Donations to the maintenance fund which is being collected by the Associated Charities to make it possible to continue its relief work through the summer have passed the \$500 mark and Secretary Manning regards this as a very hopeful sign, inasmuch as the campaign is only a few days old. The total fund that must be raised to keep the charities open will be \$5000.

Besides cash sent in yesterday clothing was contributed by C. A. Mackenzie and G. A. Herold gave \$5 in groceries. BOY GIVES STOLEN SILVER

Hardware Company Employee Admits Taking Plate for Plantee.

Silver plate valued at more than \$100 and presented by Joseph Newton, aged 20, during the past two years to his aged mother and the girl he was to marry, was recovered yesterday by City Detectives Moloney and Swenson and Newton lodged in jail on the charge of larceny.

According to officials of the Marshall-Wells Company, the boy had been in their employ since 1911. The first articles taken were in 1913 and the systematic stealing has been continued by the young man, according to the hardware men and his own admissions. Valuable silver sets of all kinds, razors and other expensive hardware had been taken.

A trip to the boy's home near Sellwood Ferry yesterday revealed the hiding place of much of the missing silverware.

HAMMER RELEASE SIGNED

Judge Morrow Cancels Commitment in California Oil Case Conviction.

To prevent L. C. Hammer being sent to the penitentiary for his conviction in the so-called California oil and frauds of 1912, Circuit Judge Morrow yesterday issued an order canceling the commitment. The Supreme Court mandate, affirming Hammer's conviction before Judge Morrow of obtaining money by false pretenses, was yesterday and simultaneously the judge ordered that he be not imprisoned.

Hammer was convicted July 1, 1914. This followed the trial and conviction of W. H. Whitaker, alleged to have been the leader in the oil stock scheme. Whitaker was sentenced to the penitentiary by Judge Morrow and was paroled by Governor West when he went to Salem, accompanied by an officer, and told the Governor that he had come to begin serving his sentence.

VETERANS SUPPORT WILSON

Scout Young Camp Sends Telegram on German-American Situation.

Pledging their support to the United States Government in any difficulties in which it may become involved over the German-American situation, members of Scout Young Camp, Spanish War

Veterans, yesterday telegraphed to President Wilson a letter of alliance. The telegram was adopted in the form of a resolution by the camp Tuesday night.

Seneca Fouts, H. Maltimore Dukes and J. A. Norman comprised the committee that drafted the message to the President. The telegram was as follows:

We, the members of Scout Young Camp, No. 2 United Spanish War Veterans, Department of Oregon, regularly assembled on this first day of June 1915, meeting for the purpose of perpetuating the spirit of patriotism and loyalty which impelled us to go forth as defenders of our country when assailed by its enemies, and having still in our bosoms the fiery and devoted love for our country and its institutions that caused us to risk and sacrifice that at this time when nearly all of the leading nations of the world are at war, that our country is facing the greatest crisis in its history, since the Civil War, extend to you our loyal support and their renewed archaic allegiance to our country and assure you that, while we deplore the horrors of warfare and hope and trust that our country will not become involved in the dreadful struggle that is now enveloping the eastern hemisphere, we, however, prefer death to dishonor, and while among our membership we have many to whom flows the blood of every race of the warring nations of Europe, we are all Americans and are with our country, right or wrong.

We prefer, however, we shall be right, and we feel that in the negotiations which you have so ably conducted with the warring powers you have been fair, patient, humane and indignant, and more than that you have been absolutely right in each and every conclusion, and if any foreign power so conducts its warfare as to violate the tenets of humanity, interfere with the rights and privileges of American citizens, or persist in unjustifiably killing our citizens, we believe the most drastic punishment should be meted out to them, and we pledge you our loyal support and assistance.

\$3-DAY WAGE NOW DES

AMENDMENT BY COUNCIL PRACTICALLY REPEALS MEASURE.

Mr. Daly's Plan to Force Municipal Contractors to Pay Minimum Scale Being Torn Asunder.

Commissioner Daly's minimum wage ordinance which was passed by the Council early this year to force all municipal contractors to pay a minimum wage of \$3 a day to laborers, now lies in the Council archives suffering from the merciless extraction of its vitals by the same body that brought it into existence.

The Council upon recommendation of City Attorney LaRoche yesterday amended the ordinance by taking out the provision making it applicable to street and sewer contracts. Inasmuch as these contracts were about all that was affected by the measure the first place, the amendment means virtually the repeal of the entire measure.

The purpose of the amendment was to prevent the City Council from getting into financial troubles with property owners by forcing the property-owners to pay more than the going wage for workmen. It is held that the Council is merely the agent of the property owner and has no right to force the owner to pay excessive rates for services performed.

Two contracts have been awarded under the provisions of the ordinance. These furnish grounds for a test of the validity of the ordinance, according to Mr. LaRoche. He says there is a grave question as to the validity of the measure and therefore the possibility of the Council getting into deep water by letting the measure stand with its teeth still in.

A large number of bids have been opened for street and sewer contracts and the contracts have been awarded but not formally signed. In these cases the Council decided yesterday that the contractors could take the ordinance as it stood and the contractors can go ahead with their work as soon as the contracts are signed.

Since the enactment of the ordinance, the low bidders on sewer contracts for the most part been Syrians and Italians. These classes organize into partnerships and do their own contracting and their own work. Each workman being a party to the contract and no labor being employed, the aliens can underbid the white contractors because they do not have to pay the minimum wage.
