PORTLAND, MONDAY, JUNE 7, 1915.

TODAY'S ELECTION.

Today will be the second election under the commission charter of Portland. There are important issues to be defeated.

be settled and three offices to be filled. Voting on referended measures has ceased to be a novelty in Portland, but there is still somewhat of a feeling of unfamiliarity with the preferential system which applies to candidates. It is the intent in applying the preferential plan to secure the election of officials who are acceptable to a majority of the electors. The plan is based on the assumption that each voter may find in the list of candidates three men whom he considers worthy of election to a given office.

year is not large. It is likely that therefore a negative vote. many will have no second or third choice to express. It is quite genenoice to express. It is quite gen-erally conceded that the voter is unwise to cast a second or third choice vote for any candidate who, in his epinion, is unworthy, but that in the ply because it wanted pure mountain out of the Treasury surplus. It would event he believes more than one candidate is qualified and fit for the office he seeks, it is wise to vote more delivered by gravity. It abandoned add a startling sum to the National than first choice.

As to candidates the voter has for his guidance only what he has been able to learn as to personal qualifications. What is meant herein is that there are no pronounced policies to chemical treatments and with a limwhich candidates are committed which ited water supply. If we go to mewhich calculates all to the for the develop-will stand or fall in accordance with ters, why not go back to the river for ufacturers to combine for the develop-the identity of the men elected. Tacoma is primitive.

proposes that the poor shall be placed on exact equality with the rich in the use of water.

Another referended ordinance proterms it is milder than any similar aw in force in any other important city. It contains no bonding provision, but requires the jitneys to define their routes and operate over them during certain periods of the day, imposes inspection of autos used in the jitney service, prevents operaion by incompetent drivers and establishes a restricted district in the congested center of the city. It is

the interest of public safety and convenience ought to pass.

The third referended ordinance disriminates against the sale of groceries on Sunday. It permits the sale of onfectionery, tobacco, milk, fruits and bakery goods. It is invidious, and for that reason, if for no other, ought to

There are two annexation issues to be decided by the voters. The pro-posals to admit St. Johns and Linnton will each appear on a separate ballot. The Oregonian is convinced that the St. Johns merger is a wise procedare, but it offers no advice as to the admission of Linnton. The voter should not fail to remember that these two questions will be decided by a the ballot. A state law governs, and Portland unless the affirmative votes constitute a majority of all votes cast

WATER, HEALTH AND BEAUTY. Portland abandoned the Willam-

> NEW EXPENSES IN PROSPECT. With the Treasury deficit growing,

ew causes of expense for the United vides for regulation of the jitneys. In States are constantly appearing. To deficit after the income tax is collected we must add \$15,000,000 for the five per cent rebate on duties, and unless the free-sugar clause of the Under-wood tariff is repealed before next May, we must add \$35,000,000 for lost sugar duties. If present conditions continue, the deficit, which threatens to be \$45,000,000 this year, will be

nore than fair to the jitneys, and in nearer \$80,000,000 next year. Aside from the proposed additional expenditure of \$30,000,000 for Government ships, which we can avoid, we are threatened with other expen-

ditures which we cannot avoid. We are really only beginning to spend money on Mexico. If reports as to the general prevalence of destitution are approximately correct, the feeding of the hungry will be far beyond the resources of the Red Cross. The Government will probably provide the food and use the Red Cross as a disstop there, or our relief would be a nere makeshift. We should need to rovide seed for the next harvest and work is done as it should be, and in then to protect the crops from destruction by contending armies. That would different method than any others on require a considerable army, even if we did not undertake the general pacineither community will be admitted to fication of the country, and would cost many millions. HOW SEATTLE WAS BUNCOED. Neither Meters Nor Garbage Scheme Has Been Beneficial.

Seattle Argus.

Washington — The appointment of harles M. Ogden as receiver of the cattle Land Office will be made in a or days commendable. Had the same fight been unde fm this city a few years ago, hundreds of thousands of dollars would

have been saved. An attempt is being made in Portland to install water meters. Seattle has meters. In this city at first their use

was not compulsory, and so nobody

million dollars has been expended by Seattle for meters, and before the city shall have grown to such an extent that we will not have more water than we need, they will have worn out and

will have to be renewed.

And while this was being done, the ity instituted a municipal garbage make them sit up and take notice. then they deserve to be buncoed. The

on her and made herself powerful here. There will perhaps be an explosion when Pakin realizes this." only people who will benefit by the metering of water are the people who sell the meters, and the only ones who sell the meters, and the only ones who will benefit by the "unmetering" of garbage will be those who get fat jobs working in the garbage depart-

ment, and the politicians who, by givment, and the politicians who, by giv- invitation to deliver the ing out those jobs, help to build up July oration at Corvallis.

of a half million dollars' worth of useless junk to the city.

PUBLIC PROSPERITY IS MENACED

Scheme Retard Progress.

into the sewers. Let the city have this water. We have but three months of really dry weather in Portland at most, dur-ing the year, and I do not believe, with our annual rainfall, and the meilting snow, with our many streams, that if the great waste was stored up in reser-voirs, and the money properly used, with good management, that Portland need ever have meters. Which is the better way, the people to have free and illberal use of this water, nature's bless-ing, or let it pass away into the rivers.

Half a Century Ago

From The Oregonian of June 7, 1865. Charles S. Ringgold and Miss Mary Dullard, of San Francisco, were

ried in Portland, June 3, by Rev. Father Fierns.

It will be remembered that the Portuguese authorities some time age fired upon the United States ship Niagara in the harbor of Lisbon because it was insisted that that vessel pounds. San Francisco—The following is con-tained in a letter from Seoul, Corea, concerning the political tempest in which O. N. Denny, ex-Police Judge of Portland finds himself: "Mr. Denny's engagement is con-cluded and he has been process and the port is con-cluded and he has been process and the port is con-cluded and he has been process and the port is con-cluded and he has been process and the port is con-cluded and he has been process and the port is con-cluded and he has been process and the port is con-cluded and he has been process and the port is con-cluded and he has been process and the part is con-cluded and he has been process and the process and the process and the port is con-cluded and he has been process and the process and t salute the United States flag.

The recent orders of the War Department curtailing military expenses has effected a reduction of \$500,000 a day in the outlay of money by the department.

New York-General Lee will be indicted by the grand jury at Richmond within a few days for treason.

The Governor of Illinois has received from the widow of Senator Douglas, for \$25,800, a deed of the lot in Chicago where he lies burled. A magnificent monument will be erected.

Yesterday a fine span of sorrel system. Under that system thousands of owners of small homes who have usually burned much of their garbage find it easier to have it all hauled away by the city. It costs nothing, why and by the city. It costs nothing-why not If this situation, when dished up in this way to Portland people, does not make them sit up and take notice. cords of his right forleg severed.

employment at any price and when many business men have been com-pelled to cut down the number of their Workingmen's Club Gives Its Winter Record and Plans for Summer. the meager force kept, all of which must be well known to those at the head of our city government, it would

PORTLAND, June 6 .-- (To the Edior.)-I have thought that perhaps a great many of our citizens might feel great many of our citizens might reen interested in knowing something of what has been done by the Working-men's Club, of 271 Front street. Since it has been started we have served 125,000 substantial nickel meals, of which about 5000 have been given gratuitously to those in absolute want. We have is connection with the club

apply to us.

the Mayor and Commissioners get, they would have something akin to a friendby feeling for others not so situated and act like good business men do-purtail all unnecessary expenditures in hard times. E. H. GRUBER. We have in connection with the club a free employment office, where every assistance is given to help men to find Annexation of Suburbs Urged.

PORTLAND, June 6 .- (To the Edwork, and we are always glad to do tor.)-Although election day comes on our best to supply efficient workmen to those employers of labor who may Monday-a home - day for ladies-I

hope they will make special effort to The large floating population which we had with us during the Winter has mostly drifted away, and those to to give them a cordial admittance by to give them a cordial admittance by Adjoining the city. a strong vote. Adjoining the city, Linnion has a long strip of splendid territory for first-class scenic develop-ment-something Portland will be produ of even more and more, and later. when you spin along the splendid bou-levard now being built 500 feet above Fair weather should bring out a large vote. Let the womenfolk have thave should bring out a large vote. Let the womenfolk have thave should bring out a large vote. Let the womenfolk have thave attraction of the purpose. This I take to aim principally at our the whole afternoon for the purpose. Not one citizen in a thousand knows how beautiful this city is just now, with its million bushes in full bloom. If the latest John Jacob Astors living costs \$30,000 a year in infancy, now on top of this, they are not citizens. Just because our people, who are industrious and enterpristive and leave that hever get into provide against because the sease they are not citizens. Just because our people, who are industrious and enterpristive and privileges of citizens and enterprist to make any reals. The Maharajah of Karputhaia hould have been robbed of a million and get into yaudayilie. the river, you will exclaim: "This is Portland, great Portland!" Then with the lower Linnton or St. Helens avenue

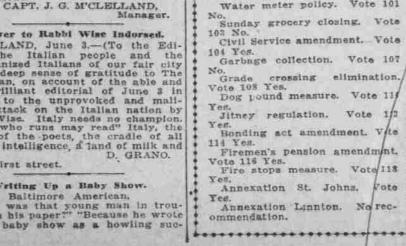

men are unable to get the money with which to meet their obligations; when
