Banks to Be Closed Friday.

Portland banks will remain closed all day Friday of this week, that date being set aside as a legal holiday by Governor Withycombe by proclama-tion. The reason for this business rest is to permit all to participate in the Portland Rose Eestival, next Friday being the date of especially interest-ing ceremonies and pageants.

Rev. Henry Marcotte, pastor of the Vestminster Presbyterian Church, who returned from the East on Friday, will meet tonight with the session of the church and will announce his decision regarding the offer he recently received to become secretary of church direction in university centers. According to the belief of several who are in touch with the workings of the church there is a strong possibility that Dr. Marcotte will accept the offer.

The honor accorded Dr. Marcotte is one of the greatest that could come to any man in church work, for the office "To my mind our industrial situation is bound up in the war, and when the armies decide to stop fighting we will all have cause to give thanks, not only from humanitarian reasons but from the material viewpoint as well."

This now will be an item of daily expense on the account of the Southern Pacific agent at Lebanon.

Recently a forlorn cat strayed into the Lebanon station. The boys about the place began to feed it scraps from their lunch.

Simultaneously with the cat's appearance, it became apparent that the mice in the station building were disappearing. Soon the merchandise

mice in the station building were disappearing. Soon the merchandise handled through the station began to suffer less from the maraudings of hungry mice. The company's claims were reduced accordingly.

Officials of the Southern of the station began to state meetings of G. A. R., W. R. C. and four other patriotic organizations, which will be held here jointly from June 21 to 26.

Officials of the Southern Pacific realize that to keep a cat about the place is a good investment and have authorized the agent to "squander" not to exceed a nickel a day for milk.

George L. Baker will have to do some more ad ertising if he wants to get himself recognized in New York City and other of the "rural districta." A few weeks ago the Rose Festival committee, in sending out some publicity matter for this year's Festival, used a picture of the queen of last year's Festival, together with her maids, and Mr. Baker, who was director-in-chief last year.

One of these papers, with the names of each individual in the group prop-erly attached, was sent to a New York paper.

The child was put under an anaesthetic, the crooked limbs broken, and then re-set and placed in plaster of the farmer, is the chief note of optimism sounded in the letter on trade onditions issued by the Merchants National Bank for June

It is asserted that this is the one feature of the entire outlook about which there need be no reservation. Due to the traffic in war supplies, it is said that the foreign trade for April made a record for the month and nearly equaled the record-breaking business of March in this line. The increase in the balance of trade for the month amounted to 1174 and 200 month amounted to \$134,000,000, making the total of this item for the 10 months of the fiscal year \$851,000,000. England Orders Lumber.

In discussing conditions in the Pacific Northwest, the report says: In discussing conditions in the Pacific Northwest, the report says:

In keeping with conditions in other parts of the country the Pacific Coast and the Pacific Northwest are marking time and waiting for a change in underlying conditions over which they have no control. The lumber trade is contending with a general falling off in new construction, high ocean freight rates and low prices. Yet on the whole the operators are more cheefful than a while back, Some mills are working at about 80 per cent of their output on English orders in spruce. As fast as vessels can be obtained shipments are made to the Atlantic Coast and to Europe. The volume of the retail yard business and prices for this class of stock are practically normal. One railroad during the past month ordered 6,000,000 feet of ties, Gains are being made in the trade with the West Coast of South America.

The future trade in salmon is most promising. Opening prices for this season were firm. It is believed the volume and quality of the pack will justify higher prices than prevailed during last season.

Agricultural implement houses are finding business much improved.

Hop men are not in the least depressed. They believe that their trade with England will be very large this season and that all of the factors of the war are tending toward better prices and a wider market. Crop conditions are good. Members of six school boards will meet tonight in the Milwaukie school-house to consider organizing a union high school, with Milwaukie School as the center. The districts affected are Milwaukie, Wichita, Oak Grove, Concord, Harmony, Sunnyside and Ardenwald. State Superintendent Church-ull and County Superintendent Collayen.

Wool Is Being Held. W. W. Eaton, of Yacolt, is at the are are

what later than usual. Due to the feeling that Fastern buyers are banded together to keep down prices, when the general belief is that they should be higher, the growers are in no hurry. In this section also they are being advised that there is an unusual shortage in the world's supply. All of these conditions are responsible for the few sales that are being made. The losses due to the cold spell of the early part of the month are said to be negligible and to have been much exaggerated.

In individual cases business was fair last menth in the territory tributary to Portland, but as a general thing, due to the cold weather which accompanied the rain, retail business suffered by comparison with both April and March. The statistics dealing with Portland's business transactions are generally adverse, the falling off being especially noticeable in the export of wheat. This was due to a scarcity of shipping, a condition which it is believed will be remedied during the coming month.

The volume of tourist travel is just beginning to make itself felt both in the stimulation of retail business and the general spirit of cheer which Easterners are bringing with them. Portland, during the next three months, will entertain officially and otherwise many thousands of visitors from all parts of the United States, She will extend to them a hearty welcome and offer them her hospitality with an ungrudging hand.
