The pressing need among many people, due to the peculiarly unfavorable conditions that have prevailed for the past year, is not being felt by the Associated Charities alone, but is apparent in other spheres, as is evidenced by the following letter from one of the high officials of the city in response to the appeal from the Associated Charities and the city in response to the appeal from the Associated Charities and the Associated Charities and the Associated Charities and the Associated Charities and the C sponse to the appeal from the Asso-iated Charitles for contributions to the fund that will make it possible

for it to carry on its work this Summer. The letter says:

"I have your letter of the 24th inst. with its appeal for assistance in the campaign you are now making to raise \$5000 to carry on the work of the association. I think I can fully realize the situation you are facing and the the situation you are facing, and the great need which exists, as I am face to face with the same thing daily. As you have also noticed, no doubt, the condition of unemployment has not lessened with the coming of Summer, as we had all hoped, and appeals come to this office almost daily for assist-ance in various ways. For this reason I feel that it will be impossible for me to contribute at this time."

Demands Are Greater,

Conditions such as are mentioned in this letter are what have especially increased the burden which must be borne by the Associated Charities and other established benevolent organiza-tions in the city. Many temporary organizations sprang up about Christmas time for the relief of the poor, but these have suspended their activity and heir wards have been turned back to the care of the Charities. More de-mands for help are coming to the Char-ities each day this year than ever before at the same season of the year, and the Irain upon the funds of the organization has been tremendous. Thus far the relief work has gone forward as far as the resources of the association would permit, but it will be necessary soon to close the office of the Charitles, unless the \$5000 fund

that is now being raised can be Some of the typical cases that have appeared within one day at the Chari-ties follow: I. A man and wife and three children less than 10 years of age are to be evicted for non-payment of rent. The wife is ill, the man out of work and

relief is needed at once.

2. A man and wife have had nothing to eat for two days; no wood in the house for fuel; they are to be evicted for non-payment of rent unless relieved.

2. Widower: two sons; father out of

work, but trying hard to take care of his boys; credit at store to be stopped; relief needed at once.

New Babe Arrives.

4. Man, wife and babe two days old: reported to Charities by the Visiting Nurse Association; man cannot leave wife to look for work at this time; food and wood needed.

 Man, wife and three children, "in need of everything," reported to the Charteles office. two children; mother 6. Woman: just returned home from the hospital; food needed.

7. Man, wife and one little girl: man t of work; family needs food and ther employment.

Another request was made to the of-fice yesterday, and that is for a man who will plow up a plot of ground at East Twenty-third street and Hawthorne avenue for a destitute family.

The members of the family are trying to get along, but have nothing with which to stock their garden or to hire it plowed. Seed stock has been donated by a benevolent individual and the Charities now seeks someone who will be willing to go out and plow the ground so that they can put it in

chape for the garden.

One of the striking contributions to the fund yesterday was the donation by little Richard Nunn of his allowance is very carefully looked after by the of 25 cents. He intended to give half of the allowance at first, but "thought the matter over" and decided to give

To qualify under the new law gov-erning testing licenses, 12 of the milk and cream testers employed by creameries of the city were examined by State Dairy and Food Commissioner Mickle yesterday.
