on July 1, was ch2 as against 70.1 a month earlier. This compares with a condition of 64.2 on July 1, 1914 and 58.7, the 10-year average. The total July production is es-timated by the Department of Agriculture timated by the Department of Agriculture at 194,000,000 bushels, against 255,000,000 last year and 176,000,000 bushels, the average production for the years 1902-13. The average price on June 15, 1815, was 90.3 cents per bushel, compared with \$1.356 on June 15, 1814,

sheep and chickens—to producers of the United States increased 0.8 per cent from May 15 to June 15; in the past five years prices decreased in like period 0.8 per cent. On June 15 the index figure of prices for these meat animals was about 5.2 per cent lower than a year ago, 4.7 per cent lower than two years sgo, but 2.5 per cent higher than theaverage of the past five years on

### EARLY ENGLISH BUYING MAY BE SLOW mball Thinks France and Southern

Countries Will Want Much Later. The local wheat market continues inac-tive. Bid prices at the Merchants' Exchange for prompt white wheat were unchanged and for prompt white wheat were unchanged and for red wheat were lower by 5 cents. Sellers were as firm as ever and asked 8 to 15 cents more than was offered. The barloy and cats nurkets were equally dull. Broomhall believes the early English demand for new American wheat will be small, but that France and the Mediterranean countries will be large buyers later. In his international wheat review by

ranean countries will be large buyers inter-In his international wheat review he maya: "Owing to recent large shipments the floating quantity to the United Kingdom is liberal and sufficient precaution has been end of August, averaging 2,000,000 bushels weekly. I still think that the general to-tal of shipments will continue very moder-ate until the latter part of August or early September, with the United Kingdom taking

the best share. On passage quantity and port stocks are so liberal that it appears chylonely unnecessary that large additional anipments will be needed here until early Autumn, but Continental demand has not yet fully developed and these requirements I of necessity be satisfied in the United

Present promise from North America and Europe of chief crops are estimated at 3.-221,000,000 bushels, against 2,920,000,000 bushels last year.

'Crops throughout the British empire are promising very favorably, while India and Egypt have fair to good supplies. Russia certainly ship something from Arch manual and Vladivostok and liberally should the Dardanelles be opened. Present prospects point to a curtailed early demand for new American Winter wheat, but later it is confidently expected that France and all Mediterranean countries will be liberal buyers in the United States.

"The market in the near future will be greatly susceptible to climatic influence." The European visible wheat supply is placed at 72,535,000 bushels, a decrease of 10,640,000 bushels. A year age it stood at 64,600,000 bushels, an increase of 2,800,000 Bradstreet's visible abows a corn decrease

of 1,123,000 bushels and an oats decreased 676,000 bushels. Terminal receipts in cars were reported

TURLOCK CANTALOUPES NEXT WEEK BIG SHERIDAN HAY CROP PROMISED Imperial Valley Shipping Senson Is Now Nearly Over.

The seamon for Southern California canta-loupes is drawing to a close. Only one car arrived yesterday and not many are known to be rolling. Cantaloupes from Turlock should be in the market next week. The first car of peaches from Yakima will arrive this morning. They will be of the Triumph variety and will sell for about \$5

Apricot canning time has now arrived and the fruit is of good quality and reasonable in price. Another car is due from We-natchee today. The hot wave cut down the

Eastern Oregon apricot crop.

Tomatoes are closely cleaned up. A car will arrive this morning from Merced and Saturday there will be another shipment of Merced tomatoes. Eastern Oregon green corn of small size is in market and selling at 25@30 cents a dozen. Crabapples have appeared and are bringing 75 cents in half-

BROADER CALL FOR TERRITORY WOOL Foreign Grades Still Constitute Bulk of

In its weekly market review Fibre and Fabric, of Boston, says:

'It appears that there is a broadening demand for territory wools since the last few days, but foreign wools still constitute the bulk of the sales, although not nearly so great. The bulk of the business is apparently being done by some of the larger houses with the smaller dealers getting a fair lookin on the new business now and then.

'The wool trade seem no chance as yet for a break in prices either in the local market or

in the West. Growers are holding tight, and in some Instances prices demanded a few weeks ago for certain clips have gone up. On the other hand, some manufacturers seem to think that demestic wool at almost any price is too dear because prices cannot be increased in the goods market to offset the increase in the price of raw material. Tet in spite of such an attitude they are boylor foreten wools at ruling prices and seem to be bent on accumulating quite a lot of it, although the price may seem high, though possibly below the replacement point whether here or abroad."

Butter Market Is Stendy. The California demand for butter is strong, but local prices are helding

Eggs are also steady at former quota-Receipts are about equal to the de-Poultry arrivals were small and prices remained firm, good hens selling at 12% cents. The demand for vest was slack and the market was weak.

Butter and Eggs in Storage. The National Warehousemen's report, out Wednesday, showed the amount of eggs in 45 of the largest warehouses of the country on July 1 at 5,752,000 cases against 2,332,000 cases the same date a year ago, an increase of \$25,900 cases. The butter holdings on July 1 were 42,321,000 against 42,282,000 younds

Grain Harvest Is on at Same Time and Banner Year Expected. EHERIDAN, Or., July 13.—(Special.)—All the hay in this section is down and with continuing good weather will be baled in good shape. Late raths have made the season just a week later than usual and the result will be that the hay and grain harvest will go on together. Binding of grain has commenced.

STRAWBERRY YIELD IS RECORD.

Small Patch at Wallown Establishes Mark for Quantity and Size, for Quantity and Size,

WALLOWA Or., July 13.—(Special.)—
In a patch of atrawberries belonging to C.
I. Allen, only 26 feet by 80 feet, 101 galions of berries already have been picked,
and it has been estimated that there will
be about 200 gallons more.

The berries are the "Gold Dollar" and
"New Oregon" varieties. They are large,
solid and of a deep red color. Twenty-four
berries filled a quart measure and eight
berries laid side by side measured 15 inches.
The season in the Wallowa Valley for
herries is much later than in many sections.
A few years ago it was thought that berries could not be raised here on account of
the late frosts.

New York Sugar Market. NEW YORK, July 13.—Raw sigar, easy; centrifugal, 4.83-25.86c; molasses, 4:060 1.00c; refined, atendy,

Record High Prices Are Scored by Numerous Issues.

STEEL IS ALSO IN DEMAND

Improvement in Railway Traffic Is Shown by Decrease in Number of Idle Cars-Gold Imported From South America.

NEW YORK. July 12.—The so-called war shares, together with ailled industrials and equipments, comprised the bulk of the trading today. Highest prices ever recorded were scored by Bathiehem Bisel at 178%, American Can at 51%, New York Air Brake at 104%, General Motors at 178. Studebaker at 51% and Republic Steel preferred at 50.

Other co-related issues made gains of 2 to 4 points and American Coal Products added another 12% points to its recent meteoric accent, all of which it later relinquished. United States Steel was said the most active stock, being in demand at steady, though alight advances, or growing realizing of betterment in the steel industry. Can and Westinghouse came next in volume of output. It was regarded as significant of the market trend that such leading stocks as Reading, Union Pacific and Amalgamated Copper were relatively quiet. Prices received from their best in the final hour, with some heaviness in Union Pacific, Canadian Pacific, American Smelling and Amalgamated Copper, which closed with moderate net losses.

Total sales amounted to 617,000 shares,

Total sales amounted to 617,000 shares to most active session in almost a fort light. night.
Foreign exchange markets reflected in a measure the success of the new British war toan. Sterling bills being distinctly firmer, though losing a triffe later on offerings of commercial bills.

An interesting development of the exchange situation was the receipt of gold to the amount of \$1,300,000 from South America, the importation being made possible because exchange naturally favors this market.

Ket.

That railroad tonnage is beginning to move forward was seen on the latest statement of idle cars as of Joly 1, showing a decrease in the surplus of such equipment of almost 25,000 cars, compared with the preceding month. This favorable condition was partly offset by a ruling of the Interstate Commission which suspended rate increases in situatural steel between Chicago and Pacific Coast points. Coast points.

Foreign selling of bonds was on a diminished scale today, but a large part of the trading was in United States Steel & Total sales, par value, aggregated \$2,820,000. United States bonds were unchanged on call.

High Price for Virginia Wool.

PARKERISHURG, W. Va., July 13.—Wool buyers from eastern markets, eager to horry this year's clip to the mills, are offering what are said to be the best prices in the history of the West Virginia wool industry. Several thousand pounds were sold yesterday in Burbour County for 55 cents a pound. The suitation as regards Australian wool and the demand for woolen goods for European armies are said to be the cause of the high prices. High Price for Virginia Wool.

## MARKET FIRM AT YARDS

LIGHT HOGS SELL AT 87.50 AT CLOSE OF DAY.

Nickel Advance in Price of Choice Lambs-Receipts of Cattle Are Light.

Arrivals at the stockyards yesterday were

small and most of the cattle that figure) in the transactions were carried over from Monday, which explains the quality and the transactions were estried over from Monday, which explains the quality and prices of the maderity of the sales. In the hog division a \$7.50 market developed in the late tradings, after earlier husiness had been done at \$7.55 and \$7.40. Firmness prevailed in the mutton market. A lot of choice lambs brought \$5.55, a nickel better than the sid top, while good ewes brought fall prices.

The official weekly market report of the Portland Union Stockyards Company says:

The first-of-the-week run of cattle bears with a registration of 1000 head. Monday's market starting off brinkly at about steady prices on steers, a carlod of choice ones going at \$7 for tops, others of a little less equality bringing \$8,70; she-stuff showed a weakness and closed at 10 to 15 cents off.

Yiogs do not show any improvement in regard to the character of offerings; out of the 2700 received, none ware in prime shape. Market considered steady to a shade lower, tops bringing \$7.40.

"Choice lambs no doubt would bring \$8.50, ewes and wethers in proportion; 1700 changed hands Monday morning at an even price with last week."

Receipts were 7 cattle, 160 hogs and 21a sheep. Shippers were:

With bogs—J. C. Hubbard, Sonset, 1 car. With sheep—W. W. Smith, Corvaills, 1 car.

With mixed loads—J. C. Davis, Shedd, 1 p.

Wheat Soars on News From Dakotas and Minnesota.

REPORTS RAE CONFIRMED

Chicago Market Turns Quickly From Weakness to Strength-Exporters Buying on Larger Scale. Cash Premium Disappears.

CHICAGO. July 12.—Black russ reports from the Dakous and Minnesota today quickly turned the wheat market from weakness to strength. The result was a firm closes at 19c to 23c not advance.

At first, the black russ news met with increasing the Dakous and strength of the Carey land act until there increased the Dakous Agricultural College, and it was firmulated by the black russ a strength of the state against issuing deeds under the Carey land act until there was a firmulated to premote a strengt of the state and act until there was a firmulated developed that experience were boying much increased the limits of the seedon prices continued developed that experiency been increased with an arrest of the seedon prices continued developed the experience of the seedon prices from the interest before the black root exact began. Even after the market, as a whole, was accompared with July, had disappeared.

Developed the carry say in wheat values, and the early say in wheat values, as compared with July, had disappeared.

Core elsed off on account of improved metallic the control of the present and a contract index the carry say in wheat values. Buyers were searce. After opening 18.8 16. # MINING ACTIVITY GAINS

BIG PROPERTY IN BOHEMIA DIS-TRICT EXPECTED TO RESUME.

Steady Advance of Quicksilver in Price Inspires Hope That Mine Will Be Reopened.

COTTAGE GROVE, Or., July 12.—
(Special.)—Reports of renewed activity in the Bohemia district include a rumor that the large Champlon property will again become active. This erty will again become active. This closed down last season after a short, but successful, run, because of some difficulty over the ownership. It is expected that as soon as Manager Hard returns from his extended Eastern trip he will announce an active season at his properties. More small properties are active than there have been for a number of seasons. Several tons of supplies are being hauled into the Long placer claim.

of supplies are being hauled into the Long placer claim.

The advance in the price of copper and lead gives encouragement to the development of copper and lead properties. The Bohemia district is the only one in the state having shown lead in paying quantities and one of two camps in the state having a copper production last year.
With quicksilver steadily advancing

in price there is a hope that the hig quicksilver mine at Black Butte, which has been inactive for several years, will resume. Quicksilver has more than doubled in price since the mine The state geological survey will make an examination of these dis-

tricts this season.
