

EXPOSITION TO BE ON GRAND SCALE

Plans Going Ahead for Comprehensive Display of Oregon's Factories, Farms.

LOCATION BEING SOUGHT

Men Connected With Last Year's Show Promise That this Season's Exhibits Will Far Surpass Former Effort.

The second Manufacturers' and Land Products Show will bring together in Portland this year the greatest display of exhibits ever seen in the American Northwest.

Committees appointed at the joint meeting of the representatives in the Chamber of Commerce of the bureau of manufacturers and industries are at work outlining the various details of the Fall exposition.

Mr. Kingsley, chairman of the executive committee, who was so prominently identified with the 1914 exhibition in the Armory and adjoining buildings, left yesterday for Clatskanie, by automobile.

Mr. Kingsley will confer with the Luther Burbank interests with a view to arranging for the exhibition of the plant wizard at the Manufacturers' and Land Products Show.

In this event Mr. Burbank would be one of the features of the show and a series of talks by him, it has been pointed out, would be a great feature and serve to attract many people to Portland from the surrounding farming country.

The Manufacturers' and Land Products Show this Fall will be a greater exhibition than last year's, and one of the most complete exhibitions of the kind ever planned in the Pacific Northwest.

Attention to Be Selected Soon. "Within a few weeks we will be able to announce the location of the exhibition. Special events and amusement features will be a feature again this year.

Apples to Be Feature. The exhibit of apples will be especially fine this year, according to Mr. Bateham. "The land products division attracted a great deal of interest last year, and we propose to make it even a greater feature this year."

The executive committee, of which A. J. Kingsley, president of the Oregon Chamber of Commerce, is chairman, includes A. P. Bateham, Oregon Development Bureau; J. T. Brumfield, Mason, Ehrman & Co.; A. O. Jones, First National Bank; T. H. Mann, Pacific Stone and Brick Company; A. J. Bale, Pacific Coast Bleach Company; Dom J. Zan, Zan Bros. Mr. Mann is chairman of the manufacturers' exhibit, and D. M. Dunne, chairman of the committee on location for the show and the dates it will be held.

Both Mr. Mann and Mr. Dunne were closely identified with last year's exposition. Colonel Dunne was president of the Manufacturers' Association and president of the exposition. He is familiar with all details of the enterprise and says this year's exposition will be greater than ever.

HIGHWAY TO BE SHOWN

MOVIES OF COLUMBIA ROAD TO BE MADE BY PATHE COMPANY.

L. E. Franconi, Representative of Head of Picture Concern, Impressed on Trip Over Scenic Route.

The Columbia Highway pictures will be featured in motion picture theaters over the civilized globe as one of the world's greatest scenic wonders.

This is the announcement made last night by L. E. Franconi, personal representative of Charles Pathe, head of the house of Pathe Freres. Mr. Franconi made the trip over the highway yesterday with S. Benson, J. B. Yeon, Franklin T. Griffith, Ira F. Powers, J. C. Ainsworth, Amos Benson and Lloyd W. McDowell.

The Columbia Highway pictures in color will be the first of a series of scenic reels to be made throughout Oregon and will include Crater Lake, Mount Hood and the glaciers, the Columbia River, ocean beaches, Marble Hills of Josephine County and other attractions. Each reel according to Mr. Franconi, will be circulated through the Pathe exchanges to picture houses all over the world, and millions of patrons of the theaters will see the scenic beauties of this state in a series of Pathe color films.

The series in color, especially the Columbia Highway feature, was suggested to Mr. Franconi by Mr. McDowell. While with the Great Northern, McDowell went to New York and took up with Mr. Franconi the opportunities for scenic features in the American Northwest with the result that the Pathe company sent an operator to Portland and the Columbia River, Deschutes Canyon, Central Oregon farm scenes, the Willamette Valley country, and other scenic features in Washington, Idaho, Montana and North Dakota, including three reels of Glacier National Park, were filmed and sent on the picture circuits.

These pictures started the "See America First" series of the Pathe com-

pany. Mr. Franconi has been greatly impressed with the scenery of Oregon and California and says that by next Spring there will be a big demand for American subjects throughout Europe. While the Columbia River has already been filmed by the Pathe company, Mr. Franconi says there are so many beautiful views that he will instruct his operators to make the trip again by rail and steamer for a set of pictures for the Pathe color series.

MISSING HUSBAND SOUGHT

Mrs. Harry Souers Fears Spouse Has Lost Mind.

Fearing that her husband has lost his mind and is ill somewhere, Mrs. Harry Souers, of 753 Kelly street, made an appeal to the city detective bureau yesterday for aid in finding her spouse, who has not been seen since June 1, when he left his home in this city to look for work in town.

Postmaster Eugene, Or., under date of June 16, Mrs. Souers received an incoherent letter in her husband's handwriting but unsigned. "I am trying so hard to work," it read, "I can't remember. It is sick now. I can't remember. My head is funny again," said the note in part. The postmaster, who is a postmaster at Eugene brought no information.

RESERVE TIMBER OFFERED

In Crater Forest 2,420,000 Feet Are Being Advertised.

Would-Be Teachers Told in Heat. ALBANY, Or., July 1.—(Special.)—With the thermometer registering above 90 degrees all afternoon, 67 applicants for teachers' certificates gathered away in the Linn County Courthouse yesterday. It was the first day of the semi-annual teachers' examination in this county. The test will continue until Saturday. It is being conducted in the Circuit Court room of the court by County School Superintendent Jackson, assisted by Assistant Superintendent Benner, Professor Bigbee and Mrs. Jackson.
