

DISAPPROVAL OF MILITANCY VOICED

National Suffrage Association Declares Against Attacks on Party in Power.

METHODS HELD HARMFUL

Resolution Unanimously Adopted That Body Is Unalterably Opposed to Policy of Congressional Union.

CHICAGO, June 7.—Disapproval of the Congressional Union was voted today at the first session of the mid-year conference of the National Woman Suffrage Association.

Attitude Is Chief Topic.

The attitude of the Congressional Union in opposing political parties which oppose suffrage at Washington furnished the main topic of the day, and the discussion was continued into an extemporaneous night session. The subject is expected to come up again tomorrow.

Originally the union was a part of the association, but the parent body no longer recognizes it except as an organization whose so-called militant methods are regarded by the association as inimical to the cause of equal suffrage.

The only chance the union had for recognition disappeared when a resolution, introduced by Mrs. T. W. Youmans, president of the Wisconsin Woman Suffragists, proposing arbitration on the subject, was tabled.

Steam-Boiler Methods Charged.

Mrs. Youmans, indignant in connection with the loss of her resolution, accused Dr. Anna Howard Shaw, president of the association, with "steam-roller" tactics in declining to allow discussion of the resolution after the motion to table had been made by Mrs. Stanley McCormick, of New York.

Big Delegation Present.

Among state presidents in attendance at the first session were Mrs. Walter McNab Miller, Missouri, and Mrs. Draper Smith, Nebraska. The representation of the South was unexpectedly large, while the West and other Eastern states, where the women are fighting for the ballot, sent restricted delegations.

Mrs. Miller was garbed in the simple blue gown "any woman can make," which she said the woman suffragists of Missouri have adopted as a protest against the rapid changes of fashion. She was asked many questions concerning it.

LINCOLN HIGH VICTOR

DEFEAT OF PORTLAND ACADEMY ITS FIRST OF SEASON.

Result Puts Rallspitters Into First Place in Interscholastic League, With Only One Game to Play.

IMPERIAL BOUT TONIGHT

FARLOW AND CROSS TO FEATURE CLUB'S SECOND SMOKER.

Valley Trambetas and Al Sommers to Appear in Semi-Windup Event. Other Entries Promising.

If nothing goes awry Manager Charles Jost, of the Imperial Club, will stage one of the best boxing cards ever put on at 45 Union avenue tonight. He has lined up five crackjack bouts for the second smoker to be held on the East Side by the Imperial Club.

Frank Parslow and Leo Cross will appear in the main event, with Valley Trambetas and Al Sommers furnishing the semi-windup. This quartet of welterweights represents the best material in the state and the two bouts should prove hummers.

The other three bouts also are promising.

"Carman" Syverson again will battle Jimmy Moscow, the hard-hitting South Portlander. These boys fought a draw recently and both have worked hard for this match.

Abe Gordon, the clever 109-pounder, who has not appeared here for some time, will get in action against "Tough" Winger. Winger is a gritty youngster. He met and lost to Jimmy Howe, the Chinese boxer, at the last Imperial show.

Wing Wang, the much-touted Chinese

boy, will also be seen in action for the first time. Wang has received much publicity, but has yet to make his first appearance in the ring. He boxed Abe Attell several exhibitions when the latter appeared at the Orpheum some time ago, with their bouts being matched up for a go until now. He will buck up against a hard boy in Willie Campi.

Just announced yesterday that Jack Grant, the Portland favorite, in all probability would be the referee of the five set-tos. The first bouts will start at 8:30.

Ralph Gruman, the Portland light-weight, is taking a little rest at New Dorp, Long Island, according to a letter received yesterday. The former Portlander has had excellent luck in his battles in Gotham and says he has matches lined up with Gilbert Collins, Eddie Murphy and Yella. He says his recent scheduled meeting with Sam Robideau was postponed until a later date, as Robideau had fought a hard 15-round go with Johnny Griffiths, the Akron light-weight, a short time previous to the scheduled bout with the seaman and was not in shape for the later match.

He also declares that had his recent fight with Phil Blain gone through the knockout route.

SALT LAKE'S TEAM DUE

BLANKENSHIP OUTFIT IS SURPRISE OF COAST LEAGUE.

Coveleski Likely to Start Game for Portland, as He Appears to Be Entire Beaver Pitching Staff.

Salt Lake will be the baseball attraction at Coast League Park this week, the sales opening this afternoon at 3 o'clock, or a few minutes thereafter. This Salt Lake outfit is the one which has been surprising everybody up and down the west bank of the Sierras.

Cliff Blankenship took practically the same old outfit that finished so poorly for Sacramento last year, threw in a cog here and there, and it is now battling near the top of the heap and still going up.

Blank's team was known to hold a good punch in nearly every bat, but his pitching corps was not expected to hold up as well as it has. Bert Hill seems to be delivering in big league packages, and the Indian, La Roy, is also coming through in good shape.

Following their first visit here early in the year the Salt Lake club officials came south and gave out a hard knock on Portland to the newspapers. This did not add to their popularity here, particularly coming from a new city in the league. However, the Lakers are playing good ball and are entitled to the patronage of the fans.

For Portland, the Spokane Pole is about the one best bet on the team nowadays. Judge McCredie called his bluff on the telephone the other day and queried:

"How is your pitching staff now, Walter?"

"He's fine," replied the Portland manager.

"He's fine?" asked Judge McCredie. "What do you mean?"

"I mean Coveleski," shot back his nephew. "Coveleski seems to be the only pitcher who can last a game."

Brooklyn Peds Win Twice

Baltimore Beaten, 4-3 and 3-2, Last Game Going 10 Innings.

BROOKLYN, June 7.—Brooklyn won a doubleheader from Baltimore today, 4 to 3 and 3 to 2. After Baltimore tied the score in the first game in the eighth, Seaton won it for Brooklyn with a single in the ninth after his teammates had filled the bases. The second game went 10 innings after a pitchers' battle between Marion and Bender. In the 10th with two out and Kauff on first, Evans dropped a Texas leaguer back of second and Kauff scored on a wild throw to third. Scores:

First game: R. H. E. R. H. E. Baltimore . . . 3 5 2 Brooklyn . . . 4 10 0 Batteries—Smith, Bailey and Jack-Hitch, Owens; Seaton and Pratt.

Second game: R. H. E. R. H. E. Baltimore . . . 2 4 3 Brooklyn . . . 3 8 1 Batteries—Bender and Owens; Marion, Upham and Land.

Kansas City 1, St. Louis 0.

KANSAS CITY, June 7.—Kansas City went to first place in the Federal League race today when Packard won a pitchers' battle from Davenport of St. Louis, 1 to 0. The local run came in the eighth when Shaw tripled and scored on Goodwin's single. The game was played in 1 hour and 19 minutes. Score:

R. H. E. R. H. E. St. Louis . . . 0 5 1 Kansas City . . . 1 3 0 Batteries—Davenport and Hartley; Packard and Easterly.

Norris and Wells Victors

46 Games Required to Beat Webster and Frohman in Tennis Tournery.

It took 46 games for A. D. Norris and H. P. Wells to beat Webster and Frohman in the annual Spring handicap tennis tournament of the Multnomah Club, played on the club grounds yesterday. M. Brown and P. Downard defeated P. Johnson and L. C. Beverly 6-1, 6-4.

Three single matches were played in which M. Brown defeated H. Hendrickson, 6-3, 6-1; James P. Ewing defeated D. P. Cotton 6-4, 3-6 and 6-2, and R. L. Heustis beat R. C. Kirk 6-4, 6-2.

P. CLARK DIES AT 65

Spokane Mining Man Victim of Heart Disease.

END COMES UNEXPECTEDLY

Born in Ireland, America Reached in 1870 and Wealth Result of Association With Marcus Daly in Nevada and Butte.

SPOKANE, Wash., June 7.—(Special.)—Death from heart disease claimed Patrick Clark, millionaire and pioneer mining man, at his home at 1:30 o'clock this morning. His immediate family was at the bedside when death came.

Though a sufferer from heart trouble for several months, the death of Mr. Clark was entirely unexpected. Sunday evening he had a late dinner with the family and spent the evening on the porch of his home.

When about to retire near midnight he had a weak spell, but seemed to rally in a short time. Later he had a more severe attack and Dr. F. Pope was summoned, but Mr. Clark passed away before the arrival of the physician.

Mr. Clark enjoyed excellent health until he suffered a recent attack of grip. This resulted in a weakened heart, according to his physician.

Mr. Clark is survived by his widow and six children, Mrs. Harry A. Richards, P. W. Clark, John F. Clark, James H. Clark, Miss Rhea Clark and Miss Katherine Clark.

Mr. Clark was born in Ireland 56 years ago. He came to America first going to California and later to Virginia City, Nev. From Virginia City he went to Ophir, Idaho, where he was first employed by Marcus Daly.

From Utah he went to Butte, where he followed mining with Mr. Daly. In 1881 he was married in Butte to Miss Mary Stack.

In 1888 he came to the Coeur d'Alenes and Spokane and started operations in the Stocan and Rossland camps in British Columbia.

Funeral arrangements will not be made until the arrival of his eldest son, coming from the British Columbia properties.

St. Patrick's Day was the great day on the calendar for Mr. Clark. He was christened Patrick because he was born that day. His marriage occurred on the anniversary of his birth, and their first child was born on the same anniversary and also named Patrick.

PAVING REPORT LENGTHY

CHAMBER COMMITTEE FAVORS WARREN PAVEMENT.

Trials Units of Wood Block With Brick or Stone at Sharp Curves Proposed for County Roads.

After compiling 455 typewritten pages on the findings of its investigation into the merits of the various proposed pavements for city and inter-urban improvements, the special committee of the new Chamber of Commerce has condensed the report to 45 typewritten pages and submitted it to the trustees.

The committee makes a partially favorable report on wood blocks, if for the present it is constructed in units of not more than a mile each for experimental purposes; declares for brick or Belgian blocks on sharp grades and curves; recommends the use of Oregon stone as much as possible to the furtherance of an Oregon industry and recommends "that the Warren pavement be employed on the majority of the miles for the contemplated hard surface improvement of the county."

The committee understands that the trustees of the Chamber of Commerce have adopted a resolution favoring a trial of wood block pavement" reads the report.

Under these circumstances your committee feels that the trustees have acted upon the special matter of the wood block pavement so that it need be said further. Your committee is unanimous that experiment be made with wood block provided it be definitely decided that Douglas fir is the equal of long leaf yellow pine as paving material."

The report says that the committee is not a unit on the value of Douglas fir as compared with yellow pine. The report adds:

"With reference to wood block pavement, however, we think that the experimental pavement should be confined to units of one mile each and on different roads and that the experiment be limited to three miles of wood paving. In view of the fact that this pavement in its cost will exceed other standard types it is thought advisable that the difference in cost be taken care of by those interested in the wood block pavement."

On general recommendations the report reads:

"Your committee further recommends that the Warren pavement be employed on the majority of the miles for the contemplated hard surface improvements of the county. In arriving at this conclusion, your committee hesitated somewhat in this recommendation as against an asphaltic concrete pavement of the Topeka specification, and its preference for Warrenite over Topeka is due to the fact that it has been unable to ascertain what the cost of maintenance of the Topeka pavement would be, measured by the minimum period of 15 years, which your committee believes should be the basis for determining the maintenance charge. If, however, pavement of the Topeka specifications is to be considered, the question of type of foundation becomes an important one. It would seem to your committee that this pavement, if requiring a new foundation, should have a foundation of either a concrete base or its bituminous base, which, of course, would eliminate a crushed rock base. Your committee is of the opinion, however, that if the Topeka specification pavement were to be used on the roads at the present time improved with macadam, that the macadam base would furnish a sufficient foundation for this pavement. To emphasize again the point of your committee, it eliminates asphaltic concrete of the Topeka specifications and gives preference to Warrenite purely upon the ground of lack of information with reference to the probable life and cost of maintenance of the pavement of Topeka specifications."

Judge's Widow Dies of Grief.

ROSEBURG, Or., June 7.—(Special.)—As a result of grief, Mrs. J. T. Bloomfield, of Oakland, died today. Her husband, Judge Bloomfield, died at Oakland last week. He was one of the oldest Odd Fellows in the United States.

New Postmasters Named.

OREGONIAN NEWS BUREAU, Wash.

Back From The Firing Line

First Aid to the Wounded.

Paris, June 7.—At almost every station on the railroads you will see men shattered and wrecked for life, men who must face the future horribly mutilated, and yet they accept their fate without a murmur of complaint or bitterness. It is the same in England, in France and, I suppose, in Russia, that all soldiers are bearing their sufferings with the greatest of fortitude.

The best aid these men have is within themselves. The human body will bear resist infection from bullets when it is healthy, strong, active and with all of its functions fully alive and working. The best aid to this condition is a vegetable tonic and alternative that will first put the stomach and blood right, for these are dependent on one another. Good stomach means good blood, and likewise good blood means good stomach.

Dr. Pierce's Golden Medical Discovery helps the stomach to do its work naturally and properly, stimulates the liver. The system is freed from poisons. The blood is purified. Every organ is rejuvenated. This "Medical Discovery" of Dr. Pierce, is free from alcohol or narcotics. It is made from the roots and herbs of America's forest plants with triple refined glycerine, and is the best blood purifier, because it banishes from the blood all poison and impure matter. It dissolves impure deposits and carries them out, as it does all impurities through the bowels, kidneys and skin. If you have indigestion, sluggish liver, catarrh, unsteady nerves, or a pimply skin, get Dr. Pierce's Golden Medical Discovery today and start at once to replace your impure blood with the kind that puts energy and ambition into you and brings back youth and vigor.—Adv.

DEMURRAGE RULE ASKED

Higher Penalty for Cars Held Is Urged to Prevent Shortage.

SALEM, Or., June 7.—(Special.)—Announcing that there is a limited number of refrigerator cars for moving the fruit crop, the Pacific Northwest Demurrage Bureau today petitioned the State Railroad Commission for an increase in demurrage charges on such cars on the following lines: Corvallis & Eastern, Great Southern, Northern

Pacific Terminal Compa., J. Northern Pacific Railway, O.-W. R. & N. Pacific & Eastern, Pacific Railway & Navigation Company, Portland, Eugene & Eastern, Portland Railway, Light & Power Company, Salem, Falls City & Western, and the Southern Pacific.

The present demurrage charge is \$2 for every day the cars are held after the expiration of time allowance, and

the bureau asks that it be for refrigerator cars \$2 each for the first three days, \$3 each for the succeeding three days and \$5 each thereafter. It is declared that the charges asked will insure quicker loading and unloading of cars and will prevent dealers from using them as places of storage as has been done. The Commission will render a decision as soon as possible.

the bureau declaring that action should be taken quickly to insure prompt transportation of fruit.
