

BUSINESS IS URGED

False Modesty Is Dangerous, Graduates Are Told.

GLASS ADVISED BY PASTOR

Character Copying Is Scored by Dr. Luther R. Dyott in Baccalaureate Sermon and Individuality Is Recommended.

BITS OF ADVICE GIVEN TO GRADUATES BY DR. DYOTT.

Make the best of your circumstances. It is the exceptional life which the world needs. We become our best selves when we are made different from all others.

"Try to be the best where you are and make the best of circumstances," was advised by Dr. Luther R. Dyott in his baccalaureate sermon delivered to the June graduating class of the Washington High School yesterday at the First Congregational Church.

"It is better," said the speaker, "to be president of the kingdom of yourself, than to be President of the United States or to have other honors which the world considers high."

Individuality Is Urged. The speaker urged the importance of developing individuality rather than trying to copy or imitate others.

"It is the exceptional life which the world needs," he said. "Every life has an individuality and the important thing in it is that which makes it an exception. Give it a personality. We become our best selves when we are made different from all others."

"We make a mistake in holding up the great characters of past history and telling the people of the younger generation to be like them, to copy them. Such an ideal makes them imitators if too closely adhered to. It is true that a little of that will not harm the child and may assist in the development of certain phases of character."

False Modesty Dangerous. Dr. Dyott declared too much egotism and false modesty were dangerous. He said that such a modesty deprived a life of the influence and success which it would have otherwise.

"Better to be too bold than not bold enough," he said. The well-rounded life was the ideal which the speaker held up. He said that a premium must be put on physique, for a man with only animal strength was not a man.

"We need the mind, the physique and the soul for the perfect man or woman," he said.

80 Will Enter College. Dr. Dyott gave some interesting statistics on the graduating class, which had been prepared by Professor H. G. Herdman, Jr., principal of the school. He said that the class consisted of 135 members and that 80 of that number were planning to go to college. Fifty-five, he said, planned to go to Oregon colleges and universities, 14 to other colleges on the coast and the remainder to Eastern schools.

More than 90 of the members of the class, he said, had either partially or wholly supported themselves during their high school course.

WATER DISPUTE SETTLED. Farmers and Land Company Reach Compromise at Baker.

BAKER, Or., June 20.—(Special.)—After an all-day meeting Saturday between representatives of the Burnt River farmers and the Eastern Oregon Land Company a compromise was reached in the water rates disputes involving 14,000 acres of land in the Burnt River section of Baker and Malheur Counties.

It was agreed that water should be divided between the farmers and the land company and this agreement will now go to the Martin family of San Francisco, the principal owners of the land company, for their approval. It is expected that they will accept the agreement, and if so several lawsuits now pending in the United States District Court will be withdrawn and another, which was to be filed by the farmers as a body, will be held up.

Both sides showed an eagerness to settle the matter and take all disputes out of court. The agreement was held in offices of Attorney John L. Rand, and was attended by J. S. Eels, of Balfour, Guthrie & Company, of Portland; H. B. Leland, of Ontario; J. C. Veazie, of Portland; Norman Elliott, H. M. Homewood, William Eddy and William Morfitt, of Burnt River; and John T. Rand, William Packwood, Jr., and J. B. Messick, of Baker.

MILWAUKIE LAYING PIPES. Connections With Bull Run System Will Soon Be Completed.

MILWAUKIE, Or., June 20.—(Special.)—The first unit of the Milwaukie municipal water plant has been completed, but connection with the Bull Run water system of Portland has not yet been made. As soon as the Portland pipe line has been laid connections will be made up the Steiner through meters. Mayor Pelton said today that as Portland will sell Milwaukie water through a meter it will be necessary to meter all consumers.

The big district south from Milwaukie as far as Oak Grove wants to get Bull Run water, and the city there have taken up the question of extending the water main which has just been completed in Milwaukie.

Sermon Thoughts From Portland Churches. "WE HAVE become a Nation of Sabbath desecrators and no longer regard the day with any more respect than other days of the week. We have made it a day of pleasure and recreation, rather than a day of worship and reverence; besides there are more than 1,000,000 public slaves who work on the Sabbath and who need rest," was the contention yesterday morning by Rev. T. R. Hornschuch in his sermon at the Lent's Evangelical Church.

His subject was, "Why Should We Keep the Lord's Day?" and he had for part of his text the words of the Mount Scott Woman's Christian Tem-

perance Union, under whose auspices the sermon was given.

"There is little in the present day to remind us of the Sabbath of former days," said Rev. Mr. Hornschuch, "and nothing to remind me of my boyhood conception of the Sabbath day. Instead of a day of worship, the Sabbath has become a day of pleasure-seeking and amusement, and by legislative enactment 1,000,000 slaves work on the Lord's day. There have been four stages in the downward trend in this Nation's desecration: First, the holy day, when it was kept as the Lord intended it; second, holiday, when there began a mad rush for amusement in utter disregard for the sacredness of the Sabbath day, in which men, women and children have joined; third, the devil's day, when vice in all forms are indulged in on the Sabbath day; and fourth, the despots' day.

"We need a sweeping reform in our methods of working the Sabbath, lest we lose sight utterly of all religion and become a Nation of skeptics with all the darkness that condition will bring to this country. Churches, civic organizations and factors for develop-

O. A. C. GRADUATE WINS APPOINTMENT AS INSTRUCTOR.

Miss June Seelye. OREGON AGRICULTURAL COLLEGE, Corvallis, June 20.—(Special.)—The exceptional quality of Miss June Seelye's work during her four years as a student of home economics at the Oregon Agricultural College has won for her an appointment as instructor of domestic art in this institution, with thrilling interest as an honor student and was of rank "A" at all times in her student career. She made the best average as a freshman of any student in the institution. She has shown great proficiency in her work, specializing in costume design, and her student affair activities have been equally satisfactory. She has taken a leading part in the Y. W. C. A. work, and was secretary of the Alpha Chi Omega sorority. Her home is in Independence, Polk County.

ment, should strive to stem the drift of this country toward Sabbathlessness."

WORK IN INDIA IS TOLD. BISHOP WARNE, MISSIONARY IN ORIENT, GIVES TALK.

Continued Support Is Declared Important, and Centenary Methodist Congregation Subscribers Aid.

Bishop F. W. Warne, of Lucknow, India, told the story of missionary work in India yesterday at Centenary Methodist Church with thrilling interest, and paid high tribute to the administration of governmental affairs by the British government, declaring that the 330,000,000 natives were loyal to that government. He said he and Bishop Bedford had returned to the United States to urge the importance of supporting the missions and the need of more men in the Indian field.

The missionary board, said Bishop Warne, feared there might be a falling off of support financially of the foreign work in view of the depression. He said the missionary work in the Orient depended on the maintenance of the work in India up to the standard, for he said, to reach India was to reach all Oriental countries.

"The natives of India recognize the blessing and quietness of the administration of the British government," said Bishop Warne, "and hence they are loyal to that government. They realize that the withdrawal of the British authority would mean war by the Mohammedans, and hence they are standing side by side with their white brethren."

Bishop Warne then told how the mission are becoming self-propagating in that empire, that in face of persecution the gospel is spreading among the natives, until more than 320,000 have embraced the Christian faith through the efforts of Methodist missionaries, besides which must be considered the work of other Christian churches.

At the conclusion of Bishop Warne's address a large special collection was taken in aid of the mission in India. After the services many came forward to greet Bishop Warne.

Bishop Warne will address the Ministerial Association this morning.

JETTY ROAD ABOUT READY. Line to Be Completed to Move Stone to Grays Harbor June 28.

CENTRALIA, Wash., June 20.—(Special.)—According to William McArthur, head of the company, the new railroad being built by the Hercules Sandstone Co., from Tenino to the new quarry located 12 miles up the Skookumchuck River from the town, is practically completed. The derricks and other machinery have been moved from the old quarry in Tenino and the first stone for the Government Jetty works on Grays Harbor will be moved on June 28, the time specified in the contract. About 130,000 tons of stone have been contracted for, but Mr. McArthur expects the amount furnished to exceed the contract by 25 per cent.

Indian Students Graduate. PENDELTON, Or., June 20.—(Special.)—An interesting programme, in which a large number of the pupils participated, marked the closing exercises of St. Andrew's Indian School here this afternoon. Rt. Rev. C. J. O'Reilly, bishop of the Eastern Oregon diocese, addressed the graduates. A feature of the programme was the presentation of a one-act farce and a dramatic sketch by the pupils.

Wenatchee Pioneers Meet. WENATCHEE, Wash., June 20.—(Special.)—The old settlers' picnic ground at Monitor was well filled Friday and Saturday with old settlers, who gathered for the annual reunion.

BETTER COOK WITH ELECTRICITY BETTER FOOD HOMES

FOURTH EVENTS DECIDED

HOOD RIVER ARRANGES NUMBER OF FEATURES FOR FOUR DAYS.

Musical Programme to Be Elaborated. With Chorus of Voices in "The Bohemian Girl."

HOOD RIVER, Or., June 20.—(Special.)—With neighboring towns joining in the event, Hood River will hold the usual Fourth of July celebration this year. The Commercial Club will present attractions of the annual Horticultural Chautauqua on the nights of July 1, 2, 3 and 5. Places of business will be closed July 5, and Independence day will be formally observed on this date.

For the past several seasons the amateur singers of the valley, under the direction of Otto T. Wedemeyer, formerly on the professional stage, have been giving comic operas at the annual Chautauqua. This year a company of 40 is now rehearsing for "The Bohemian Girl," which will be put on at the open air theater on the night of July 5.

The first number of the Chautauqua will be a vaudeville show on the night of July 1, one of the features of which will be a quick-change dancing act by Miss Dorothy Epping, who has won honors for her fancy dancing at the University of California the past year.

6463 BOUNTIES ARE PAID

Many Gophers and Moles in Marion County Are Killed.

SALEM, Or., June 20.—(Special.)—Marion County is establishing a record in bounties paid for gopher and mole scalps. County Clerk Gehlar said yesterday that he paid \$646.39 for scalps Friday, having received 6463.

Persons living in the neighborhood of Mount Angel contributed 1076 persons living in the neighborhood of Silverton 4764 and other sections 623. The county is 16 cents on each scalp. Of the total received Friday, 4769 were gophers and 1694 moles. One of the

CITY DENIED RIGHT TO AID

Municipal Lodging-House for Unemployed Not Legal.

SPOKANE, Wash., June 19.—(Special.)—The city officials cannot legally establish a work farm or municipal lodging-house to take care during the winter of those aside from city prisoners, according to an opinion of Corporation Counsel H. M. Stephens.

In other words, those who are without funds and cannot obtain employment in the winter probably will be compelled to become prisoners or depend for aid upon some sort of relief work farm or other enterprise operated by private parties.

When asked for a solution of this problem, which the Unemployment Commission has been dealing with since early this spring, in an endeavor to reach a solution in time to take care of the unemployment situation next winter, Mr. Stephens today referred to an opinion prepared for City Commissioner Fleming, one of the first to propose a work farm for jail prisoners.

WOMEN STUDENTS ON HIKE

Nine in Ohio Party to Study Wild Life on Washington Coast.

PUYALLUP, Wash., June 20.—(Special.)—Professor Lynds Jones, of Oberlin College, Ohio, with a party of 29 students, including nine women, will make a six weeks' study of marine flora and fauna and bird and animal life of the west coast of Washington from Tatoosh Island to Moelips. The party is expected to arrive in Seattle June 22.

Full camping outfits will be taken along and Indian guides will be employed. George G. Cantwell, Federal bird reservation inspector for the Pacific Northwest, will accompany the party. After the study trip the party will go to San Francisco to attend the Panama-Pacific Exposition.

CASTORIA advertisement for infants and children, including a signature of Charles H. Pletcher.
