Shortage of Cattle Has Resulted in Almost Prohibitive Prices for Beef.

Capitol here anxiously awaited the outcome. "My God, I am glad," said the Governor. "That was a fight. I have never had a fight like that in my life." The Governor announced, however, that he was not in accord with the suggestion of the Board of Pardons and Paroles to scatter the executions. "If they have to occur, I want them to be all at the same time, so we can get over with it," he declared. This was taken to mean that Governor Hunt still adhered to the belief that if lives have to be given up, a "horror" would be best to swing sentiment finally against capital punishment, which was approved in the Board of Pardons and Paroles. Under the law, as it now stands, the Governor can grant reprieves only on recommendation of the Board, and Governor Hunt has formally reprieved the five prisoners until July 30, 1915.

Edgar H. Senechik, of Portland, Declares Usefulness Has Been Demonstrated—South American Trade Is Discussed. SAN FRANCISCO, May 28.—Religious faith was commended as an asset and the Federal Reserve system was praised by Edgar H. Senechik, cashier of the Northwestern National Bank, of Portland, Or., in an address of discussion and advice before the joint convention of the Oregon, California, Idaho and Nevada State Bankers' Associations today. "There is no intention to take issue with the unbeliever," Senechik said, "but it is my opinion that weakness in religious belief tends to weaken in character and must be considered whenever character is a factor, as it is in credit. Religious faith is not confined to church members, and with respect to church membership is no guaranty of moral strength. Too frequently the cloak of religion covers the hide of a scoundrel. Be careful of the man who joins your church today and makes a bid for your money tomorrow."

Reserve System Praised. In telling of the benefits already derived from the Federal Reserve system, Mr. Senechik said: "How can we measure or place a value on the confidence instilled in the hearts of the people and the bankers themselves by the knowledge that the Federal Reserve system is prepared to protect the reserves of the country and provide practically unlimited credit if needed. I have no patience with anyone who calls the new banking system a failure. Immediately after the passage of the Federal Reserve act its influence for good began to be felt and in the unsettled conditions following the outbreak of the war in Europe its usefulness was demonstrated. Everyone will concede that clearing-house certificates and emergency currency have been of great aid since July of last year, but how can we measure or place a value on the confidence instilled in the hearts of the people and the bankers themselves by the knowledge that the Federal Reserve system is prepared to protect the reserves of the country and provide practically unlimited credit if needed. Who doubts the especial value of that confidence in the trying time following the recent great tragedy on the sea?"

Transportation First Need. Horacio Anasagasti, Commissioner-General for Argentina to the Panama-Pacific Exposition, scheduled for an address on "Short Cuts to Closer Relations," was unable to be present, but a paper which was read by the secretary, Senor Anasagasti took the stand that to bring about closer commercial relations between the United States and the republics of South America, sure and rapid transportation is necessary and that the means of accomplishing this is the problem of the present moment. "American capitalists," his paper read, "should build a merchant fleet to increase trade with all South America. Arrangements and contracts should be made with the different countries in order to guarantee the commercial exchange, giving facilities and providing for advantages to both sides. You should establish banking facilities and create shipping companies, and you will soon see fulfilled the patriotic wish of the United States of increasing its trade with the rich and prosperous republics of South America."

Merchant Marine Indorsed. The California association went on record, at its closing session, in favor of an American merchant marine. The associations from the other states joined the California body in adoption of a resolution condemning laws of certain Eastern states which force their banks to discriminate against Western farm mortgages. Officers elected were: For Oregon—President, J. M. Poorman, Woodburn; vice-president, F. L. Meyers, La Grande; secretary, J. L. Hartman, Portland; treasurer, William B. Pait, Tillamook; executive council, E. D. Cusick, Albany; E. G. Crawford, Portland; J. W. McCoy, Ashland; T. G. Montgomery, Baker City; Mark J. Tisdale, Sutherlin. For Idaho—President, F. L. Davis, Sugar City; vice-president, C. E. Cain, Boise; secretary, J. H. Robinson, Boise; treasurer, E. H. Plowhead, Caldwell; executive council, Walter E. Miller, Nampa; G. H. Waterman, Kamiah; S. L. Reese, Blackfoot; Crawford Moore, Boise.

Portland People in Chicago. CHICAGO, May 28.—(Special.)—The following from Portland, Or., are registered at Chicago hotels: At the Congress, W. D. Wallace; LaSalle, M. J. Jones. For Oregon—President, J. M. Poorman, Woodburn; vice-president, F. L. Meyers, La Grande; secretary, J. L. Hartman, Portland; treasurer, William B. Pait, Tillamook; executive council, E. D. Cusick, Albany; E. G. Crawford, Portland; J. W. McCoy, Ashland; T. G. Montgomery, Baker City; Mark J. Tisdale, Sutherlin. For Idaho—President, F. L. Davis, Sugar City; vice-president, C. E. Cain, Boise; secretary, J. H. Robinson, Boise; treasurer, E. H. Plowhead, Caldwell; executive council, Walter E. Miller, Nampa; G. H. Waterman, Kamiah; S. L. Reese, Blackfoot; Crawford Moore, Boise.

Imperial Ottoman Government, considering their period of belligerency has not fulfilled its obligations to neutral powers by the convention of 1856 to keep no warships in the Suez Canal, but is even now fortifying this canal, and that the French government, with hostile intent against the Ottoman Empire, has notified troops in Egypt, has by these facts been placed under the necessity of taking military measures for the protection of its imperial territory, of which Egypt forms part, and to extend hostilities to the Suez Canal.

LOS ANGELES, May 28.—In an opening statement to the jury, Albert Schooner, United States District Attorney, declared today that sales of stocks and loans constituted the only source of income the Los Angeles Investment Company had under the name of Charles A. Elide and the 19 other ex-officials now on trial in the United States District Court on charge of having used the mails to defraud investors. From January 1, 1911, to August 1, 1913, Schooner declared, "dividends" amounting to \$2,500,000 had been paid from the proceeds of the sale of the stock. This was for the purpose of inducing more people to buy stock. The District Attorney asserted, and prices in this particular period of huge "dividends" rose to between \$4.50 and \$4.55 a share.

GLASGOW, Scotland, May 28.—Two hundred Glasgow butcher shops were closed today for the reason that the shortage of cattle has resulted in almost prohibitive prices for beef.
