Yesterday's Results. At San Francisco—Portland 10, Oakland 5, At Salt Lake—Venice 5, Salt Lake 2. At Los Angeles—Los Angeles 6, San Fran-sco 4.

SAN FRANCISCO, June 18 .- (Special.) In a decidedly ragged game, made so, perhaps, because Coast League mag-nates were looking on from nearby hoxes, Portland took advantage of Oakland pitchers to the extent of piling up a 10-to-5 victory. That the Beavers made the most of their opportunity is evidenced by the fact that no more than

lead of 4 to 1, found himself against plenty of difficulties in the sixth, in the course of which the northerners took a front position in the race. He was retired so a pinch hitter might go to bat for him, and there was still more land tally. Then he filled up the bases in the second with one out and took to the woods. Those three men registered before Lush could retire the side. Oakland took what appeared for a time to be a strong lead in the second, but inning six saw its finish. Prulett pinked Bates in the side and Carisch singled to second. Doane drove through to right for Bates to score. Hillyard walked, filling the bases, and scoring was momentarily halted while Lober and Lush sent fly balls up for the in-

fielders to grab.

Davis hit a disputed two-bagger that was close to the left field foul line, and the Carisch-Doane duo made the cir-

The Beavers added four more in the seventh for good measure and then the scoring ceased. The Oaks railied in the ninth, but one tally was the best they could find Lush

Local Prices May Get Up to Dollar Mark.

ST. LOUIS, Mo., June 18.-A pitcher's OFFERINGS HAVE CEASED

Small Quantity Is Needed to Fill Sales and Is Not Forthcoming-Bidding-Up Process Is Natural Result.

The local wheat market has become firm and has every appearance of a decided upward tendency. Prices have been gaining for several days, having advanced fully 3 cents since Tuesday. Yesterday spot bluestem was wanted at 53 cents, with no selftrade if the market again reached the dol-

iar mark in the near future.

There are a few dealers who need wheat to cover sales and are finding it difficult to get the supply they require. Local sellers apparently have nothing to offer, and the few country holders that have wheat are not disposed to sell it now at prevailing prices. Therefore the bidding is at a progressively advancing level and ultimately will, no doubt, bring out the wheat that is

It is not believed that anyone is seriously short, but in the present state of the mar ket and supply it does not take much of a demand to put values on a higher plane. Somewhat the same condition prevails in the barley market. A moderate demand developed yesterday, but offerings were light and purchases were only made by offering more money. There is a fair supply of barley left in the country, but it is in strong

day were as follows: 
 100 tens prompt barley
 \$25.00

 100 tens July barley
 22.00

 100 tens July shorts
 25.00

 100 tens August shorts
 25.00

The two deals in bariey were at advances of 75 cents to \$1 over prices bid Thursday. Bluestem bids were 14 to 2 cents over those of the day before, fortyfold was un-changed and club 1 to 3 cents higher. Red wheat was also firmer. There were no selfers of any delivery except August fife and Russian, the asked prices of which were 90 cents against \$3 cents bid for fife and 50 ents for the other variety. Estimates prepared by railway traffic of-

icials indicate a wheat crop in the North-vest of about 62,500,000 bushels, which is lose to the predictions made by grain dealthe three states at 3,310,000 acres, about 10 per cent gain over last year. The average yield they estimate at 25 bushels for Winper cent gain over last year. The average yield they estimate at 25 bushels for Winter wheat and 18 bushels for Spring wheat. The oats and barley acreage is estimated at 430,000 acres.

Bradstreet's reports shipments for the week at 4,767,000 bushels of wheat and GRAIN BAGS—8%c each.

52.782 bushels of corn. Indian wheat shipments for the week are 184,000 bauhels, compared with 2,472,000 ushels last week and 1,584,000 bushels last

he can mention no unsettling factor in this case.

Conditions have been such as to uphold growers in their stand for extreme prices. The heavy buying and the outlook for consumption on a substantial hasis in the event of a large foreign demand, are factors in their favor and conversely the outlook for the raw material will have its effect upon prices for goods. The primary markets of the trade, now that the foreign season is drawing towards its close. A problem facing buyers is to get the new wools at figures which manufacturers will indorse when it comes to the tunover in the East. Up to this time manufacturers have not lent their assent to the buying at extreme levels by dealers.

WEATHER IS AGAINST MELON TRADE R. H. E. Cherries in Large Supply and Lower-Ber-17 20 2

COPPERS UNDER PRESSURE

Steel Only Standard Issue to Show Underlying Strength - Leading Railways Backward - Rome and Berlin Exchange Weak.

which added another eight points to its recent decline, selling at 26, against 60 on Monday.

Coppers were under pressure, as was to be expected from another sharp break in the metal abroad, together with indications of lower prices in the domestic market. Lead, which a few days ago sold at 7½, the highest figure quoted in 30 years, declined to 6 cents.

Representative railway stocks were backward. United States Steel was about the only speculative favorite to evince underlying strength. Total sales amounted to 352,000 shares.

Lires, or Italian exchange, made another new record at 5.96 for checks, and reichsmurchs on Berlin also weakened to 82 1-16. Ottawa sent \$2.500,000 gold to this city and London exchange stiffened.

The known movement of money for the week points to another accession of cash by local banks. If today's forecast of the gain is fulfilled, New York bankers will show excens reserves of \$200,000,000 in tomorrow's bank statement.

Bonds were irregular, some minor issues showing material gains. Total sales, par value, aggregated \$2,688,000.

United States bonds were unchanged on call.

Weather Irregularities Restrict Curren Distribution. NEW YORK, June 18.—Bradstreets tomorrow will say: A mixed budget of news
is in evidence this work. Weather irregularities over a wide area have restricted
ourrent distribution of seasonable goods,
while excessive meisture in the surplus
grain-producing states has retarded harvesting or crop growth, and pending the outcome of international political matters, some
interests prefer to work along conservative
lines.

On the other hand, industrial operations continus to expand. Crop diversification in the South, where trade is quiet, has been proved feasible, and this fact has induced brighter views as to the future. Demand for money for crop-moving purposes is enlarging and rates are firmer.

It has been a week of uncertainty in the stock market, due to unsettled foreign relations and the renewed weakness of foreign exchange. "War order" stocks continue to derive support from the unusually large business in sight and the strong, more cheerful tone of the iron and steel trades. Bank clearings were \$3,188,450,000, an increase of 1.0 per cent over last week.

On the other hand, industrial operations

FOREIGN WOOL PRICES ADVANCING Hardening Tendency Is Seen in Domestic Markets. BOSTON, June 18 .- The Commercial Bul-

BOSTON, June 18.—The Commercial Bulketin will say tomorrow.

Another week of fairly good business is
reported in the wool trade. Advices from
abroad show further advances in both wools
and tops, which have not been followed here
to any extent as yet, although they have
had a hardening tendency in prices. Most
of the week's transactions have been in
foreign wool, but a larger proportion of
domestic cales is in evidence.

NEW YORK, June 18.—The market for coffee futures opened at a decline of 3 to 9 points, under some scattered selling, which was probably inspired by the decline in the rate of Rio exchange on London and in the milicis price at Santos. Offerings were not heavy and were pretty well taken at the decline, but prices cased off a shade further during the day, closing at a net loss of 5 to 11 points. There were further exchanges from July to later deliveries, mostly March, on even terms. Sales, including the switches, 24.500 bags. June, 5.90c; July, 7c; August, 6.55c; September, 6.85c; October, 6.80c; November, 3.8bc; December, 2.89c; January, 6.92c; February, 6.94c; March, 6.95c; April, 7c; May, 7.06c.

Spot.—Steady. Rio No, 7, 74c; Santos No. 5. 35c. Coffee Futures. at and freight market was reported shade easier in tone, but quotations were about unchanged. Rio exchange, 3-32d lower. Santos 100 rels lower. Rio, 75 rels higher.

NEW YORK, June 18.—Aside from its more irregular movements, which later gave way to general heaviness, today's stock market was largely a repetition of other sessions of the week.

Trading was again in very moderate volume, the early hours recording a series of confusing advances and recessions. Some of the war shares rose one to three points, with a new high record for Baldwin Locomotive at 64%, while others of that class, particularly Bethlehem Steel and Lackawanna Steel, were that much lower.

The effervescent quality of some of the issues known as "war contract" stocks was illustrated in the case of Federal Mining, which added another eight points to its recent decline, selling at 26, against 60 on Monday.

Coppers were under pressure, as was to be

WIDER EXTENT OF DAMAGE SENDS UP WHEAT PRICES.

Harvest in Southwest Delayed by Storms, and Further Unfavorable Weather Is Predicted.

CHICAGO, June 18.—Black rust reports from Missouri and Kansas added today to the brailish temper which big storms in the West had given to the wheat market here. As a result, the market closed 1½ to 1½c net advance.

In corn the outcome varied from ½c off to ½c up, oais finished with a gain of ½c to ½ ce, and provisions ranging from 2½c decilne to a rise of 10c.

The fact seemed evident that a great deal of wheat in Kansas. Nebrasks, Missouri and other important parts of the soft Winter beit had been laid flat and that harvest delay in Kansas and Okinhoma was increased to a serious extent. Meanwhile, predictions of another storm from ever the Bockies by Saturday night emphasized the danger of rust. Buils in wheat were encouraged by gossip that efforts to overcome difficulties in regard to foreign exchange were likely soon to help revive export demand. Ocean freight rates appeared to be easing off.

Cheap Argentine offers at New York finality proved more than an offset to fears that the domestic corn crop in the big surplus producing states had been handicapped by too much cold and rain.

Outs ruled a little firmer than corn, Provisions failed to hold, except to a limited extent, due to higher prices for hogs. Packing interests were said to have unloaded freely on the buigs.

Leading futures ranged as follows:

BIG GRAIN CROP FORESEEN. Agriculturist Says Douglas Wheat Yield Will Be Bumper One.

WENATCHEE, Wash., June 18. — (Special.)—A bumper wheat crep in Douglas County is indicated, according to County Agriculturist Richardson. The Winter wheat is far enough along to insure a crop unless severe hot winds sweep over the Big Bend within a short time.

"The wheat crop will be one of the largest in the history of the country," said Mr. Richardson. "Old-timers have never seen the Winter wheat looking better than now. It is heading out heavily. Lots of moisture and cool days have been responsible. Spring wheat does not promise as well, owing to the cold weather in April and the continued low temperature up to June, which held it back. Consequently the roots are shallow. With a few warm days, however, one will see it shoot up.

"Turkey red around Withrow will avershoot up.
"Turkey red around Withrow will aver age shout 20 hushels to the acre. Hybric on the east side will average between 23 un-50 bushels."
