DAVENPORT, Wash, June 14,—(Special.)—'In never have seen such a fine prospect for grain," said E. N. Imus, a banker, who has just returned from a wide tour of the Rotary and Electron at the Big Bend country. "In traveling more than 300 piece of grain that was not top notch, bearing a few fields that were weedy with mustard. The farmers everywhere pronounced the crop as the best prospect in the history of the country," said Mr. Imus. "There is, of course, much uncertainty as
to the price. The best judgment of grain
buyers is that the crop last Fall averaged
about 90 cents a bushel to the farmers. On the great bulge in price in the early Spring the price of bluestem went up to \$1.45 or better. Since the German submarine em-bargo on English imports became effective the price has tumbled until it now is as low as 80 cents for wheat that formerly would

have sold for \$1.45,
"Aaron Kuhn, president of the Spokane & Rastern Trust Company, who is one of the oldest and most experienced grain buyers in this field, announced in April that he was confident that the 1915 market would work at 80 cents and might so blicker. At 80 at 80 cents and might go higher. At 80 cents even, the surplus now indicated would bring in \$34,000,000 as against \$31,500,000 for the last year crop, figured at 90 cents.
