the Astoria office of the Port of Portland towage department E. W. Wright, manager of the Port, passed yesterday there, and last night Harry Campion, superintendent of towage, left for the lower river to attend to the details of turning over property and providing for the maintehance there of a store-room.

Masters of the bar tugs will be held accountable by Manager Wright for all supplies, purchases and gear and the conduct of their crews, so they will report direct to his office instead of through an agent. Mr. Campion will close his office here by Monday, after which he assumes charge of all stores and supplies for the towing and dredging feet, making his headquarters at the Ash-street dock. In the future
