also at retail.

No advance like this has occurred before, except possibly at the time of the Spanish war, when a duty of 10 cents per pound was

Without buying support the local wheat market is steadily drifting toward a lower level. Bids for prompt delivery bluestem, fortyfold and club were lowered another cent yesterday, while offers for fife were reduced 2 cents. Blds for July fortyfold were raised 2 cents, but for July bluestem they were 3 cents down and for club un-changed. Sellers demanded good prices and no wheat sales were closed.

The only transaction posted was the sale of 200 tons of prompt shorts at \$25.50. Outs and barley blds were unchanged.

NO HOPS IN BELGIUM THIS YEAR Yield in England May Be Affected by Labor Shortage.

The English hop crop is coming along well, but there is some question about its cultivation and harvesting, owing to labor conditions, according to the Kentish Observer. The same paper states that there will be no crop in Belgium this year. The

is beginning to make an appreciable show. There is an unprecedented shortage of labor, and more work in the hep plantations will ae done by women and girls than has ever been the case.

It is practically certain that no hops will

be grown in Belgium this year, for although the Poperinghe district is outside the war zone, the military authorities have taken all the poles and wirework, while the oasts are occupied by Belgian soldiers.

"The Borough market is steadily improv-

ing, the demand having increased, and prices being very firm. Recent arrivals of Belgian hope have sold rapidly at advancing prices, the rise from the lowest point being &s to 10s per hundredweight. Very little business is passing in Californians, the prices being comparatively high.

war, when a duty of 10 cents per pound was placed on all teas. At that time, however, teas were cheap and a good part of the advance was equalized between the importer and the retailer. Teday this is no longer possible and teas which wholesaled last year at 12½c are now wholesaling at 22½c to 25c.

Thus far there has been no heavy advance in Japan teas, but probably some advance may come labout because of the probable increased use of these teas in the United States and Canada and the naturally increased demand which will induce the Japanese to take advantage of the opportunity.

The enormously increased cost of freights across the Pacific must also be taken into consideration, and unless the war should suddenly stop the consumer must expect to pay higher prices for his black teas of all sorts, and possibly for Japan teas also.

FUTURE BUYING LARGER

BUSINESS FOR LATER DELIVERY AHEAD OF LAST YEAR.

Filling of War Orders Taxes Capacity of Many Industrial Plants. Labor Well Employed.

NEW YORK, June 4.—Bradstreet's will say tomorrow:

Final distribution, checked in the East by unseasomable weather, has been revived in the West by sunshine and warmth, Speeding op is the rule in industrial lines and war orders, taken on close to a cash basis, tax the capacity of many plants, spread activity to other lines and make for competitive bidding for skilled labor, hence, unempleyment is steadily decreasing.

At the same time crop news is favorable and the indicated yield of wheat sukgests another record crop. The decision rendered Thursday, denying dissolution of the United States Steel Corporation, would receive greater attention but for international affairs. All in all, business for future delivery is growing steadily, though perkaps slowly, and at most places it is ahead of last year, when trends in general were downward. Collections in the major part of the country are about fair. Mensy is easy, Road safes, especially in the interior, are increasing and mail order trade is much better than a year ago.

Bank clearings for the week are \$3,073,-446,000, an increase of 2.3 per cont over last week.

ECPFEER VISIBLE SUPPLY DECREASED NEW YORK, June 4.-Bradstreet's will

points under some scattered realising, inspired by early reports of a decline in Brasilian exchange, Later cables from Brazil
however, reported that exchange was excited
and advancing, while firm offers were
higher and prices here railled sharply on
obvering, trade buying and some little support from Wall street sources. The close
was at a net advance of 10 to 12 points.
