PAVING EXPERTS and engineers all over the United States advance convincing and undisputed facts to show the superiority of concrete roads for suburban and country highways such as Multnomah County is preparing to lay. Enumerating a few concrete facts:

ECONOMY-Concrete is universally accepted as the least expensive of all the different forms of permanent highway improvement. Properly laid* it wears like iron, and Eastern states find the cost of maintenance varies from nothing to \$25 a year a mile, on the average.

DURABILITY-Concrete withstands atmospheric and weather conditions like the best of natural stone. Summer and Winter, it is the same. Presenting an absolutely uniform, hard surface, it does not disintegrate under the terrific grinding of heavy automobile and horse-drawn traffic. Twenty years after the first concrete street pavement in the United States was laid, the upkeep averaged just \$10 a year for 4400 square yards.

TRACTIVE ADVANTAGES-Smooth and regular, concrete offers the ideal roadway surface. Yet its surface is not glassy, and wet or dry it provides splendid footing for horses and an absolute non-skid pavement for automobiles.

*By joint action we have provided an engineering inspection bureau to see that every yard of concrete in our territory is properly laid.

Aged, Wrinkled Faces Easily Rejuvenated

An aged face is often only a mask to a comparatively youthful person. Beneath is a countenance young and fair to look upon. It's a simple matter to remove the mask. Ordinary mercolized wax, to be had at any drugstore, gradually absorbs the worn-out surface skin; in a week or two the user has the lovellest pinky white complexion imaginable. An onnes of the wax usually is sufficient to complete the transforma-tion. It is put on at night like coid cream and taken off in the morning with warm water. This remarkable treatment is invariably effective, no matter how muddy, sallow or discolored the complexion. Freckles, moth-patches, liver spots, pimples, blackbeads and other cutaneous blemishes, naturally vanish with the discarded skin. The remove withkies, here is a recipe that

must be brought as early as possible i the day of the exhibit, for they must be in place and ready for the judges and a box of cigars. Patrolmen Kling-not later than 10:30. Exhibits not in ensmith and J. H. Young made the ar-

A WORD TO VOTERS

The Commission Charter makes our city government a strictly business institution. It was for this reason that you adopted it.

Commissioner William L. Brewster has made good as a fearless, level-headed, efficient manager of the people's business. His experience is of value to the city. You have an interest in it. It is part of the investment you have made.

Why change for an untried, inexperienced man? Is it good business policy? Private business never changes successful management. Public business should be conducted as wisely as private business.

Household **Bank Accounts**

The management of household finances ought to be a business matter. The member of the family who looks after the expenses and pays the bills should have a bank account. Paying bills by check gives one an accurate record of where the money goes, and cancelled checks, which the bank returns, are receipts for all money paid. We have a large number of household accounts and would welcome yours.
