VALDEZ, Alaska, July 15 .- Flames that were checked only after a safety ine had been established about them by the use of dynamite wiped out the ousiness section of this town today with a loss of \$500,000. United States troops from Fort Liscum aided in fighting the fire and tonight are standing guard over the burned area in which 50 buildings were located. No loss of life has been reported.

There had been no rain in weeks and strong winds from off the huge glacier that discharges its debris just behind the town fanned the flames as they devoured the wooden buildings. The biggest loss was that of the Valdez Dock Company, which is placed at about \$100,000. S. Blum & Co., gen eral merchants, lost \$50,000. Altogether 50 buildings were Burned, with osses ranging from \$19,000 to \$50,000

Text of Austria's Note Not to Be Given Out Until Reply Is Ready, Which It Is Expected May Be in Fortnight.

WASHINGTON, July 15 .- The United States within another fortnight probably will send a reply to the note rereceived from the Austro-Hungarian government, which contended that the extensive shipments of allies was "not in consonance with the

definition of neutrality." Unofficially, word came today that Turkey would follow Germany and Austria in making representations on this subject, and should a note from the Ottoman government arrive, officials would delay the sending of their answer, so as to inform the Germanic allies simultaneously of the unalterable view of the United States on arms shipments.

Great Growth Emphasized. While Germany has admitted in dip matle correspondence with the United States the legal right of individuals a neutral country to sell munitions belligerents, some emphasis was placed on the supernormal growth of American industries for the manufacture of arms and explosives. The new offensive probably will be general and extend from the Baltic around the East Prussian border to the Vistula, west of Warsaw, for all the Russian troops in this section must be kept busy to prevent them from concentrating at the point where the fermans hope to break through.
