MORE BLUESTEM IS SOLD

In Jess Willard's life story—written by himself on somebody else's type-writer and beautifully hung together in a weave of fact and fiction, we find

Market for Oats Is on Market for Oats Is on Firmer Basis.

CHICACO, June 15.—Chicago shut out Boston 4 to 0 today and again tied Philadelphia for the lead of the National League. The Cubs bunched their hits in the second and sixth innings and scored their runs then. Vaughn pitched well in the pinches and kept the visitors hits well scattered. Smith made four hits out of four times up. Eight Bostonians were sent to the clubhouse for baiting Umpire Quigley.

Best Score:

The Closing of a deal for the shipment of a large quantity of wheat to Viadivostok will aid much in cleaning up the surplus supply left here. There is a fair demand on the market and prices are holding quite steady in spite of the crumbling of values at Chicago. Ten thousand bushels of July blustern the complete details of the mixup. McLean knocked a couple of his antagonists down, but Kinsella and McGraw and Dick Kinsella and McGraw hroke the legs of some lobby chairs and preceding day. The

aiready reached 13,936,094 barrels, worth \$70,058,695.

Terminal receipts, in cars, were reported by the Merchants' Exchange as follows:

Amsterdam was the only foreign market to manifest any degree of steadiness, a fact ascribed to the purchase of bills on Holland by local hankers who are assumed to have liquidated more American securities for German holders.

There is an increasing realization that rates of exchange between New York and all leading European points must inevitably suffer further depreciation unless London and Paris seon replenish their credits here. Rumors of the piacing of a large part of a fortherming British war loan here are defined by those in authority. French bankers and Paris seon replenish their credits here. The opening was unchanged to 6 points higher on a little bankers who are assumed to have liquidated more American excurities of foreign market more paralized to he negotiation that rates of exchange between New York and Paris are reported to be negotiating the sale of large amounts of our securities

NEW YORK, June 15.—In its broader and more substantial aspects, today's further depreciation in foreign exchange, with new low records between this center and London and Paris, outweighed all other financial developments. Demnard sterling declined to \$4.76%, against the previous low record of \$4.77%; and French checks, or demand bills on Paris, sold at \$5.8 3.5, a break of 1% from the previous record.

Other continental exchange, with the sole exception of Amsterdam, was weak, but did not duplicate recent record quotations, although remittances on Rome fell to within the smallest fraction of their minimum.

Establishment of these records is the more alignment of \$2,500,000 gold was received from Canada and an addition of \$750,000 of the metal was acquired at Tokio for immediate shipment to this country.

Stocks moved contrarily throughout the session, war shares making further gains, while the representative issues, particularly the rallway division, were irregular when not heavy.

Westinghouse Electric was the leader from start to finish, the transactions in that stock for outstripping any other Issue with a maximum gain of four points.

Reading's heaviness, together with other shares in the international group, was associated with the slump in exchange, which was reported to have caused a recurrence of foreign selling of these issues. Coppers were not exempt from the pressure, which became more general at the close. Total sales amounted to \$57,000 shares.

Resumption of dividends by the Granby Mining Company offered further evidence of a betterment in the copper industry, large as also of the refined metal being again reported at 20½c. Lead beid steady at its new high price of 8 cents.

The bond market was irregular with weakness in some of the convertible copper is as in s

change Rates.

NEW YORK, June 15.—The prominence and importance of this country as the temporary center of world finance was again demonstrated today when English and French rates of exchange manifested greater weakness than at any time since New York entered seriously into the field of international banking.

Demand sterling declined to 4.75% and checks on Paris were sold at \$5.45%. This puts the buying power of the English pound and French franc in this country at the lowest levels recorded in more than 50 years, and offers additional proof of the enormous quantity of credits held by American bankers and manufacturers, mainly as a result of the large war orders now under contract.

of the large war orders now under con-tract.
On the basis quoted today an English pound shows a depreciation of 2 per cent and francs are at a discount of almost 4 per cent.

Exchange on other European countries ap-proached recent low quotations today, ital-ian remittances, on light exchanges, showed a discount of about 15 per cent, while the rate on Petrograd was quoted at a discount of 24 cents. No actual transactions between this market and the Russian capital were reported.

year.

Tokio reported an additional export of \$750.000. Increasing the flow from that quarter to about \$9,750,000. It is possible that a temporary adjustment may be effected tomorrow in view of the Bank of England's release of \$10,000,000 foreign gold coin, pre-MINNEAPOLIS, June 15.—Barley, 622 69c. sumably for shipment from that country,

Wheat Sells Down to Dollar Mark at Chicago.

UNLOADING IS EXTENSIVE

Resales Are Made in Great Britain on Basis of Still Lower Prices. Improved Weather Reported in Winter Crop Belt.

CHICAGO, June 15.—Flattening out of the export trade had such a bearing ef-fect today that wheat fell as low as \$1 a the export trade had such a bearing effect today that wheat fell as low as \$1 a bushel, September delivery. The market developed but little power to react, and although steady at the finish, was 2½ to 3½ co 3½ co moder last night. Corn closed 1½ co 1½ co down, oats ranging from 1c to 1½ co 1c.

It seemed plain, even before the start, that Europeans had taken an attitude of indifference 1 ward wheat supplies at present from the United States. Liverpool quotations were sharply lower, and it was said that re-sales were being made in Great Britain on a basis of 95c for the Chicago September option, with no allowance regarding the position of exchange. The result was that when the market here opened it was difficult to say whether the iongs or the shorts were the most vigorous in pressing the selling side. Stop-loss orders proved numerous and no adequate support was encountered until the set-back reached the dollar mark.

Improved weather for the harvest in Oklahoma, Kansas and Missouri seemed to be looked on as more than an offset to any damage inflicted by front in the Spring damage inflicted by front in the Spring wheat states. Bulls were further discouraged by increased country offerings of new wheat to atrive.

Corn reflected the weakness of wheat. The clearing weather was also a bearish in the casts crowd, an active seaboard demand unbeld the July ontion. Other deliv-

thuence.

In the oats crowd, an active seaboard demand upheld the July option. Other deliveries gave way with wheat and corn.

Selling of provisions was overdone. A break resulted from low prices for hogs, but when shorts attempted to take profits, the market became bare of offers and there was an upturn quickly in values.

Leading futures ranged as follows:

WHEAT.
