TELEN was cross when she got out of bed, she scowled when her aunt wanted to comb her hair, she cried when her dress was buttoned, because it was not the dress she wanted to wear that morning, and her preakfast did not suit her, so she sulked all breakfast time.

When Aunt Amy kissed her before she went to school she said, "I hope my little girl finds the Fairy Sunshine before her befor fore she returns.

Helen did not reply, but she looked said, "Yes, dear, there is one; see if you cannot find her."
Helen looked all the way to school,

for she had to go through parks, and every leaf that stirred caught Helen's eye that morning she was looking for the Fairy Sunshine.

When she came home she looked over the little bridge she had to cross and into the creek that babbled under it, but she did not see the fairy, and when at the dinner table Aunt Amy smiled, and did not ask if she had found the fairy, Helen decided that there was no such thing and that Aunt Amy didn't

COURAGE IS COMMON IN THIS

> London, July 26 .- Every Englishman knows how to die bravely. The Irish, Scotch and English soldiers face the bayonets, the machine guns as though out on dress parade. It is the men-who sicken and die in the trenches, or at home after an arduous campaign that our sympathy goes out to most. There are thousands of such men be-hind the battle lines who went to the front without the strong constitution and good pure blood to withstand the deprivations, the hardships of the campaign in Belgium and France. It's a warning that we should pay strict attention to our stomach, liver and blood. If one is all out of sorts he should take an invigorating tonic and alterative such as Dr. Pierce's Golden Medical Discovery which cures diseases of the stomach and organs of digestion and nutrition. It eliminates from the blood disease - breeding poisons. It makes the blood rich and pure, and furnishes a foundation for sound, physical health. Fifty years ago, Dr. Pierce, of the Invalids' Hotel and Surgical Institute, at Buffalo, N. Y., found that certain barks and roots manufactured by using glycerine without the use of alcohol or opiates, made into a concentrated extract, which he called Dr. Pierce's Golden Medical Discovery. made a stimulating tonic for the stomach, helped the digestion and assimilation of the food and eradicated poisons from the blood. This is nature's cure for indigestion, and by correcting the stomach, and thereby feeding the blood on pure materials, the red blood corpuscles are increased and the body established in a healthy state. No one suffers from catarrh who has plenty of red blood corpuscles and a good digestion. Catarrh in all its forms is a stagnation of the blood. Introduce pure red blood into the system by taking the "Medical Discovery" and health is assured.—Adv. similation of the food and eradicated

A judge in one of the courts gave the centence of seven years in a reformatory for the girl in the case being heard before him, but allowed the man to walk from the courtroom scot

That was the old-time man's world. But some clubwomen heard about it, also some men, fair-minded and just. They had some meetings about it and discussed the question of a man's world and a woman's world, or the old, old question of a double standard of morality. They persuaded some of the newspapers to take up the matter and as a result the case was heard over again and the girl freed.

But the matter did not end there. The affair had aroused so much discussion by this time that the whole subject was aired rather thoroughly and as a result more than 100 of New York's most progressive women have formed a committee to fight the double standard of morals that prevails, to the injustice of women, to the detri-ment of men could they be brought to see it, and to the injury of unborn

145 Sixth Street, Bet, Alder and Morrison,

To whiten and beautify the complexion permanently we have found no better preparation than a lotion

made by dissolving four ounces of spurmax in one-half pint hot water, then adding two teaspoonfuls glycerin, This removes any pimples, shiny, muddy or sallow appearance, and will make anyone's skin clear, smooth and velvety. It does not show or rub off like powder; in fact, it seems a part of the skin; and for removing tan and freckles is unequaled. It is necessary to shampoo more fre-

quently in the warmer weather because of excessive dust and the fact that the bead perspires more and is usually more exposed to the weather. The easiest-to-use and quickest-drying shampoo that we can recommend to our readers can be prepared very cheaply by dissolving a teaspoonful of canthrox, obtained from your druggist, in a cup of hot water. This rubbed into the scalp creates a thick lather, soothing and cooling in its action, and very beneficial to scalp and hair. After rinsing the scalp is fresh and clean and the hair dries quickly and evenly and takes on a bright luster and soft fluffiness that makes it seem very heavy .- Adv.
