# 35 FAIL TO TAKE

List May Be Reduced by Receipt of Checks Mailed Before 5 o'Clock Yesterday.

#### SALOONS TOTAL ABOUT 300

City Takes in Approximately \$140,-000 in Past Few Days, Entitling Places to Do Business Until December 31.

Twenty-seven saloons, three whole sale liquor dealers and rectifiers, four restaurants and one grocer comprise the list of liquor places which failed their license fees for the last half of this year in the hands of City Treasurer Adams before 5 o'clock last night, which was the limit of time for making payments. It is expected a few of the places mailed their checks, which will cut down the total number. Checks mailed before 5 o'clock last night will be accepted.

Lloyd W. McDowell has been appointed as special representative in promotion

All the rest of the places will go out of business July 1. It is expected that there will be fully 20 saloons in the list of places to quit. This will leave the city with 306 saloons, as compared with 326 at present. Two years ago the total number of saloons exceeded 400. A large number dropped out January 1, others have been put out of business and others have quit

since January L.

During the last few days the city
has taken in nearly \$140,000 in lihas taken in nearly \$140,000 in li-censes from the liquor dealers. The licenses as issued entitle the dealers to continue in business until Decem-ber 31, when all saloons will be put out of business by the prohibition amendment. The licenses issued yes-terday will be the last to be issued in Portland as long as prohibition is in effect.

Fortland as long as prohibition is in effect.

After a promising growth for a short time after the Rose Festival, due largely to big individual contributions by a few persons, the maintenance fund of the Associated Charities has lagged in the past few days, and there is still more than half of the fund necessary to keep it open throughout the Summer to be raised. The steady flood of demands for assistance does not diminish, however, and the Charities, although it will be able to continue its work for while with the funds that have been donated, will be obliged to close before the Summer is over unless the generous people of the city renew their interest in its campaign and help carry the total fund through to \$5000. At the present the total contributions reported from the office are only \$2200 There are many pathetic cases among the scores that come under the care of the Charities each day.

There is one poor little hunch-backed woman who is entirely depend-ent upon her own resources, for her husband has deserted her. Up to the husband has described her. Up to the present time the Charities has tried in vain to obtain a place for her. She is quick and clever and eager to work to support herself. The effort is being made to get a position for her a ticket-seller in some theater or as cash girl. Other typical cases follow:

FORESTRY METHODS TOLD Shirley Buck Shows Improvements

Made by Government.

What the Government forestry service is doing in the Northwest to prevent annual forest fires and to correct unscientific methods which have led to

fire losses of timber were greater than the annual cut and everyone looked upon the Summer forest fires as an in-eyttable happening," said Mr. Buck. "The Government has rendered valu-able service in this direction by con-structing about 2500 miles of trails tional forests in Oregon, by erecting 79 bridges over mountain streams and by establishing lookout stations. Great work has also been done in protecting water-sheds from pollution."
