

# MR. LOCKWOOD IS SWORN BY BOARD

## New School Director, After Canvass of Votes, Takes Oath and Goes to Work.

### COMMITTEES ARE NAMED

#### Mr. Mully Announces Appointments and Plans for Summer Study in Manual Training Laid; Coal Companies Make Complaint.

Samuel F. Lockwood, newly elected School Director, was inducted into office yesterday at a special meeting of the School Board held for the purpose of canvassing the vote. The official count showed a difference of but a few votes from the first figures gathered on the result of the election. The totals approved by the Directors yesterday gave Dr. Ernest A. Sommer 2953 votes, as against 5284 for Mr. Lockwood. The new Director was declared elected upon motion of Director Beach and he was sworn in by School Clerk Thomas. Chairman Mully of the Board will continue as head of the directorate for another year. He announced his committees for the coming year at yesterday's meeting. They are:

**Board's Committees Announced.**  
Judiciary committee: Directors J. V. Beach and O. M. Plummer; buildings and grounds committee, Directors O. M. Plummer and Dr. Alan Welch Smith; supplies committee, Samuel F. Lockwood and J. V. Beach; teachers' committee, Dr. Alan Welch Smith and Samuel F. Lockwood; and a committee to study the school situation, consisting of Directors J. V. Beach and O. M. Plummer, and Dr. Alan Welch Smith.

It was decided to open additional manual training centers for the summer, upon application from patrons of the schools of the various sections of the city. The following centers will be maintained during the summer for manual training instruction: Oakley Green, Holladay, Peninsula, Woodway, Couch, Mount Tabor and Ladd.

To carry on this manual training work H. S. Peterson, William Hood, E. J. Burrows and Andrew Buege were elected as instructors for the summer period. Because of parades that have been scheduled in honor of the school children of the city participate, on June 28, July 7 and 15, Robert Krohn, physical director of the city schools, will receive a salary for six weeks during the summer in order that he may direct the children in the parades.

**An Instructor Is Chosen.**  
Miss Ione Dunlap was elected to conduct special work in art, co-operating with the Art Museum of the city and directing the study of the children along this line during the summer.

The contract for the completion of the Peninsula School was awarded to Parker & Bannell for the sum of \$5451. Earnest representations were made to the Board by Principals Wiley and Downs, of the Montavilla and Elliot schools, respectively, in favor of the purchase of a collection of stereoscopic slides for use in the schools. The project, which has been turned down once before, was referred to the supplies committee with power to act.

Some animation was lent to yesterday's meeting when representatives of rival coal companies clamored for a larger share of the contracts for the coming winter's fuel.

**Two Contend Bids Cheaper.**  
The Pacific Coast Fuel Company and the Edgewater Fuel Company, in their bids were most advantageous for the Board, and urged their acceptance despite recommendations of the supplies committee.

"This has all been gone into by the committee," said Director Beach, as the debate waxed warm. "Each can prove his bid is the cheaper if we want to sit here and listen."

The result was that the coal contracts were divided equally between these two companies and the Liberty Coal & Ice Company, each being asked to furnish 600 tons.

### SNAG STRUCK; BOAT SINKS

#### Georgia Burton Damaged While in Shallow Water at Martin Island.

Backing onto a snag at Martin Island Monday night, when maneuvering with a barge laden with cottonwood, which was to be towed to Oregon City, the steamer Georgia Burton sank in shallow water. The steamer Annie Cummings was sent from here to assist in raising her and she probably will be at the yard of the Portland Shipbuilding Company for repairs early today.

Reports received yesterday were that the steamer settled in about four feet of water, her bows not being submerged. It was assumed, from a description of the accident, that the snag struck through her planking close to the third frame forward of her transom. The vessel belongs to the Western Transportation & Towing Company and usually operates in conjunction with the Annie Cummings. It is expected that she will resume service this week.

### DECORAH'S DORY PICKED UP

#### Patsy Finds Waterlogged Fishing Boat at Sea Sunday Night.

On arriving here yesterday from Oregon Coast ports, Captain Pindling, of the gasoline schooner Decorah of the Elmore fleet, filed a report at the Custom-House to the effect that he picked up a fishing dory belonging to the gasoline schooner Decorah of the Elmore fleet, on Sunday night, June 21, at Astoria, where the Decorah will probably pick it up.

### EDISON LIGHT TO COME HERE

#### Steamer Will Bring General Cargo From New York Soon.

The West Coast Navigation Company has chartered the steamer Edison Light to load general cargo for Portland at New York. The vessel is expected to sail from the Atlantic side in about a week. A lumber cargo is being negotiated for her return trip. This will be the first visit of the Edison Light to Portland.

### Marine News.

As a member of a board appointed to report on the new light tender Liberty, which has her official trial trip on Puget

Sound today, Robert Warrack, inspector of the Seaport's Light-house District, left for the northern harbor yesterday. Carrying 600,000 feet of lumber, the steamer Shasta was cleared yesterday for San Francisco. She is loaded in the harbor of the E. Wood Lumber Company. The vessel came in ballast from San Pedro. The McCormick steamer Wapama was cleared yesterday for San Diego with 1,000,000 feet of lumber and sails Friday.

Captain C. C. Turner has been named master of the steamer Undine, which was previously navigated by Captain E. P. Howford. Captain Chris Blum has been succeeded by Captain E. P. Howford. Captain Clyde Raabe and Captain D. H. Taylor are the present skipper of the ferry Governor West, relieving Captain J. R. Kollman. Captain Kroba paid off a few more firemen. Church's interest about the steamer Mackinaw yesterday, making a total of five he has consented to excuse from a deep-sea voyage to Australia. The vessel may shift into the harbor today to begin working.

On her return from Sydney the schooner Massey is to load another lumber cargo for Australia, while the schooner Virginia, loaded here last for Peru, has been taken to work a redwood cargo at Boreas for Sydney. The steamer Wapama was cleared yesterday for San Diego with 1,000,000 feet of lumber and sails Friday.

John D. Kelleher, an old resident of Portland, died Monday at his home, 317 Tillamook street, at the age of 48 years and four months. Mr. Kelleher was active in politics. For some time he engaged in the real estate business. Mr. Kelleher was a charter member of Cathedral Court, No. 4, St. Catholic Order of Foresters. He is survived by his widow, Mrs. Nora Kelleher, and his children are: D. L. Kelleher, of the Portland city detective force; John F. Kelleher, of the fire bureau; Mrs. Robert De Reijn, Miss Nellie Cornelius, Joseph and Mary Kelleher, of Portland.

Funeral services will be held this morning from St. Mary's Church. Interment will be in Mount Calvary Cemetery.
