This complete reorganization of gridiron affairs along the West Coast comes as a consequence of the break between Stanford and California and the discarding of Rugby football by the latter institution.

The California wrangle of the break comes as a consequence of the break and Deyo pitched splendid ball. Yale played uphill ball, coming from behind and tying the score in the fifth and seventh innings and winning in the california crop, which has seventh innings and winning in the california crop, which has been and is being sold at exceedingly low prices. Total sales of stocks amounted to 315,000 shares.

Although foreign exchange was again demoralized, with new low rates between this center and London and Paris, this feature of the financial situation was less of a factor tor than on the previous day. Early rates on London suggested greater steadiness, another consigniment of \$2,500,000 from Canada contributing to that end, but later, when pressure of commercial bills again became strong, demand sterling fell to 4.76½, and cables to 4.77. In each instance a decline of 15 per cent from the low rates of yesterday was established.

Parls exchange broke to 5.46½ for checks, a weakening of 5, of a cent from yesterday; low record quotation. Reichsmarks and lires continued to move favorably to this market, but offerings of bills on Berlin and Rome were very light.

Further gains in the steel trade were reported by the recognized authorities in that industry, recent domestic orders for new equipment adding to the increased activity of the substantial fraction under the high price of 20½ were not confirmed.

Features of totay's bond market were the strength of New York Central debentures and Bethiehem Steel convertibles. Total sales, par value, aggregate \$2,910,000. United States coupon 4s advanced 5 per cent on call.
