

BIG 'AUSTRIAN GUN' EXCELS GERMAN'S

Unmistakable Signs of Enormous Power Seen in Path of Victorious Army.

SHELLS USED SPARINGLY

Missile Weighs More Than 2500 Pounds and Costs \$800—Horses and Men Blown to Pieces by Compression of Air.

TARNOW, Austrian Galicia, May 11.—(Correspondence of the Associated Press.)—The German 42-centimeter mortar, with which the Russians are reported to have been as effective as the Austro-Hungarian weapons of the same caliber—two of which were used against the Russian troops in Tarnow in the great May fighting in Galicia.

dition has not only been neutral, but it could not have been otherwise without a palpable and intentional violation of the rules governing neutrality.

COMMANDER-IN-CHIEF OF ITALIAN ARMY NOW IN FIELD.

While the attacks made upon the President by the extremists of both sides were unjust, it is equally unjust to suspect the patriotism of those who took sides. I feel well enough acquainted with the European-born Americans to believe that in a war between this country and any European power, the naturalized citizens from that country would be as quick to enlist as native-born Americans.

ENTER SWAMPS HOUSE.

In Tarnow one shell struck a peasant's house of brick. It is now a mere mass of bricks, curiously level with the ground, house and all having apparently been swallowed up in the crater made by the bursting shell.

administration. The Administration's position is not only desirous of peace, but he hopes for it and he has adopted the methods which he thinks most likely to contribute toward peace.

President Desires of Peace.

"The President is not only desirous of peace, but he hopes for it and he has adopted the methods which he thinks most likely to contribute toward peace. My difference from him is as to whether it is to be by negotiation or by force.

Horses and Men Destroyed.

Another shell struck the cavalry barracks in the great courtyard, in which Russian soldiers at the moment were busily unloading their equipment of the retreat. Horses and men were blown to pieces by the air pressure from the explosion or killed by the shower of bricks, roof and fragments of shell.

Attachment Declined Not Disloyalty.

Mr. Bryan's statement follows: "To the German-American: Permit me to address a word to you as one American citizen speaking to fellow citizens in whose patriotism he has entire confidence. It is natural that in a contest between your fatherland and other European nations your sympathies should be with the country of your birth. It is no cause for concern that this is true; it would be a reflection upon you if it were not true.

British Case Different.

"Third—Do not attempt to connect the negotiations which are going on between the United States and Germany with those between the United States and Great Britain. The cases are different, but even if they were the same it would be necessary to treat with each nation separately.

POSTMASTERS END MEET

Portland Again Chosen for Session During Festival Days.

The Presidential Postmasters' Association of Oregon finished its convention here last night with a banquet at

Foreign and Domestic Commerce,

who is in Chicago observing local conditions and consulting with exporters and importers, in a statement, declared today that Minneapolis is the most prosperous city in the United States and that Kansas City is second.

The convention is voted by the postmasters the most successful they have ever had.

The executive committee of the association already has selected Portland for next year's convention. Although the date has not been settled, it is likely to be held on the Rose Festival days again, giving the postmasters and their families the chance to combine business with pleasure, besides the advantage of reduced railroad rates.

Minneapolis Most Prosperous City.

CHICAGO, June 11.—Dr. Edward E. Pratt, chief of the Federal Bureau of

Chicago Observing Local Conditions

Members of the Illinois National Guard patrolled the streets of Johnston City today, and there was no further sign of trouble there.

The trouble at Whitewash and at Johnston City was the culmination of a series of lawless acts, including several murders, which have been attributed to the foreign colony, members of which are employed in the mines near here.
