LONDON, May 27, - A statement given out tonight by the official press bureau says that the losses of Turks in the recent fighting at the Dardanelles are considerably heavier than had been supposed. The state-ment was in the form of a report from Major-General William R. Birdwood, transmitted today from Cairo. It fol-

General Birdwood reports today "General Birdwood reports today that during the suspension of fighting. In order that the Turks might bury their dead, much larger losses than 2000 dead already reported came to light. Two areas in front of one of our sections, where heavy punishment to the enemy had not been previously reported, were covered with the dead. Four hundred corpses were counted in an area 80 vards by 100 counted in an area 80 yards by 100

Burial Parties Work Quickly. "Turkish burying parties worked quietly and quickly. They were all supplied with cotton wool prepared with some solution to deaden the stench—a most necessary precaution. "More than 1200 Turkish rifles were picked up on our side of the dividing line during the suspension of hostilities."

"On May 25 an advanced trench 150 yards in front of General Cox's brigade was rushed and occupied by our men."

Official narratives of the military operations on the Gallipoli Peninsula from May 6 to May 19 were given out in London teday. They set forth that on May 6, after the arrival of fresh troops which included part of the territorial division, a general advance of the allied troops took place. A heavy covering fire was maintained by the silied fleets.

People think of neuralgia as a pain in the head or face, but neuralgia may affect any nerve of the body. Different names are given to it when it affects certain nerves. Thus neuralgia of the sciatic nerve is called sciatica, but the character of the pain and the nature of the disease is the same, the cause is the same and the remedy to be effective must be the same.

The pain neuralgia is caused by starved nerves. The blood, which normally carries nourishment to the nerves, for some reason no longer does so and the pain that you feel is the cry of the nerves for food. The reason why the blood falls to reason. why the blood fails to properly nour-ish the nerves is often because the blood itself is weak and thin.

Anemia, or thin blood, is the most common cause of neuralgia. Build up the thin blood with Dr. Williams' Pink Pills and you are attacking neuralgia at its root. These tonic pills also have a peculiar and direct action on the nerves so that they are probably the very best possible remedy for the treatment of neuralgia.

Your own druggist sells Dr. Williams' Pink Pills. Get a box today and write to the Dr. Williams Medicine Co., Schenectady, N. Y., for the free book, "Nervous Disorders, A Method of Home Treatement."
