

The Oregonian

Entered at Portland, Oregon, Postoffice as second-class matter... Daily, Sunday included, one year \$8.00...

PORTLAND, SATURDAY, JUNE 19, 1915

THE TWO BLOCKADES.

The Oregonian is asked by a correspondent questions as to the cause and effectiveness of the German undersea blockade against the allies and of the British blockade against German commerce.

HARMONY AT THE CITY HALL.

An anxious public will hope sincerely that the pleasant rumors that Commissioner Daly has promised Mayor Albee to be good are true.

HITTING FOUL.

Somewhere at sea on the last trip from California the steamship Northern Pacific struck a log and weakened her rudder.

THE BEST SHORT STORIES.

A Boston critic named O'Brien has made in the Transcript a judicial estimate of the year's output of short stories.

GREECE VOTES FOR WAR.

Entrance of Greece into the war on the side of the allies is foreshadowed by the result of the recent election, which gave the war party headed by Mr. Venizelos two-thirds of the members of Parliament.

one country even to appear to be contingent on those it may extort from the other.

The British blockade seems to have been effective against direct commerce with Germany, but there has been some enormous and continued increase in American exports to Scandinavia that Germany appears to receive large supplies of food and war material through that region.

It may be recalled that Mayor Albee publicly opposed the Daly water meter extravagance, and that an unsuccessful attack was made on our good Mayor by the press.

THE PEOPLE FINALLY RESPONSIBLE.

Representative Frear is undoubtedly right in his opinion that ultimate responsibility for the pork barrel rests with the people.

REFORM IN THIS PARTICULAR WILL BE HELPED BY THE FACT THAT WE NOW PAY THE COST OF THE WAR.

It is a wonder what Japan can do in the way of absorption while the other powers are not watching.

THE CONGRESSIONAL COMMITTEE AT SAN FRANCISCO WAS IN SUCH A HURRY TO CONSIDER RECLAMATION THAT ONLY THREE OF ITS MEMBERS HAD TIME TO RAISE THEIR HATS TO THE LADIES.

The world's grand prize has been awarded to a Kentucky artist at San Francisco, but nobody thinks of giving a prize to the Kentucky artist who designed the mint julep.

WHAT SORT OF A CROSS WILL BE GIVEN THE COMMANDER OF A GERMAN SUBMARINE WHO, IN HIS HASTE TO SINK AN OTHER STEAMER, DID NOT COMPLETE THE DESTRUCTION OF THE TURNWIT?

There is more common sense about the plans of the League to Enforce Peace headed by ex-President Taft than about any of the plans of the most vociferous pacifists.

THE TORNADO SEASON HAS BEGUN IN THE LOWER MISSOURI VALLEY AND ADJACENT SECTIONS, AND UNLID PEOPLE WILL BE UP TO THEIR EYES IN CEILINGS AND SAVED WHAT THEY CAN.

Norman Angell says the United States must reorganize the world. We are equal to the job, provided enough is left to reorganize when the war is over.

"CORSETS," SAYS A WOMAN DOCTOR AT LOS ANGELES, "SHOULD NEVER BE WORN."

We will always have the river and in consequence boys in canvas, and lives will be lost. Perhaps these accidents are foreordained.

RUSSIAN EFFORT SEEMS NOW TO BE DIRECTED TO MAKING AUSTRO-GERMAN VICTORIES SO COSTLY THAT THEY WILL BE OF THE PSYCHIC TYPE.

The roar of the artillery is so loud that the belligerents cannot hear the melodious voice of Mr. Bryan pleading for peace.

IN THE INTERESTS OF MEDIATION AND PEACE, SUGGESTS WILSON APPOINTS BRYAN TO ASK THE KAISER WHAT HE'LL TAKE TO QUIT.

What matters what is used in christening the Arizona today? She will fight as well if skim milk is the dope.

THE EFFICIENCY CODE AROUND THE CITY HALL NEEDS A FEW IDEAS TO KEEP THE RECORDS. THAT OUGHT TO SETTLE IT.

When the California insane are organized into ball teams they will need one of the hopeless to umpire.

THE MAN WHO BOUGHT THE BAKER WOOL CLIP MUST POSSESS INSIDE INFORMATION TO MATCH HIS DOLLARS.

Ownership of property in the district is an added qualification required of the voter today.

but Bulgaria "remains the dark spot in the situation," for she wants the whole of Macedonia, "and Greece is not willing to allow this by any means."

The idea that German diplomacy has been successful in Athens, as it is in Bucharest, is the people, and no one else, that counts, and the King will obey their will, while the Queen will not interfere.

Most of the "peace plans" of the day aim "blows more or less dandy at the principle of nationality. This does not seem to be a merit in them. The various nations have an individual life which is too valuable to be destroyed.

AN ARTICLE IN THE COLUMBIA UNIVERSITY QUARTERLY ASCRIBES TO THE MILLIONAIRES THE GROWING DISFAVOR OF GREEK CAPITAL IN THE INVESTMENT OF SOCIALISTS TO COME TO ITS RESCUE BECAUSE "GREEK WAS THE NATIVE LANGUAGE OF DEMOCRACY."

A fight under the water must be even more interesting than one in the air. A full account of the encounter between the Italian and Austrian submarines in the Adriatic is given by Victor Hugo's story of the devil fish and the diver.

THERE IS A STRANGE CONTRADICTION BETWEEN BRITISH OPINIONS OF GERMANS. THE NEWSPAPERS CALL THEM HUNS, BARBARIANS AND ALL THAT IS REPULSIVE, BUT THREE CABINET MEMBERS ARE SO INFATUATED WITH THEM AS TO HAVE THEM FOR SECRETARIES.

It is a wonder what Japan can do in the way of absorption while the other powers are not watching.

Stars and Starmakers

BY LEONE CASS BAER. Wife of a broker in New York City testifying in her suit for separation says the sight of the photographs of 40 girls in her husband's room "got on her nerves."

In descriptions of osculatory variation it had seemed that the resources of Noah's little lexicon had long ago been exhausted. But here is a new one: A woman plaintiff in a divorce action testifies that the defendant kissed a chorus girl co-respondent "pathetically."

I DON'T WANT TO LEARN THAT KIND.

And yet, most of us can understand without a diagram the paths that were followed by the kissing of some grandmotherly chorus girls.

John Winthrop Pratt, who wouldn't recognize himself under that title since he is ever Jack Pratt to the theatrical crowd in New York, is in town for a Mizz Hellig in "Sari" which is the Hellig week after next.

"Dancing Around," With Al Jolson in the cast, is coming to Portland this Summer. Kitty Doner, too, is in the company.

Even to successful actresses come moments of unspeakable chagrin, now and then.

Such a moment came to a stage girl, a New York one, and the story of it as related in a metropolitan exchange has a humorous twist.

Hubert Henry Davies, the author of "Gentest," in which Elsie Ferguson is appearing at the Hellig, is an Englishman by birth, and is a present front with the hospital corps of the allies.

Divorce and Remarriage.

PORTLAND, June 18.—(To the Editor.)—Will you kindly advise me whether I can get married in Oregon without waiting six months after my divorce.

Widow's Mite and Other Ancient Coins Told About in The Sunday Oregonian

It is probable that the widow's mite, declared by the Bible to be a more substantial offering to the ecclesiastical treasury than the gold of the rich man, was not referred to as a figure of speech after all.

CHILD'S LIVING EXPENSES \$1000 A MONTH—Children of the rich in New York and elsewhere have "allowances" of \$1000 a month and over.

MICROBS GOVERN WORLD EVENTS—Dr. Robert T. Morris, visiting surgeon of the post-graduate hospital of New York, is the author of a book called "Tomorrow's Topics," in which he presents a lot of new and interesting theories regarding the conditions that cause the varying phases of human nature.

TEMPLE HERE AGAIN—People like to study Temple's true-to-nature "sketches from life," because they really are true to life. The Sunday-issue will present three of Temple's best sketches.

BILLY SUNDAY AT HOME—As an evangelist Billy Sunday has been cutting a wide swath in the big Eastern communities for the last few weeks.

COATS OF ARMS AND SUCH—While American people usually give little thought to coats of arms, crests and such symbols of snobbery which were applied to private individuals, their accepted use by the people of European nations as emblems of authority presents a situation of more or less interest—especially in the light of the war. These symbols of empire will be fully explained—with illustrations.

WHAT DIPLOMACY REALLY IS—In these times of international intrigues and delicate readjustments of the relations existing between nations the word "diplomacy" is much used in the public prints. The Sunday Oregonian will print a complete, illustrated story on this subject.

LURE OF EASY MONEY—The story of the Mississippi Bubble and other gigantic "get-rich-quick" schemes will be explained in detail.

BRIDEGROOMS AT A PREMIUM—After the war—whenever that is—Europe will be short of marriageable men. There will be numerous widows of army officers with great estates on their hands and a large number of young business men with no eligible young men in sight for them to marry. Here is a chance for straightforward, capable, healthy young Americans, says The Oregonian's Paris correspondent.

AND THEN SOME MORE—The usual page of stories devoted to little folk, Donahay's Teenie Weenie stories and a handsome front cover picture of a scenic spot near Portland are some of the other attractions. Society, sports, the drama, women's activities, automobiles, real estate and many other phases of local life will be covered fully.

Twenty-Five Years Ago

From The Oregonian, June 19, 1890. Washington—The men who ran frightened cattle yesterday when the big Kansas Senator threw a free coinage bomb into the Senate are wondering today, they ran for and having sold without the prescribed tax stamps. There have been several cases of this kind during the year.

T. J. Dryer, a man well known and remembered by everybody in Oregon as the founder of The Oregonian and for a long time having returned to his native city a day or two since. On Saturday he gave this office a call. Of course we were all much gratified in seeing him. He had just returned from a visit to the Sandwich Islands as Minister Resident from the United States. Having resided there two years, he returned to California and went thence to Washington. From that city he started West again and, reaching Denver City, remained there some time. Last Fall he came to Boise City, where he resided during the Winter and Spring. He now resides in Portland again. We learn it is his purpose to remain here permanently.

British sympathizers have been urging the people of the South to continue their resistance and to sacrifice their property in support of a "Cotton Boycott." Now that these people are impoverished by having followed their own policy, the New York Times calls upon the haters of "Federal tyranny" across the water to come to the relief of the impoverished Southern farmers, who are in danger of dying of starvation. A most excellent opportunity is offered to these "friends of humanity." Will they give a groat to alleviate the suffering they have aided in bringing about?

Appreciative Correspondent Asks About Results Gained by Each.

PORTLAND, June 18.—(To the Editor.)—Since the great Boston war started the writer has endeavored in every conceivable way to acquire authentic information as to developments in the conflict, the application of accepted and established principles of international law, the attitude of the warring nations, and the rights of the Government where its rights have been infringed or violated by belligerents in warring nations, and the rights of the people against one another. In pursuit of this knowledge I have consulted to a considerable extent the editorial pages of the leading newspapers of the country representing all shades of partisan politics, as no doubt they reflect the unbiased opinions and sentiments of the people as a whole, with respect to judging the guilty perpetrators of that frightful holocaust, but in reading the merits of the sanguinary conflict and desired ultimate outcome as well, and I wish to assure you that the various articles bearing on the subject of the "incident in its phases, which have appeared in your editorial pages at different intervals since last August, have been read by me with interest and satisfaction on account of fullness and accuracy of details and historical references and conclusions, and the fact that the opposing nations engaged in the bloody contest for supremacy, and this simple testimonial of progressive and patriotic opinion, and the fact that the thousands of other readers of your valuable organ who rely on the truthfulness of its press news pertaining to the leading nations, and the fact that the whole editorial comment arising from the developments of same, is much to be commended.
