Women Spend Busy Day at Gearhart, Only Interruption Being Greeting by Organ Grinder's Monkey, Which Eludes Guard.

GEARHART, Or., June 29.—(Special.)
—Extension of the activities of the sorority promises to be the really big topic to be threshed out here at the convention of the Kappa Alpha Theta. A debate on the question of whether or not the organization shall devote its efforts to the study of education of girls instead of undertaking work outside of college circles is the feature of the programme for tomorrow.

At today's session, which was one erowded with actual business affairs of the approximation.

Eight Service Bureaus Established. The report of Clara Lynn Fitch, chairman of the service bureau committee, showed that eight new bureaus had been established — at Chicago, Cleveland, Denver, Detroit, Indianapolis, Lincoln, Los Angeles, Minneapolis, New York, Omaha, Pullman, Pittsburg, Philadelphia Spokane, Topeka and To-

The report of the scholarship fund committee, a fund for assisting girls in obtaining or finishing their college education, established in 1902 by Mrs. J. B. Lippincott, of Los Angeles, shows that 12 girls were assisted. A fund of \$15,000 had been pledged for this purpose, and the interest on this money is used for a scholarship fund. is used for a scholarship fund.

The first real thrill enjoyed by the 300 sorority maids and matrons came today just before noon. Joe wasn't today just before noon. Joe wasn't today just before noon. Joe wasn't form the sprang through the open door of the auditorium and gaily doffed his pass into the new hands tomorrow. George W. Kleiser, of Foster & Kleiser, iast night issued the following ser, iast night issued the transaction.

Columbia River Interstate bridge began Monday. The sand, cement and gravel is mixed on a scow and is raised to a height of 60 feet in a derrick bucket that dumps automatically into a hop-

A pipe conducts the mixture from the hopper down a steep incline to a second hopper and from there another pipe drops it into the bottom of the wooden caisson. When a layer on the bottom is set the water will be pumped out and the concrete dumped in.

LA GRANDE LOSES DECISION

Reassessment After Improvement Is Made Is Held Illegal.

SALEM, Or., June 29 .- (Special.)-That property owners in La Grande cannot be assessed for street improvecannot be assessed for street improve-ments already made when they were denied an opportunity to be heard was the decision of the Supreme Court to-day, Justice Burnett writing the opin-ion, in the case of Jennie Murray et al. against that city. The opinion of the lower court favorable to the city was

The City Council, after the original ordinance making assessments for the street work had been declared invalid, street work had been declared invalid, passed another ordinance reassessing the property. It was alleged that a section of the charter provided that in cases of assessments being set aside by courts the Council could make a new one. The reassessments were made, however, after the pavement had been laid. Says the Supreme Court:

"The charter plainly contemplates street work yet to be done. It has no retroactive language. When the improvement is already made it is impossible to the property. It's good-night to the good-night to the people of Oregon. This land should be opened for settlement by actual settlers, as Congress in its original grant intended it should be.

"You might seek from now till doomsday for a better administrator of the grant than Judge Bean or Judge Wolverton, of the United States District Court here. It is up to these two men to prescribe rules under which the lands are to be disposed of if Congress does not take action."

Years to Complete.

OLYMPIA, Wash., June 29.—(Special.) Arrangements for the cruising of in National forests, preliminary to their exchange for Government land of equal area and value, to be eliminated from the forests, were completed here today by the State Land Board in conference with George Cecil, of Port-land, Federal District Forester, and deputies.

The Portland office of the District

Forester will be made the headquarters for exchange business, it was decided, State Land Commissioner Clark V. Savidge was selected by the Land Board as state representative in the exchange, and S. G. Smith, Supervisor

exchange, and S. G. Smith, Supervisor of the Snoqualmie Forest, was designated by Mr. Cecil to have direct charge of the Federal work.

The state and forestry authorities each will keep two field inspectors under them, but the actual work of the cruise will be done by 20 crews of three men each, a cruiser, compassman and cook and packer, who will be employed jointly by the two interests. The cruise of the state land will not be finished until next Summer and the selection of the Federal lieu lands will take at least another year. Although previous exchanges have been negotiated by Idaho and Montana with the Federal Government, it is be-

the President has not commissioned anyone to succeed General Goethals as anyone to succeed General Goethals as Governor and will not appoint a new Governor until he receives a recommendation from General Goethals, it is assumed in Washington that General Goethals will be succeeded by Colonel Chester Harding, who is now his assistant and who has been at the Canal Zone for one year on his present detail and has seen previous services there during the early stages of construction.

It is assumed Colonel Morrow will take the position made vacant by promotion of Colonel Harding to be Governor, and will be assistant to the new Governor.

—After being under way for six years, the system of the Goose Lake Valley Irrigation Company is now completed, with the exception of running a few laterals, and water is now ready for 50,000 acres of land in Lake County, Oregon, and Modoc County, California. Irrigation and intensive farming are making a garden out of the valley, which is partly in two states. The project covers an irregular valley about 10 miles wide, which is about 10 miles wide, and extends across the California line. The reservoir, which is 30 miles in circumference, will hold enough water two quarts of whisky, wine or brandy and 24 quarts of beer can be randy and and

The reservoir, which is 30 miles in circumference, will hold enough water to irrigate the entire project for two years without being replenished. It is filled by water from Drew's Creek, fed by springs and melted snow. The valley has been transformed into a greek lake has been transformed into a great lake

CAMPFIRE GIRLS ON OUTING

Party Goes to Bull Run to Spend

The Mamook Campfire Girls, 13 in number, left Portland by auto truck yesterday for Bull Run for a ten days' outing in the forest. The jolly party was chaperoned by Miss Helen Gillespie, East Sixteenth and Alder streets. The money which it will cost was earned by the girls themselves. The members of the party are Velma Thompson, Alena Jacobson, Estella Hodge, Esther Holden, Elizabeth Reb-stock, Alta Daniels, Ferol Miller, Gladys Melvin, Merle Stuart, Althea Agee, Erma Lace, Dorothy Clifford and Bertle Fuller.

BANK CASHIER SENTENCED

A. W. Lafferty, at a public meeting held in the Central Library last night to consider what action should be taken for disposing of the Oregon & California land grant under the recent decision of the United States Supreme Court, gave as his solution of the problem that Congress should take no action, but that the disposition of the tract to actual settlers should be left to the United States District Court in Portland.

"The Supreme Court gave Congress the State Penitentiary for falsifying the State Penitentiary falsifying the State Penitentiary for falsifying the State Penitentiary falsifying the State Penitentiar pany, to serve from two to 10 years in the State Penitentiary for falsifying the books of the bank. The defendant filed an appeal bond for \$1000. J. J. Haggerty, president of the defunct bank, who pleaded guilty, was surren-dered to the Sheriff today and will be taken soon to Walla Walla.

Condition All Summer

To Keep Skin in Fine

It would be much better for the skin if little cream, powder or rouge were used during the heated term. Mixed with perspiration, dust and grime, these things are anything but beautifying. Ordinarily mercolized wax will do more for the complexion, and without giving an oily, streaked, spotted or pasty appearance. It is the ideal application for the season, as it not only keeps the pores clean, but daily removes particles of scarf skin which have been solled by dirt or weather. By constantly keeping the complexion clear, white, sathy, it does more toward perpetuating a youthful countenance than any of the arts or artifices commonly employed. One ounce of mercolized wax, obtainable at any drugstore, will completely removate the worst complexion. It is applied at night like cold cream and washed off in the morning.
