

A NEW LOT OF THE POPULAR "WELWORTH" BLOUSES JUST IN—ALWAYS PRICED \$2

Our New Store Talks of Interesting Facts—Number Eight

The control of the electrical current in our building is handled by a switchboard, located in the engine-room. By this switchboard every light and motor in the building can be instantly operated as we desire. The switchboard is 40 feet in length and weighs approximately 20 tons. There are 115 different points of distribution throughout the building where sections of lighting and power can be controlled. From these points of distribution there are 220 switches for the control of the lights all over the building. We have in our engine-room four generators, sufficient capacity to develop 1000 horsepower. The contractors who installed our electrical plant claim that it is the greatest piece of work west of Chicago and the Mississippi River.

Already the Silks, Dress Goods, Wash Goods, White Goods, Linens, Shoes and Patterns Have Moved Into the New Building and

It Will Not Be Long Before Everything Will Be Completed in Its Entirety and Then Our Gigantic

including those departments in the new store—except Contract Goods, "Silk Maid" Hose and Groceries.

Let Us All, as Loyal Americans

GREET WITH REVERENCE

The Grand Old Liberty Bell

The symbol of our independence and democracy, the old Liberty Bell, will be in Portland today. Perhaps it is only a piece of metal, cracked and tarnished, but it is surrounded by the most hallowed memory that we Americans are heir to.

Undoubtedly this is the last time the Liberty Bell will be permitted to leave its niche in Independence Hall—therefore, all Portland should show today proper respect for this relic of the past.

Let us all, then, as Americans and as citizens of the West and Portland, unite in Greeting With Respect—the LIBERTY BELL.

BOULEVARD IS ADVOCATED

Peninsula Drive Ordinance Will Be Presented to Council Soon.

With the annexation of St. Johns district to Portland renewed activity has started in behalf of Peninsula boulevard from Killingsworth avenue and Greeley street along the bluff overlooking the Willamette River through Lower Albina to Broadway bridge. The federated Peninsula committee has been awaiting completion of the merger before taking aggressive steps, and now it is planned to take up the matter with vigor. The merging of St. Johns will provide a much larger district to be benefited by the "cut-off," and consequently a bigger district to be assessed for the cost of the new street, materially reducing the cost to the individual lotowner.

The first ordinance establishing Peninsula boulevard will go before the Council next Wednesday, according to plans of the federated Peninsula committee. Cost of the right of way is estimated at \$110,000, but this will be cut to about \$60,000 by condemning the old St. Johns wagon road, which the boulevard replaces. The principal opposition was found along Killingsworth avenue by property owners who fear such a boulevard would divert traffic from that street.

At present almost all the motels used in the United States come to use from Europe, though the skin of the mole found in the eastern part of this country is far superior to the foreign product.

MR. MULHOLLAND IS GUEST

Rotarians Will Dine International President Today.

Frank L. Mulholland, of Toledo, O., president of the International Rotary Clubs of the World, will be guest of honor at a luncheon of the Portland Rotary Club at the Benson Hotel today at noon. Mayor Albee will be chairman of the day and will introduce the speaker.

A luncheon will be given for Mrs. Mulholland by wives of the Rotary Club members at the Hazelwood. Mr. and Mrs. Mulholland will be taken for a trip over the Columbia Highway this

afternoon and a dinner will be given in their honor at Chanticleer Inn.

One hundred members of the St. Paul Rotary Club will arrive in Portland tomorrow afternoon from San Francisco and the local Rotary Club will entertain them with trips about the city and a picnic at the Oaks.

VISITOR TO BE WELCOMED

Three-Hour Stay of Governor Walsh to Be Memorable.

Governor Walsh, of Massachusetts, will be in Portland only three hours, but the entertainment committee has arranged to fill those three hours with entertainment features that will send

the Governor and his party away with pleasant memories of Portland.

The Massachusetts Society and the Chamber of Commerce will send delegations to greet him at the North Bank station at 3:45, and a buffet dinner will be served for the visitors at the Chamber at 6 o'clock.

Immediately after this dinner the party will be taken for an automobile trip about the city and will be returned to the Union Depot at 8:15 to take the train for San Francisco.

Dr. J. F. Worcester is chairman of the committee from the Chamber. He is a personal friend of Governor Walsh and a former resident of Massachusetts.

The United States Forest Service is co-operating with 24 railroads, mining companies, pulp companies and cities in making tests of wooden ties, timber, poles, pilings and paving blocks which have been given preservative treatments.
